

**South Oxfordshire District Council and Vale of White Horse District Council – Joint Local Plan 2041 (Regulation 19) Policy Review**

This policies matrix sets out the Local Plan 2041 (Regulation 19) policies<sup>1</sup> and describes how we have incorporated the cumulative impact of the policies into the viability assessment. The matrix 'sign-posts' the reader to particular cost and values evidence which reads across into the financial appraisals.

\* Those policies with a *Direct impact* on viability include policies such as affordable housing, minimum housing standards etc. that have a quantifiable impact on viability. These have been explicitly factored into our economic viability appraisals through cost and value assumptions etc.

Those policies with an *Indirect impact* have been incorporated into the viability study indirectly through the property market cost and value assumptions adopted e.g. market values, benchmark land value and BCIS costs etc. It is important to note that all the policies have an indirect impact on viability. The Local Plan sets the 'framework' for the property market to operate within. All the spatial policies have an indirect impact on viability through the operation of the property market (price mechanism).

Some policies are for very narrow specific circumstances of Development Management. These policies have *no material impact* on the value and cost assumptions for the viability Plan-making viability assessment.

Emerging Joint Local Plan 2041	Policy Contents [...paraphrased where appropriate for ease]	Impact on Viability *	Implications for Local Plan Viability Assessment
<b>Policy CE1 – Sustainable Design and Construction</b>	<ol style="list-style-type: none"> <li>1) All new development should seek to minimise the carbon and energy impacts of their design and construction. Proposals must demonstrate that they are seeking to limit greenhouse emissions through location, building orientation, design, landscape and planting, adopting a “fabric first” approach [...]</li> <li>2) All new development should be designed to improve resilience to the anticipated effects of climate change. Proposals should incorporate measures that address issues of adaptation to climate change taking account of best practice. These include resilience to extreme weather, including increasing temperatures and wind speeds, droughts, [...] All new developments must: <ol style="list-style-type: none"> <li>a) reduce the risk of flooding and conserve and store water in accordance with Policy CE6 (Flood risk and drainage) and Policy CE7 (Water efficiency);</li> <li>b) reduce the “heat island” effect through the use of cool materials and green infrastructure, such as utilising planting, i.e. providing trees for shade and cooling;</li> <li>c) complete the following overheating assessment: <ol style="list-style-type: none"> <li>i) all new housing development must complete CIBSE TM59 (or future equivalent assessment methodology) as route to compliance with Building Regulations Part O (or future equivalent legislation).</li> <li>ii) all new non-domestic buildings must complete CIBSE TM52 (or future equivalent assessment methodology).</li> </ol> </li> <li>d) be designed in accordance with the cooling hierarchy to reduce risk of overheating associated with increasing temperatures using the following sequential approach: <ol style="list-style-type: none"> <li>i) [...]</li> <li>ii) [...]</li> </ol> </li> </ol> </li> </ol>	Direct	<p>Whilst this policy will have an impact on the costs of development, many of these requirements broadly relate to meeting government standards. It is therefore anticipated that most costs will therefore be no higher than standard development costs.</p> <p>However, the Council has commissioned a separate study to determine the likely cost impact of implementing policies around sustainable and zero carbon development, over and above base build costs. This study has been undertaken by Currie and Brown and Bioregional. We have included the costs included in this assessment in our viability appraisals.</p> <p>See more detailed specific policies below.</p>

<p><b>Policy CE2 – Net Zero Carbon Buildings</b></p>	<p><b>Space Heating</b></p> <ol style="list-style-type: none"> <li>1) All housing and non-domestic buildings must demonstrate through an energy statement that they achieve a specific space heating demand (set out in per metre squared per year), as follows: <ol style="list-style-type: none"> <li>a) All new dwellings must have a space heating demand of &lt;15 kWh/m2/year (or &lt; 20 kWh/m2/year for bungalows only).</li> <li>b) All new non-domestic buildings must achieve a space heating demand of &lt;15 kWh/m2/year.</li> </ol> </li> <li>2) No new buildings are to be connected to the gas grid [...]</li> </ol> <p><b>Total Energy Use Intensity (EUI)</b></p> <ol style="list-style-type: none"> <li>3) EUI requirements are achieved as per building type (set out in kWh per metre squared per year) [...] <ol style="list-style-type: none"> <li>a) All new dwellings must demonstrate through an energy statement that they achieve an EUI of no more than 35 kWh/m2/year.</li> <li>b) All new non-domestic buildings must demonstrate through an energy statement that they achieve an EUI of no more than the following, where technically feasible, by building type: <ol style="list-style-type: none"> <li>i) Offices: 55 kWh/m2/year.</li> <li>ii) Schools: 55 kWh/m2/year.</li> <li>iii) Warehouses: 35 kWh/m2/year.</li> <li>iv) Retail: 35 kWh/m2/year.</li> <li>v) Where unregulated energy loads for the specific use [...]. Unregulated loads must be justified in an energy statement demonstrating they are as efficient as is reasonable for the use.</li> <li>vi) Other building types not listed above are required to [...]. Unregulated loads must be justified in an energy statement demonstrating they are as efficient as is reasonable for the use.</li> </ol> </li> </ol> </li> </ol>	<p>Direct</p>	<p>It is anticipated that this policy will have a direct impact on the cost of development as requirements go beyond national policy requirements or building regulations.</p> <p>The Council has commissioned a separate study to determine the likely cost impact of implementing these policies, over and above base build costs. This study has been undertaken by Currie and Brown and Bioregional. We have included the costs included in this assessment in our viability appraisals.</p> <p>To meet Zero Operational Carbon, Currie and Brown indicate that an uplift over base build rates from Part L 2021 will be as follows:</p> <ul style="list-style-type: none"> <li>• Semi-Detached – £7,087 per unit</li> <li>• Terraced - £6,391</li> <li>• Detached - £10,047</li> <li>• Flats – 6.2% Uplift</li> <li>• Retail – 1.2% Uplift</li> <li>• Offices – 6.1% Uplift</li> <li>• Warehousing – 0% Uplift</li> </ul>
--	--	---------------	--

	<p><b>Energy performance</b></p> <ul style="list-style-type: none"> <li>4) All new housing and non-domestic building proposals must generate at least the same amount of renewable energy (preferably on-plot) as the energy they demand over the course of a year, demonstrated through an energy statement. [...]</li> <li>5) Where a development of multiple buildings is concerned, the renewable energy generation requirement must be calculated and demonstrated across the whole development [...]</li> </ul> <p><b>Energy offsetting</b></p> <ul style="list-style-type: none"> <li>6) Only in exceptional circumstances and as a last resort where it is demonstrated and accepted by the council that it is unfeasible to achieve an on site net zero energy balance, any annual on site energy use not matched by on site annual renewable energy generation is to be offset. Where these exceptional circumstances arise, applicants must meet [... a range of criteria].</li> </ul> <p><b>Reduced performance gap</b></p> <ul style="list-style-type: none"> <li>7) Energy performance calculations of all new housing and non-residential units must be completed using Passivhaus Planning Package, CIBSE TM54, or other method demonstrably proven to produce accurate predictions in total in-use energy (subject to the council's approval of the method).</li> <li>8) The energy performance of all units is to be calculated individually and must demonstrate compliance with the space heating demand and EUI requirements of this policy.</li> <li>9) In exceptional circumstances (such as limited roof space available), it may be considered acceptable to achieve a site-wide average that complies with the space heat demand and EUI requirements of this policy. [...]</li> <li>10) All new housing and non-residential buildings must demonstrate use of an assured performance method (approved by the council) throughout all stages of construction in order to ensure that the</li> </ul>		
--	---	--	--

	<p>buildings' operational energy performance reflects design intentions and addresses the performance gap.</p> <p><b>Energy Demand Management</b></p> <p>11) Proposals for new housing and non-residential buildings should demonstrate through an energy statement how they have considered the difference (in scale and time) of renewable energy generation and the on site energy demand [...]</p> <p>12) Where the on site renewable energy generation peak is not expected to coincide with sufficient energy demand (resulting in a need to export or waste significant amounts of energy), proposals should demonstrate through an energy statement how they have explored scope for energy storage and/or smart energy systems [...]</p>		
<b>Policy CE3 – Reducing Embodied Carbon</b>	<p><b>Policy CE3 – Reducing embodied carbon</b></p> <p>1) To reduce embodied carbon and make effective use and protection of building materials and natural resources, new development must:</p> <ul style="list-style-type: none"> <li>a) demonstrate design decisions have been made to minimise the amount of material needed [...]</li> <li>b) demonstrate a careful choice of building materials, prioritising materials with lower embodied carbon and carbon negative emissions;</li> <li>c) prioritise the re-use, retention and retrofit of existing buildings, built structures and recycled and secondary waste materials following the waste hierarchy;</li> <li>d) redevelop previously developed land, provided the land is not of a high environmental value;</li> <li>e) avoid substantial demolition (whole or a significant part) [...]</li> <li>f) be designed to enable easy material re-use and disassembly [...]</li> <li>g) minimise construction waste. The applicant is required to set out how materials arising [...]</li> </ul>	Direct	<p>It is anticipated that this policy will have a direct impact on the cost of development for schemes including more than 50no. dwellings in South Oxfordshire (excluding specialist older persons housing with care accommodation) as requirements go beyond national policy requirements or building regulations.</p> <p>The councils commissioned a separate study to determine the likely cost impact of implementing these policies, over and above base build costs. This study has been undertaken by Currie and Brown and Bioregional. We have included the costs included in this assessment in our viability appraisals.</p> <p>To meet Zero Operational Carbon, Currie and Brown indicate that an uplift over base build rates from Part L 2021 will be as follows:</p>

	<p>h) maximise the use of locally sourced, repurposed or recycled materials where possible, especially from materials demolished on site. In the National Landscapes (formerly AONBs), conservation areas, and [...]</p> <p>2) All new major development must complete a whole life carbon assessment in accordance with RICS Whole Life Carbon Assessment guidance<sup>a</sup> and demonstrate actions to reduce life-cycle carbon emissions. This must include reducing emissions associated with construction equipment (e.g. plant).</p> <p>3) New residential developments of 50 homes or more in South Oxfordshire (excluding specialist older persons housing with care accommodation) and new non-residential development of 5000m<sup>2</sup> or more in South Oxfordshire and Vale of White Horse must limit embodied carbon (equating to the emissions covered by Modules A1-A5 of the RICS methodology<sup>a</sup>, or future equivalent methodology) to:</p> <p>a) Residential (excluding flats): 300 kgCO<sub>2</sub>e/m<sup>2</sup> GIA.</p> <p>b) Non-residential and flats: 475 kgCO<sub>2</sub>e/m<sup>2</sup> GIA.</p> <p>c) Non-residential and flats (from 2030): 350 kgCO<sub>2</sub>e/m<sup>2</sup> GIA.</p> <p>Other developments in South Oxfordshire and the Vale of White Horse are encouraged to meet these standards.</p> <p>4) Any shortfall to the embodied carbon limits set out in paragraph 3 will be required to offset these emissions through a financial contribution [...]</p> <p>5) All new development is encouraged to achieve LETI best practice 2030 embodied carbon targets (or future equivalent targets) (modules A1-A5) set out in the LETI 2020 Design Guide<sup>c</sup> (or future equivalent document).</p> <p><sup>a</sup> RICS (2024) WLCA Standard, available at: <a href="http://www.rics.org/profession-standards/rics-standards-and-guidance/sector-standards/construction-standards/whole-life-carbon-assessment">www.rics.org/profession-standards/rics-standards-and-guidance/sector-standards/construction-standards/whole-life-carbon-assessment</a></p> <p><sup>c</sup> LETI (2020) Climate Emergency Design Guide, available at: <a href="http://www.leti.uk/files/ugd/252d09_3b0f2acf2bb24c019f5ed9173fc5d9f4.pdf">www.leti.uk/files/ugd/252d09_3b0f2acf2bb24c019f5ed9173fc5d9f4.pdf</a></p>		<ul style="list-style-type: none"> <li>• Semi-Detached – £14,205 per unit</li> <li>• Terraced - £11,260 per unit</li> <li>• Detached - £24,620 per unit</li> <li>• Flats – 13.6% Uplift</li> <li>• Retail – 6.0% Uplift</li> <li>• Offices – 8.7% Uplift</li> <li>• Warehousing – 3% Uplift</li> </ul>
--	---	--	--

<b>Policy CE4 – Sustainable Retrofitting</b>	<p>[ This policy relates to retrofitting existing buildings with sustainable features.]</p> <ol style="list-style-type: none"> <li>1) Sustainable and sensitive retrofitting measures to existing buildings to improve their energy efficiency and adaptability to climate change, and the appropriate incorporation of renewables, will be supported.</li> <li>2) Development proposals which result in considerable improvements to the energy efficiency, carbon emissions and/or general suitability, condition and longevity of existing buildings will be supported, with significant weight attributed to those benefits.</li> <li>3) In the case of extensions to buildings, developments should take a whole building approach and are therefore encouraged to take the opportunity to upgrade the energy efficiency and energy generation of the existing building as well as the extension. Significant weight will be attributed to a whole building approach.</li> <li>4) Major development proposals within the districts should demonstrate through a pre-redevelopment audit (following a well-established industry best practice method, e.g. BRE) that opportunities for the retention and retrofitting of existing buildings, structures, and materials within the site have been identified and, where feasible and viable, included within the scheme. All schemes on sites that have pre-existing buildings should consider retrofitting opportunities as part of their design brief.</li> </ol>	<p>n/a</p>	<p>There is no direct impact on new-build development.</p>
<b>Policy CE5 – Renewable Energy</b>	<p>[ The Council encourages schemes for renewable and low carbon energy generation.]</p> <ol style="list-style-type: none"> <li>1) The council encourages schemes for renewable and low carbon energy generation and associated infrastructure at all scales, including domestic schemes and innovative schemes.</li> <li>2) Proposals for the exploration or extraction of fossil fuels will not be supported.</li> </ol> <p><b>Renewable and low carbon energy schemes</b></p>	<p>n/a</p>	<p>This policy relates to the delivery of renewable energy infrastructure.</p>

	<p>3) Planning applications for renewable and low carbon energy generation and their associated energy storage and distribution infrastructure will be supported, provided that they do not cause significant adverse impacts that cannot be mitigated and are reversible at the end of the life of the renewable energy installation, including cumulative and cross-boundary impacts on:</p> <ul style="list-style-type: none"> <li>a) landscape, tranquillity and sensitive views;</li> <li>b) biodiversity, including protected habitats and species and ecological networks;</li> <li>c) water quality and flood risk;</li> <li>d) the best and most versatile agricultural land (Grades 1, 2, and 3a) unless significant sustainability benefits are demonstrated to outweigh any loss;</li> <li>e) the historic environment, both designated and non-designated assets, including development within their settings;</li> <li>f) the openness of the Green Belt;</li> <li>g) the National Landscapes (formerly AONBs) and their settings;</li> <li>h) aviation and defence navigation systems/communications</li> <li>i) the safe movement of pedestrians, rail, traffic, and the enjoyment of public rights of way; and</li> <li>j) residential amenity (including as a result of noise, vibrations, dust, odour, air quality and shadow flicker).</li> </ul> <p><b>Wind Energy</b></p> <p>4) Planning applications for wind energy development meeting the requirements of part 3 of this policy, will be supported where they are located in an area identified as potentially suitable for wind energy development as shown on the Policies Map or in a neighbourhood plan.</p> <p><b>Solar Energy Proposals</b></p> <p>5) Planning applications for ground mounted solar energy and associated infrastructure meeting the requirements of part 3 of this policy, will be supported where they are located in an area</p>		
--	--	--	--

	<p>identified as potentially suitable for ground mounted solar development as shown on the Policies Map or in a neighbourhood plan.</p> <p>6) Proposals for building mounted solar thermal or photovoltaics panel (and associated infrastructure) installations in an appropriate position to maximise solar gain building will be supported and encouraged wherever possible, provided they meet the requirements set out in part 3 of this policy,</p> <p><b>Energy storage and grid reinforcement</b></p> <p>7) Proposals for battery energy storage systems (BESS) and associated infrastructure meeting the requirements of part 3 of this policy, will be supported where they are located in an area identified as potentially suitable for BESS as shown on the Policies Map or in a neighbourhood plan. Proposals for energy storage facilities other than BESS (such as thermal storage) will be supported where they meet the requirements set out in part 3 of this policy.</p> <p>8) Proposals for standalone grid capacity upgrades and local smart grids will be supported where they meet the requirements set out in part 3 of this policy.</p> <p>9) Proposals for standalone renewable and low carbon energy generation are encouraged to provide at least an additional 10% of energy storage (e.g. battery storage) of the overall energy generation.</p> <p>10) Proposals for, or developments which include, renewable energy and low carbon energy generation, should demonstrate how options for energy storage, smart grids, and energy sharing networks have been explored to reduce the need for grid capacity upgrades.</p> <p><b>Community led renewable and low carbon initiatives</b></p> <p>11) Community led renewable and low carbon energy initiatives are encouraged and will be given positive weight in decision making.</p>		
--	---	--	--

	<p>Evidence of community support should be demonstrated, with administrative and financial structures in place to deliver/manage the project and any income from it.</p> <p>12) Community led renewable and low carbon energy schemes that provide a community benefit in terms of profit sharing, or proportion of community ownership and delivery of local social and community benefits will also be encouraged and will be given positive weight in decision making.</p> <p>13) Commercial led renewable energy schemes with a capacity over 10MW shall provide an option to communities to own at least 5% of the scheme subject to viability.</p> <p><b>Decommissioning renewable energy infrastructure</b></p> <p>14) Planning permission for renewable energy and low carbon schemes will be subject to a condition requiring appropriate plans and mechanisms are in place for the decommissioning of renewable energy infrastructure at the end of its life, including the removal of the technology and restoration of the site to its original or accepted use and condition (within one year of the scheme becoming non-operational), and that materials removed will be re-used and recycled where practical. Any biodiversity net gain that has been achieved on site should also be retained in the decommissioning process at least long enough to meet the required minimum 30-year lifespan for mandatory biodiversity net gain laid out in national guidance.</p> <p><b>Protection of existing renewable energy infrastructure</b></p> <p>15) New development should not result in adverse impacts to renewable energy infrastructure that cannot be mitigated, including:</p> <ul style="list-style-type: none"> <li>a) the technical performance of any existing or approved renewable energy generation facility;</li> <li>b) the potential for optimisation of strategic renewable energy installations; and</li> </ul>		
--	--	--	--

	c) the availability of the resource, where the operation is dependent on uninterrupted flow of energy (such as sunlight, wind speeds or water flows) to the installation.		
<b>Policy CE6 – Flood Risk</b>	<p>1) The risk and impact of flooding must be minimised by:</p> <ul style="list-style-type: none"> <li>a) directing development to areas with the lowest risk of flooding from any source, taking into account current and future impacts of climate change;</li> <li>b) ensuring development does not increase the risk of flooding elsewhere;</li> <li>c) ensuring development is safe for its lifetime; and</li> <li>d) taking opportunities provided by development and improvements in green and other infrastructure to reduce the causes and impacts of flooding, making as much use as possible of natural flood management techniques that also deliver wider environmental benefits.</li> </ul> <p>2) Development in areas at risk of flooding must pass the Sequential Test and where necessary the Exception Test, where they are required by national planning policy and guidance. Regard should be had to the Joint Local Plan Strategic Flood Risk Assessment (or any future update) in applying the tests.</p> <p>3) A site-specific Flood Risk Assessment (FRA) must be provided for all development in Flood Zones 2 and 3. In Flood Zone 1 a FRA must accompany all proposals involving:</p> <ul style="list-style-type: none"> <li>a) sites of 1 hectare or more;</li> <li>b) land identified in the Strategic Flood Risk Assessment as being at increased flood risk in future; or</li> <li>c) land that may be subject to other sources of flooding, where its development would introduce a more vulnerable use.</li> </ul> <p>FRAs must consider all sources of flood risk and the impacts of climate change. FRAs must also consider the cumulative impact of development on flood risk as set out in the Joint Local Plan Strategic Flood Risk Assessment (or any future update). It should be demonstrated that flood risk downstream will not be made</p>	Direct	<p>We have included appropriate upfront Planning Application, Professional Fees, Surveys and report costs to allow for flood risk assessment and drainage design in our viability assessments.</p> <p>We assume that the normal cost of drainage (SUDs etc) can be incorporated into the scheme design and construction/external works at no additional costs.</p> <p>Where sites are at risk of flooding, we assume that the cost of the flood mitigation works would be deducted from the price of the land. A land owner cannot expect to receive the same price for a site which floods compared to an unencumbered site (which does not flood). This is in accordance with the PPG Paragraph 12 which suggests abnormal costs should be reflected in the land value.</p>

	<p>worse by development. Measures that contribute to a reduction in flood risk downstream are encouraged.</p> <p>4) Where flood risk is a consideration and relevant tests have been passed, development must:</p> <ol style="list-style-type: none"> <li>firstly, seek to minimise flood risk through design, with site layouts that locate the most vulnerable elements of development in areas of lowest flood risk (or on upper storeys) as far as possible and by raising finished floor and/or ground levels where appropriate.</li> <li>then, where appropriate, investigate opportunities to control the risk of flooding in discussion with the council, Environment Agency and Oxfordshire County Council (as Lead Local Flood Authority). Consideration should be given to natural flood management techniques.</li> <li>then use flood resistance and resilience measures to address any residual risk. Passive measures should be prioritised over active measures.</li> <li>then consider any further flood management measures required. Safe access and escape routes must be provided. Consideration must also be given to whether adequate flood warning will be available to people using the development.#</li> </ol> <p>5) Planning permission will not be granted for development in the functional flood plain (Flood Zone 3b) except where it is for water-compatible uses or essential infrastructure (as defined in national planning policy and guidance) or where it is on brownfield land and includes a high standard of flood resistance and resilience measures designed to decrease risk compared with the existing situation. All of the following criteria must also be met:</p> <ol style="list-style-type: none"> <li>development will not lead to a net increase in the built footprint and where possible will reduce the built footprint;</li> <li>development will not result in a reduction in flood storage and where possible will increase flood storage;</li> <li>development will not increase the risk of flooding elsewhere; and</li> </ol>		
--	--	--	--

	d) any future occupants of the development will not be put at risk and safe access and escape routes will be provided.		
<b>Policy CE7 – Water Efficiency Policy</b>	<ol style="list-style-type: none"> <li>1) It must be demonstrated that development has been designed to be water efficient and to minimise water consumption.</li> <li>2) All new homes must be designed to high water efficiency standards, with water use not exceeding 100 litres per person per day, or any future tighter standard that may replace this.</li> <li>3) Every new home with a garden must be fitted with at least one water butt (unless an alternative rainwater harvesting scheme is implemented that would make this redundant).</li> <li>4) Compliance with exemplar water efficiency standards [...] is encouraged.</li> <li>5) Development at site allocations and major development should maximise water efficiency through large-scale rainwater harvesting and grey water recycling schemes where it is feasible and viable to do so.</li> </ol>	Direct	<p>We recognise that there is a cost implication the enhanced water efficiency target. 100 litres per head per day is a pioneering requirement. This may involve technologies such as a smart water meter, low flow fittings and water efficient appliances.</p> <p>In this respect, we have explicitly included an allowance of £350 per unit for water efficiency. This is based on the report Future Homes Hub: Water Ready A Report to Inform HM Gov's Roadmap for Water Efficient New Homes.</p>
<b>Policy CE8 Water Quality, Wastewater Infrastructure and Drainage Policy</b>	<p><b>Protecting and enhancing water quality</b></p> <ol style="list-style-type: none"> <li>1) Development must protect and enhance water quality, including through: <ol style="list-style-type: none"> <li>a) the use of green infrastructure, including sustainable drainage systems (SuDS);</li> <li>b) utilising natural means of water quality improvements where possible, with mechanical water quality improvement devices only being used in situations where insufficient water quality improvement can be achieved through natural means;</li> <li>c) maximising water efficiency; and</li> <li>d) identifying and implementing opportunities to remedy historical water contamination issues, where appropriate.</li> </ol> </li> <li>2) Where a development includes the creation or extension of roads, the potential water quality issues associated with road runoff must be considered and appropriate mitigation provided to address impacts.</li> </ol>	Direct	<p>We assume that the efficient use of natural resources and materials is in the commercial interests of the developer and therefore can be incorporated into the scheme design and construction at no additional cost.</p> <p>Where sites are subject to particular contamination issues requiring remediation, the cost of this remediation should be deducted from the price of the land. A land owner cannot expect to receive the same land value for a contaminated brownfield site, compared to a greenfield site with no historic legacy. This is in accordance with the PPG Paragraph 12 which suggests abnormal costs should be reflected in the land value.</p>

	<p>3) Where development may have an adverse impact on water quality, evidence must be provided that identifies potential impacts [...]</p> <p><b>Meeting legal requirements</b></p> <p>4) Development, individually or cumulatively, must not prevent the future attainment of “good” status under the Water Environment (Water Framework Directive) (England and Wales) Regulations 2017a.</p> <p>5) Where there are impact pathways on habitats of national or international importance, development must not prevent a protected waterbody achieving the objectives set out in the Common Standards Monitoring Guidance<sup>b</sup> (or any future standards/guidance that may supersede this).</p> <p><b>Wastewater infrastructure</b></p> <p>6) There must be adequate wastewater treatment capacity to serve development.</p> <p>7) Applications for major development must be supported by a Sewage Capacity Assessment.</p> <p>8) Where wastewater infrastructure capacity constraints are identified, development must not commence until the delivery of sufficient new and/or upgraded wastewater infrastructure has been agreed and programmed (between the developer and Thames Water or other utility provider). [...]</p> <p><b>Drainage</b></p> <p>9) All development will be required to provide a Drainage Strategy.</p> <p>10) Development will be expected to incorporate sustainable drainage systems (SuDS) that:</p> <p>a) are well designed;</p>		
--	--	--	--

	<p>b) are appropriate to their location (for example, infiltration SuDS are unlikely to be appropriate in areas of contamination, even following remediation);</p> <p>c) are multifunctional, providing a range of benefits for people and nature, including protecting and enhancing water quality (including groundwater quality), managing flood risk and supporting biodiversity;</p> <p>d) attenuate run-off rates to greenfield run-off rates. Higher rates would need to be justified and the risks quantified. Development on brownfield land should reduce run-off rates to as close to greenfield rates as possible; and</p> <p>e) reduce the amount of water discharging to the wider wastewater infrastructure network at source, with opportunities taken to disconnect flows where possible. (For example, by using features such as water butts, swales and rain gardens, rather than direct network connections from gullies and rainwater pipes.)</p> <p>11) Major development must comply with the latest local standards and guidance for surface water drainage produced by the Lead Local Flood Authority (Oxfordshire County Council)<sup>c</sup>.</p> <p>12) No new surface water connections are to be connected to a foul sewer. For brownfield sites, where existing connections are proven, the drainage strategy should seek to either remove these if feasible or attenuate existing flows to as close to the QBar greenfield rate as feasible or to a rate acceptable to Thames Water whichever is the lower.</p> <p>13) In the case of extensions to buildings, changes of use and refurbishments, developments are encouraged to take the opportunity to upgrade the drainage of the existing building [...]</p> <p>14) All development will be required to demonstrate suitable arrangements for future maintenance and management of drainage schemes. [...]</p> <p>15) In areas where high groundwater could potentially affect the drainage system, specific measures should be incorporated in</p>

--	--	--	--

<p><b>Policy CE10 – Pollution Sources and Receptors</b></p>	<p><b>Impact of existing pollution on new development</b></p> <ol style="list-style-type: none"> <li>1) Development proposals should be appropriate to their location and should be designed to ensure that the occupiers of a new development will not be subject to individual and/or cumulative adverse affect(s) of pollution.</li> <li>2) Proposals will need to avoid or provide details of proposed mitigation methods to protect occupiers of a new development from the adverse impact(s) of pollution.</li> <li>3) Unless there is a realistic potential for appropriate mitigation, development will not be permitted if it is likely to be adversely affected by pollution. [...]</li> </ol> <p><b>Impact of new development on health, nature and neighbouring environments</b></p> <ol style="list-style-type: none"> <li>4) Development proposals must be designed to ensure that they will not result in significant adverse impacts on human health, the natural or historic environment and/or the amenity of neighbouring uses. Both individual and cumulative impacts of development will be considered when assessing development proposals. The merits of development proposals will be balanced against the adverse impact on human health, the natural and historic environment and/or [...]</li> </ol> <p><b>Agent of Change</b></p> <ol style="list-style-type: none"> <li>5) Planning proposals must acknowledge the agent of change principle and ensure new development is designed to mitigate any potential adverse impacts from established noise and other nuisance-generating uses. [...]</li> <li>6) Proposals for development which involves the use, movement or storage of hazardous substances will be referred to the Health and Safety Executive and/or the Environment Agency.</li> <li>7) Proposals for development within the vicinity of an installation or pipeline involving hazardous substances or activities will be</li> </ol>	<p>Indirect</p>	<p>Where pollution is present, it is anticipated that there will be cost associated with mitigation or remediation. However, we assume that as an abnormal cost, this will be deducted from the land value. A landowner cannot expect to receive the same value for a polluted site as they would for a site which does not have such an issue.</p> <p>In respect of Culham and Harwell, we assume that the developer will take into account the specific considerations and these will be factored into the price paid for land.</p>
---	---	-----------------	---

	<p>referred to the Health and Safety Executive and/or the Environment Agency.</p> <p>8) In the case of either 6 or 7, development will only be permitted if the impact on health and safety of occupants of that development is acceptable.</p> <p>9) The council will seek to reduce the potential for conflicting land uses and promote safety of people and protection of the environment.</p> <p><b>Nuclear Restoration Services (NRS) Harwell</b></p> <p>10) All development proposals within the boundary of the NRS Harwell nuclear licensed site will be referred to the Office for Nuclear Regulation (ONR). The following proposals for development within the Outer Consultation Zone (OCZ) for NRS Harwell (as shown on the Policies Map) will also be referred to ONR:</p> <ul style="list-style-type: none"> <li>a) any new residential development of 200 dwellings or greater;</li> <li>b) any re-use or re-classification of an existing development that will lead to a material increase in the size of an existing development (greater than 500 persons);</li> <li>c) any new non-residential development that could introduce vulnerable groups to the OCZ; and</li> <li>d) any new development, re-use or re-classification of an existing development that could pose an external hazard to the site.</li> </ul>		
<b>Policy CE11 – Light Pollution and Dark Skies</b>	<p>1) All proposals for development should be designed to minimise light pollution, both external lighting and as a consequence of light leakage from the interior of buildings. [...]</p>	n/a	It is anticipated that design of schemes to meet these requirements will not add any additional costs to a development.
<b>Policy CE12 Soils and Contaminated Land</b>	<p><b>Protecting and enhancing soils</b></p> <p>1) Development should be directed to suitable brownfield land wherever possible. Where development of agricultural land is demonstrated to be necessary, areas of poorer quality land</p>	Indirect	Contaminated land will generate a cost to development. However, this cost should be reflected in the land value, as required by Paragraph 12 of the PPG on Viability.

	<p>(Agricultural Land Classification grades 3b, 4 and 5) should be preferred to those of a higher quality (grades 1, 2 and 3a). Proposals for development on the best and most versatile agricultural land<sup>a</sup> must include a soil handling plan and sustainable soil management strategy based on detailed soil surveys.</p> <p>2) Development must recognise and seek to protect the many benefits provided by soils (including for ecological connectivity, carbon storage and drainage). Harm to soils of high environmental value (such as wetland and peatland) must be avoided.</p> <p>3) Development in South Oxfordshire and Vale of White Horse must protect and enhance soils and the ecosystem services they provide [...]</p> <p><b>Assessing land contamination</b></p> <p>4) Where land is known or suspected of being contaminated, any planning application will require at least a Phase One Contaminated Land Preliminary Risk Assessment [...]</p> <p>5) Where there is currently no information to suggest that contaminated land may be present, any planning application proposing uses that are particularly vulnerable to contamination<sup>c</sup> must be accompanied by a Contaminated Land Questionnaire<sup>d</sup>.</p> <p>6) Development should be designed to ensure that it will not contribute to land contamination. [...]</p> <p><b>Addressing land contamination</b></p> <p>7) If a proposal would otherwise result in an unacceptable level of risk to human health, groundwater and surface water and/or the wider natural environment from land contamination, applicants must provide proportionate remediation or mitigation to reduce risk to an acceptable level.</p>		
--	--	--	--

	<p><b>Land Stability</b></p> <p>8) Development should not contribute to, or be put at unacceptable risk from, land instability. Where it applies, consideration should be given to South Oxfordshire District Council's Karst Susceptibility Hazard Map, available to view as part of the Policies Map.</p> <p><i>a The best and most versatile agricultural land is land in grades 1, 2 and 3a of the Agricultural Land Classification.</i></p> <p><i>c Uses classed as particularly vulnerable to land contamination include residential housing, nursing homes, allotments, schools, nurseries and crèches, children's playing areas and playing fields.</i></p> <p><i>d Oxfordshire City Council, South Oxfordshire District Council and Vale of White Horse District Council Contaminated Land Questionnaire, available at: <a href="https://www.southoxon.gov.uk/south-oxfordshire-district-council/environment-and-neighbourhood-issues/environmental-advice/contaminated-land/">https://www.southoxon.gov.uk/south-oxfordshire-district-council/environment-and-neighbourhood-issues/environmental-advice/contaminated-land/</a> and <a href="http://www.whitehorsedc.gov.uk/wp-content/uploads/sites/3/2021/07/2020-Contaminated-Land-Questionnaire.pdf">www.whitehorsedc.gov.uk/wp-content/uploads/sites/3/2021/07/2020-Contaminated-Land-Questionnaire.pdf</a>.</i></p>		
<b>Policy CE13 – Minerals and Safeguarding</b>	<p>1) Development in a Minerals Safeguarding Area that would prevent or otherwise hinder the possible future working of the mineral will only be permitted where it can be shown that:</p> <ul style="list-style-type: none"> <li>a) the site has been allocated for development in the Joint Local Plan or a made neighbourhood plan; or</li> <li>b) the need for the development outweighs the economic and sustainability considerations relating to the mineral resource; or</li> <li>c) the mineral will be extracted prior to the development taking place, where it is proportionate, practical and environmentally feasible to do so.</li> </ul> <p>2) Consideration will be given to the Minerals and Waste Local Plan in determining planning applications for non-minerals development in Minerals Safeguarding Areas.</p> <p>3) The minerals planning authority, Oxfordshire County Council, will be consulted on all planning applications for development within a Minerals Consultation Area.</p>	Indirect	Where developers are required to extract minerals prior to development, there will be a direct cost. However, we would consider this to be an abnormal cost and one reflected in the land value.

	<i>a Oxfordshire County Council (2017) Minerals and Waste Local Plan, available at <a href="https://www.oxfordshire.gov.uk/residents/environment-and-planning/planning/planning-policy/minerals-and-waste-policy">https://www.oxfordshire.gov.uk/residents/environment-and-planning/planning/planning-policy/minerals-and-waste-policy</a></i>		
<b>Policy SP1 – Spatial Strategy</b>	<ol style="list-style-type: none"> <li>1) We will conserve and enhance the special qualities of our nationally protected landscapes, the Chilterns and North Wessex Downs National Landscapes.</li> <li>2) We will maintain the openness of the Oxford Green Belt. Development in the Green Belt will be considered in accordance with the National Planning Policy Framework. [...]</li> <li>3) Within Science Vale, we will continue to deliver development, through housing at the sites allocated in this plan and sustainable economic development at Culham Campus, Harwell Campus and Milton Park.</li> <li>4) At the Garden Communities of Didcot, Berinsfield and Dalton Barracks we will support housing and some economic development to achieve holistically planned new or regenerated settlements which enhance the natural environment, tackles climate change and provide high quality affordable housing and locally accessible jobs in beautiful, healthy and sociable communities.</li> <li>5) We will support new development on well-located brownfield sites, and identify a new brownfield site allocation at Dalton Barracks.</li> <li>6) For windfall housing developments, we will support sustainable locations that maximise brownfield land redevelopment opportunities and are appropriate to the site's location within the settlement hierarchy defined in Policy SP2 (Settlement hierarchy). Development of the types described in Policy SP2 will be supported within the built-up area of highest tiered settlements of Tiers 1, 2, 3, with Tier 4 limited to brownfield sites, replacement dwellings or subdivision.</li> <li>7) On brownfield land at Tiers 1 to 4 of the settlement hierarchy we will encourage employment proposals where they will secure the redevelopment of existing employment sites.</li> </ol>	Indirect	Indirect impact through the price mechanism.

	<p>8) Development in the countryside, including areas outside of existing built-up areas, will not be appropriate unless specifically supported by other relevant policies as set out in the development plan or national policy [...]</p> <p>9) We will support the delivery of viable and developable existing site allocations and commitments in the local plans and neighbourhood plans that haven't been completed yet. All housing and employment sites are listed within chapter 8 and Policy JT1 (Meeting employment needs).</p> <p>10) We will allocate sufficient sites to meet the existing agreed unmet housing needs of Oxford.</p> <p>11) We will support our communities with the preparation of neighbourhood plans [...]</p> <p>12) We will take a positive approach when considering development proposals that reflect the presumption in favour of sustainable development contained in the National Planning Policy Framework.</p> <p><sup>a</sup> Correct as of 1 April 2023</p>		
<b>Policy SP2 – Settlement Hierarchy</b>	<p>Development will be required to comply with the spatial strategy set out in Policy SP1 (Spatial strategy).</p> <p>In addition to the kinds of development shown for each tier below, development may be supported by other relevant policies set out in the development plan or by national policy, for example through allocations (in this plan or neighbourhood development plans), on rural exceptions sites and rural workers' dwellings.</p> <p>The settlement hierarchy is split into 4 tiers as shown in the settlement hierarchy table. Each tier of settlement has a different strategic role [...]</p>	Indirect	<p>Indirect impact through the price mechanism.</p> <p>Note that the policy classifies the various settlements within the District.</p>
<b>Policy SP3 – The Strategy for</b>	<p>1) The Joint Local Plan identifies Didcot Garden Town as the gateway to and focus of sustainable development and regeneration for Science Vale. Proposals for development within</p>	Indirect	<p>Indirect impact through the price mechanism.</p>

<p><b>Didcot Garden Town</b></p>	<p>the Didcot Garden Town Masterplan Area and the wider Area of Influence (as defined on the Policies Map<sup>a</sup>) must demonstrate how they positively contribute to the achievement of the Didcot Garden Town Principles [...]</p> <ul style="list-style-type: none"> <li>a) Design - The Garden Town Masterplan area will be characterised by high quality, sustainable design [...]</li> <li>b) Local Character - The Garden Town Masterplan area will establish a confident and unique identity, becoming a destination in itself [...]</li> <li>c) Density and tenure - The Garden Town Masterplan area will incorporate a variety of densities, housing types and tenures [...]</li> <li>d) Transport and movement - Within the Garden Town Masterplan area and the Area of Influence we will reduce reliance on motorised vehicles and promote a step-change towards active travel and public transport [...]</li> <li>e) Heritage - Within the Garden Town Masterplan area and the Area of Influence we will conserve and enhance heritage assets, both designated and non-designated. [...]</li> <li>f) Landscape and green infrastructure - New development in the Garden Town Masterplan area will enhance the natural environment, through enhancing green and blue infrastructure networks, creating ecological networks to support a net gain in biodiversity and supporting climate resilience [...]</li> <li>g) Social and community benefits - The planning of the Garden Town will be community-focused, creating accessible and vibrant neighbourhoods around a strong town centre [...]</li> </ul> <p>2) Within the Didcot Garden Town Masterplan area development proposals will be required to address the following:</p> <ul style="list-style-type: none"> <li>a) deliver allocated housing and employment sites [...]</li> <li>b) encourage safe, healthy and active spaces through green infrastructure led improvements to the public realm, including a new GP facility at the Great Western Park development;</li> <li>c) support the implementation of a phasing plan for biodiversity enhancements in Didcot and explore each development sites</li> </ul>		
----------------------------------	--	--	--

	<p>potential for other blue and green infrastructure enhancements;</p> <ul style="list-style-type: none"> <li>d) compliment green infrastructure projects proposed by the Didcot's community [...]</li> <li>e) support active travel and multi-modal sustainable infrastructure that aligns with the Didcot and Science Vale Travel Plans, as well as alignment with planned infrastructure schemes [...]</li> <li>f) Where relevant, complement the regeneration of the Didcot Parkway mobility hub;</li> <li>g) support integrated parking for modes of transport that support the increase in public transport use, ensuring services for users, and consider links to mobility hubs;</li> <li>h) complement improvements to enhance connectivity and inclusivity for Didcot Parkway and satellite railway stations in the Area of Influence at Appleford and Culham, including innovative transport solutions such as the trialled Milton Park autonomous vehicles;</li> <li>i) strengthen the retail offer in Didcot Town Centre and compliment the initiative to deliver “meanwhile” [...]</li> <li>j) conserve and enhance the town's heritage assets;</li> <li>k) support placemaking through public arts improvements and the cultural offering [...]</li> <li>l) deliver recreational provision for all abilities [...]</li> </ul> <p>3) The Didcot Area of Influence may be affected by proposals within the Masterplan boundary, and within the Area of Influence development proposals will be required to address the following:</p> <ul style="list-style-type: none"> <li>a) recognise that well-known and valued landscape features near to Didcot: Wittenham Clumps and the River Thames are notable features contributing to Didcot's natural setting;</li> <li>b) protect key views, [...]</li> <li>c) consider green infrastructure assessments and their conclusions about the access to green/open space on the outskirts of Didcot [...]</li> </ul>

<b>Policy HOU3 – Affordable Housing</b>	<p>1) Development proposals for specialist older person’s accommodation (C2 where self-contained units), C3 dwellings, and Build to Rent accommodation will provide affordable housing contributions where:</p> <p>a) the development would result in a net gain of 10 or more dwellings or where the site has an area of 0.5 hectares or more; or</p> <p>b) the development would result in a net gain of 5 or more dwellings within a National Landscape.</p> <p>2) Developments of C3 dwellings, including specialist older person’s housing with support accommodation, that contribute to affordable housing under criterion 1 will provide 50% of dwellings on site as affordable homes if they are in South Oxfordshire, and 40% of dwellings on site as affordable homes if they are in Vale of White Horse. This will be delivered across the following tenures:</p> <table><tr><td></td><td><b>Market</b></td><td colspan="4"><b>Affordable</b></td></tr><tr><td></td><td></td><td colspan="2"><b>To rent</b></td><td colspan="2"><b>To buy</b></td></tr><tr><td></td><td></td><td><b>Social rent</b></td><td><b>Affordable rent</b></td><td><b>First homes</b></td><td><b>Intermediate home ownership</b></td></tr></table>		<b>Market</b>	<b>Affordable</b>						<b>To rent</b>		<b>To buy</b>				<b>Social rent</b>	<b>Affordable rent</b>	<b>First homes</b>	<b>Intermediate home ownership</b>	Direct	We have had explicit regard to this affordable housing policy (target and mix) within our financial viability assessment. See the Typologies Matrix.
	<b>Market</b>	<b>Affordable</b>																			
		<b>To rent</b>		<b>To buy</b>																	
		<b>Social rent</b>	<b>Affordable rent</b>	<b>First homes</b>	<b>Intermediate home ownership</b>																

South Oxfordshire	50%	25%	2.5%	3%	19.5%
Vale of White Horse	60%	25%	3%	6%	6%

3) Developments of specialist older person’s housing with care accommodation that contribute to affordable housing under criterion 1 will provide 30% of dwellings on site as affordable homes. Proposals will need to demonstrate an appropriate mix of affordable housing tenure for specialist older person’s accommodation, as shown on the table below, and having regard to the councils’ latest evidence.

	Market	Social rent	Affordable rent	Intermediate home ownership
South Oxfordshire	70%	7.5%	15%	7.5%
Vale of White Horse	70%	7.5%	15%	7.5%

4) Developments of Build to Rent housing that contribute to affordable housing under criterion 1 will provide 20% of dwellings on site as affordable private rent.

5) In cases where the percentage calculation provides a part dwelling, a financial contribution will be sought equivalent to that part residential unit.

6) Where First Homes are sought, they will be required to be delivered at a 30% discount of market value.

7) Proposals delivering above these standards will be supported where they contribute to creating mixed and balanced communities. Neighbourhood planning groups are encouraged to consider local needs for affordable housing and where

	<p>appropriate allocate sites for development including sites for 100% affordable homes.</p> <p>8) Proposals for qualifying developments that do not provide affordable housing in accordance with the standards in criteria 2 or 3 will only be permitted where the applicant can satisfactorily demonstrate, through an open book viability assessment, that the level of affordable housing being sought would be unviable. In such circumstances, the council may support an alternative quantum and mix of affordable housing tenures identified in the open book viability assessment.</p> <p>9) An overage clause will be sought in respect of future profits and affordable housing provision, where levels of affordable housing fall below policy targets.</p> <p>10) Proposals where affordable housing is required must be designed to ensure:</p> <ul style="list-style-type: none"> <li>a) affordable housing is indistinguishable in appearance from market housing on site;</li> <li>b) affordable housing is distributed evenly across the site where it is provided alongside open market housing; and</li> <li>c) that where affordable housing is clustered together on site, this should be proportionate to the scale of development and each cluster should not exceed a maximum of 15 units.</li> </ul> <p>11) A financial contribution or off site provision may be acceptable where it is robustly justified. This may relate to the whole or part of the requirement, this will be considered on a case-by-case basis. Design and layout of proposals by themselves are unlikely to justify a departure from on site delivery.</p> <p>12) Planning permission will be refused for development proposals where it appears that a larger site has been sub-divided into smaller development parcels, or the site capacity has been reduced in order to avoid the requirements of the affordable housing policy.</p>		
--	--	--	--

Policy HOU4 – Housing Mix and Size	1) All proposals for C3 homes must provide a mix of sizes of new homes for each tenure type as set out in the tables below:	Direct	We have had explicit regard to this Housing Mix and Size policy within our financial viability assessment. See the Typologies Matrix.															
	South Oxfordshire																	
	<table><tr><td></td><td>1 bed</td><td>2 bed</td><td>3 bed</td><td>4 bed</td></tr><tr><td>Market</td><td>5%</td><td>20%</td><td>69%</td><td>6%</td></tr><tr><td>Affordable</td><td>8%</td><td>37%</td><td>46%</td><td>9%</td></tr></table>				1 bed	2 bed	3 bed	4 bed	Market	5%	20%	69%	6%	Affordable	8%	37%	46%	9%
				1 bed	2 bed	3 bed	4 bed

	Affordable			8%	37%	46%	9%											
	Vale of White Horse																	
	<table><tr><td></td><td>1 bed</td><td>2 bed</td><td>3 bed</td><td>4 bed</td></tr><tr><td>Market</td><td>5%</td><td>10%</td><td>70%</td><td>15%</td></tr><tr><td>Affordable</td><td>13%</td><td>34%</td><td>40%</td><td>13%</td></tr></table>				1 bed	2 bed	3 bed	4 bed	Market	5%	10%	70%	15%	Affordable	13%	34%	40%	13%
				1 bed	2 bed	3 bed	4 bed											
	Market			5%	10%	70%	15%											
Affordable	13%	34%	40%	13%														
2) All affordable homes and 1 and 2 bed market homes should be delivered to meet the Nationally Described Space Standards.																		
3) All new homes must be built to at least M4(2) (Category 2: Accessible and adaptable dwellings) standards (or any equivalent replacement standards).																		
4) In residential development of 10 homes or more, a percentage of homes must be built to M4(3) (Category 3: Wheelchair user dwellings) standards (or any equivalent replacement standards) as set out in the tables below:																		
South Oxfordshire																		
<table><tr><td>Affordable homes</td><td>2%</td></tr><tr><td>Market homes</td><td>3%</td></tr></table>	Affordable homes	2%	Market homes	3%														
Affordable homes	2%																	
Market homes	3%																	
Vale of White Horse																		
<table><tr><td>Affordable homes</td><td>11%</td></tr></table>	Affordable homes	11%																
Affordable homes	11%																	

	<p><b>Market homes</b></p> <p>13%</p>		
	<p>5) Where the scale of development would generate more than one M4(2) or M4(3) home the mix of sizes, types and tenures of accessible housing should reflect the mix of sizes, types and tenures of the development as a whole as closely as possible (unless there is evidenced need for additional accessible housing in one particular type of affordable housing tenure).</p> <p>6) The required number and mix of accessible homes should be clearly illustrated on submitted plans and controlled via planning condition.</p> <p>7) Where it can be robustly justified using evidence that site specific factors, such as site topography or heritage impact, make a site unsuitable for M4(2) and/or M4(3) compliant homes, criteria 3 and 4 of this policy should not apply.</p> <p>8) Proposals for major residential development must include a provision of, or appropriate financial contribution towards, specialist housing for social care, having regard to the councils' latest evidence.</p> <p>9) The requirements of this policy apply to all new homes, including those created through conversion or subdivision.</p>		
<p><b>Policy HOU5 – Housing for Older People</b></p>	<p><b>Addressing the needs of older people</b></p> <p><i>Specialist housing with care</i></p> <p>1) Proposals for 500 homes or more will be expected to provide at least 60 housing with care units on site. However, site allocations within the Joint Local Plan have their own, site-specific requirements as follows:</p>	<p>Direct</p>	<p>We have had explicit regard to this Housing Mix policy within our financial viability assessment. See the Typologies Matrix.</p>

	<b>Provision of specialist, housing with care for older people on allocations in South Oxfordshire</b>					
	<b>Site</b>	<b>Number of housing with care units to deliver</b>				
	Land at Berinsfield Garden Village	60				
	Land adjacent to Culham Campus	60				
	Land South of Grenoble Road	60				
	Land at Northfield	60				
	Land at Bayswater Brook	120				
	<b>Total</b>	<b>360</b>				
	<b>Provision of specialist, housing with care for older people on allocations in Vale of White Horse</b>					
	<b>Site</b>	<b>Number of housing with care units to deliver</b>				
	North West of Valley Park	90				
	North West of Grove	60				
	Land at Dalton Barracks Garden Village	180				
	<b>Total</b>	<b>330</b>				
	2) Local communities will be encouraged to identify suitable sites of specialist housing with care for older people through neighbourhood plans.					
	<b>Specialist housing with support</b>					
	3) In residential developments of 10 dwellings or more, at least 5% of homes should also be designed as housing with support for older people, unless specific site conditions make this impractical or unviable. This provision should:					

	<ul style="list-style-type: none"> <li>a) incorporate housing designed for older people (excluding extra care housing or housing with care), such as retirement development, bungalows, and/or ground-floor accommodation, to be determined on a site-by-site basis depending on the demand in a particular area and the site context; and</li> <li>b) be located within walking distance to proposed on site amenities (such as shops, healthcare, open space and public transport), or within walking distance of existing amenities in the settlement.</li> </ul> <p>4) Local communities will be encouraged to identify suitable sites for specialist housing with support for older people through neighbourhood plans.</p> <p><b><i>Proposals for specialist housing for older people</i></b></p> <p>5) Proposals for either specialist housing with care, or housing with support, that specifically accommodates older persons (55 years or older) will be supported provided that:</p> <ul style="list-style-type: none"> <li>a) the site is of an appropriate scale and located in a suitable location supported by Policies SP1 (Spatial strategy) and SP2 (Settlement hierarchy);</li> <li>b) the form, scale and design of the development is appropriate for older residents;</li> <li>c) local healthcare or social service provision can meet the needs of the proposal without detriment to the local community;</li> <li>d) the development will contribute positively to developing relationships within the wider community, involve interaction and connection, and support the ability of residents to be independent for longer; and</li> <li>e) a legal agreement restricts the occupation of units (excluding warden's accommodation) to households containing at least one person aged 55 or over.</li> </ul>		
--	---	--	--

	6) All specialist, extra care housing for older people should be delivered to M4(3) standards, unless site specific factors make this unsuitable.		
<b>Policy HOU6 – Self-Build and Custom-Build Housing</b>	<ol style="list-style-type: none"> <li>1) The council will support proposals for self-build and custom-build housing that are in accordance with policies in the Development Plan.</li> <li>2) Neighbourhood plans are encouraged to consider the local need for this type of development and where appropriate identify specific sites to allocate for self-build and/or custom-build housing.</li> <li>3) Proposals for major self-build and custom housebuilding development (a net gain of ten or more self-build and custom-build dwellings or five or more in the National Landscapes) are expected to: <ol style="list-style-type: none"> <li>a) deliver affordable self-build or custom-build plots in accordance with Policy HOU7 (Affordable self and custom-build housing); and</li> <li>b) deliver an appropriate mix of plot sizes in accordance with Policy HOU4 (Housing mix and size).</li> </ol> </li> <li>4) Large scale major residential developments are required to provide 5% of the residential units as serviced plots for self-build and custom-build, appropriately designed and incorporated into the masterplan, and as part of the first planning application. Serviced plots required on large scale major residential development sites will not be counted towards the overall requirement for the provision of affordable housing, although they may be provided as affordable self-build and custom build housing in accordance with Policy HOU7 (Affordable self and custom-build housing).</li> <li>5) Where permission is granted or self-build and custom-build plots, those plots for sale must be marketed: <ol style="list-style-type: none"> <li>a) as self-build and/or custom housebuilding serviced plots; or</li> <li>b) as shell homes where self-build and or custom housebuilding serviced plots under a) have been suitably marketed for a period of 6 months and have not sold.</li> </ol> </li> </ol>	Indirect	Major proposals for custom-build and self-build are expected to provide affordable self-build and custom-build. However, it is anticipated that where these schemes come forward, the quantum of proposed affordable space will not be included at levels which would render the schemes unviable.

	<p>6) Where an applicant can demonstrate that a unit has been suitably marketed for 6 months as a market self-build or custom housebuilding plot (including to those on the relevant council's self-build and custom housebuilding register), then 6 subsequent months as a shell home, and it has not sold, the council will permit applications to build these plots as standard market housing.</p> <p>7) Proposals for self-build and/or custom housebuilding should have regard to the Joint Design Guide<sup>a</sup>, Neighbourhood Plan Character Assessments and Design Codes.</p> <p><i>a South Oxfordshire and Vale of White Horse (2022) Joint Design Guide, available at: <a href="https://data.southoxon.gov.uk/SAV/JDG.html#gsc.tab=0">https://data.southoxon.gov.uk/SAV/JDG.html#gsc.tab=0</a></i></p>		
<b>Policy HOU7 – Affordable Self and Custom-Build Housing</b>	<p>1) Where provision for affordable housing is required from self-build and/or custom-build housing schemes in accordance with Policy HOU6 (Self-build and custom-build housing), this will be achieved through one of the following mechanisms agreed with the council through granting planning permission and secured in perpetuity:</p> <p>a) Serviced building plots are made available below market value and are subject to a legal agreement that restricts the resale value of the completed property to below market value;</p> <p>b) Homes are built as shared ownership properties – for example where a registered provider or council constructs the homes to the waterproof 'shell' stage and then enables private homebuilders to enter into a special form of shared ownership lease to complete the property. Once the work is satisfactorily completed this earns the homebuilder an equity share in the property, which means they need a smaller mortgage or a lower deposit;</p> <p>c) A developer or landowner working in partnership with a recognised Registered Provider or alternative affordable housing provider (such as community led housing groups including community land trusts or housing co-operative) to</p>	Indirect	Where affordable self-build is delivered, it will reduce the amount payable for land. However, it is not anticipated that the level of proposed provision would be at a level which would render these types of scheme unviable.

	<p>develop plots for the development of affordable housing for rent or sale; or</p> <p>d) Where a self-builder commits (via an agreed legal document) that the resale of the dwelling shall be restricted to an eligible household for at least a 20% discount on market prices.</p> <p>2) Where provision is made for affordable self-build and/or custom-build housing, proposals must demonstrate an appropriate mix of plot sizes capable of delivering a dwelling mix in accordance with Policy HOU4 (Housing mix and size).</p> <p>3) Purchase and/or occupancy of affordable self-build and custom-build housing will be restricted to households who meet the council's and/or national eligibility criteria for affordable homeownership or rent.</p> <p>4) Any plots brought forward as affordable self-build or custom-build should be suitably marketed for at least 6 months. This is to include a period of 3 months marketing to those: on the council's housing register, households with a local connection registered on the council's self-build and custom housebuilding register, registered with a Registered Provider of social housing or a housing developer for affordable homeownership schemes and to local community led housing groups. Following the initial 3 months marketing the plots can also be marketed more widely for an additional 3 months to households without a local connection but still eligible for affordable homeownership or rent.</p> <p>5) In the event plots remain unsold following the marketing process in part 4 of this policy, the plots can then be sold on the open market.</p>		
<b>Policy HOU8 – Replacement Dwellings in the Countryside</b>	<p>1) Proposals for the replacement of an existing dwelling located outside the built-up areas of Tier 1-4 settlements will be permitted provided that:</p> <p>a) the development takes place in accordance with Policy CE3 (Reducing embodied carbon) [...]</p> <p>b) the existing dwelling can be lawfully used for residential purposes;</p>	n/a	It is not likely that a developer or homeowner will choose to replace an existing dwelling where it is unviable to do so.

	<ul style="list-style-type: none"> <li>c) the existing dwelling is not subject to a temporary or time limited planning permission;</li> <li>d) it is for a new dwelling which replaces an existing dwelling and only on a one-for-one basis;</li> <li>e) it is situated on the site of the original dwelling [...]</li> <li>f) the replacement dwelling does not have a greater harm on the character of the site and its surroundings than the existing dwelling due to its scale, height, size, form and materials.</li> </ul> <p>2) In the Green Belt, any replacement dwelling must not be materially larger than the dwelling it replaces (excluding garages and outbuildings).</p> <p>3) In the National Landscapes (formerly AONBs), the council seeks to further the purposes of conserving and enhancing the natural beauty of the area, wildlife and cultural heritage.</p>		
<b>Policy HOU9 – Sub-Division of Houses</b>	<p>1) The sub-division of dwellings will be permitted provided that:</p> <ul style="list-style-type: none"> <li>a) each dwelling will be completely self-contained;</li> <li>b) each dwelling is appropriate in terms of the size of the property and the proposed internal layout, access, private amenity space, bin storage and cycle and car parking provision; and</li> <li>c) there would be no demonstrable harm to the amenity of the occupiers of the proposed development and neighbouring properties.</li> </ul>	n/a	It is anticipated that sub-division will only be undertaken where it is viable to do so.
<b>Policy HOU10 – Meeting the Needs of Gypsies, Travellers and Travelling Show People</b>	<p>1) The plan provides for the identified need<sup>a</sup> for traveller pitches and travelling showpeople's plots during the plan period to 2041 through a combination of the following:</p> <ul style="list-style-type: none"> <li>a) implementation of extant planning permissions;</li> <li>b) extending or intensifying existing authorised sites or yards where possible to meet the needs of existing residents and their families;</li> <li>c) through the regularisation of unauthorised sites / pitches or sites / pitches with temporary permissions where there would be no unacceptable harm in doing so; and</li> </ul>	Indirect	<p>This policy regards the provision of pitches for Gypsy and Traveller, and Travelling Showpeople across the plan period.</p> <p>This is a minority sector of the property market. The supply of G&amp;T sites and new development may impact indirectly on the property market through the price mechanism (e.g. the land</p>

	<p>d) requiring provision of between 6 to 10 pitches on each of the following housing allocations within this plan:</p> <ul style="list-style-type: none"> <li>i) Land adjacent to Culham Campus</li> <li>ii) Land at Berinsfield Garden Village</li> <li>iii) Land South of Grenoble Road, Edge of Oxford</li> <li>iv) Land at Northfield, Edge of Oxford</li> <li>v) Land at Dalton Barracks Garden Village, Shippon</li> <li>vi) North West of Valley Park, Didcot</li> </ul> <p>2) Proposals for pitches / plots for Gypsies, Travellers and Travelling Showpeople will be permitted where:</p> <ul style="list-style-type: none"> <li>a) the proposed development is in an appropriate location adjacent to a settlement where there is a range of services and facilities, especially health and educational facilities;</li> <li>b) there would be no adverse impact on the amenity of future occupiers or existing neighbouring uses;</li> <li>c) the scale and type of development is appropriate to its location considering character, local services, and facilities;</li> <li>d) the site can be provided with safe electricity, drinking water, sewage treatment and waste disposal facilities;</li> <li>e) nearby existing outdoor amenity space, including child-friendly spaces to play can be safely accessed or where this is not possible provision is made on site;</li> <li>f) arrangements are put in place to ensure the proper management of the site to seek to ensure community cohesion between the settled and traveller communities; and</li> <li>g) there is clear demarcation of the site and pitch / plot boundaries using appropriate boundary treatments and landscaping which is characteristic of the local context.</li> </ul> <p><sup>a</sup> The identified need as set out within the councils' latest Gypsy, Traveller and Travelling Showperson Accommodation Assessment.</p>		cannot therefore be allocated as a residential site).
<b>Policy HOU11 – Safeguarding existing Gypsy, Traveller and</b>	<p>1) Proposals that result in the loss of authorised and permanent pitches or plots for residential use by gypsies, travellers and travelling showpeople will not be permitted unless the applicant can clearly demonstrate that:</p>	n/a	No impact on viability.

<b>Travelling Showpeople's sites</b>	<ul style="list-style-type: none"> <li>a) the site is no longer suitable for such use and suitable alternative provision is made for pitches / plots on a site of equal or better quality with equal access to services. Such alternative sites will be secured through planning conditions and legal obligations. Any replacement pitches should be available before the original site is lost; or</li> <li>b) there is no need for pitches / plots in the district and their loss would not generate a need.</li> </ul>		
<b>Policy HOU12 Rural and First Homes Exception Sites</b>	<ul style="list-style-type: none"> <li>1) The council will grant planning permission for small sites used for affordable homes on rural exception sites where: <ul style="list-style-type: none"> <li>a) they meet a clearly established local need identified through a robust housing needs assessment in accordance with a methodology agreed with the council;</li> <li>b) at least 75% of the site is brought forward as affordable homes;</li> <li>c) it is located within a settlement<sup>a</sup> or adjacent to an existing settlement<sup>a</sup>;</li> <li>d) the proposed development is of size and scale commensurate with the scale and character of to the settlement they are within or adjacent to and the established local housing need.</li> <li>e) they have no unacceptable impact on amenity, character and appearance, environment or highways;</li> <li>f) there are satisfactory arrangements to ensure that the benefits of affordable housing remain in perpetuity; and</li> <li>g) they do not form an isolated development and have access to local services and facilities.</li> </ul> </li> <li>2) Proposals for First Homes exception sites will be permitted where: <ul style="list-style-type: none"> <li>a) at least 75% of the homes on site are First Homes;</li> <li>b) they meet a clearly established local need identified through a robust housing needs assessment in accordance with a methodology agreed with the council;</li> <li>c) there are satisfactory arrangements to ensure that the benefits of affordable housing remain in perpetuity and that the dwellings remain available for local people;</li> </ul> </li> </ul>	Direct	The 75% affordable housing requirement will directly impact viability. We have tested such sites as part of our viability appraisals. See typologies matrix.

	<p>d) the proposed development is of a size and scale commensurate with the scale and character of the settlement they are within or adjacent to and the established local housing need</p> <p>e) they have no unacceptable impact on amenity, character and appearance, environment or highways;</p> <p>f) they do not form an isolated development [...]</p> <p>g) is located outside the Green Belt and National Landscape.</p> <p>3) Where robust evidence establishes that viability issues would prevent the delivery of an exception site either First Homes or Rural which is 100% affordable, the minimum level of market housing required to make the development viable will be favourably considered where it would ensure the provision of additional affordable housing to meet local needs. Where market housing is provided it should be indistinguishable in appearance and be integrated into the site and should not exceed a maximum of 25% of the units permitted.</p> <p><sup>a</sup> including settlements not listed in the settlement hierarchy (Policy SP2)</p>		
<b>Policy HOU13 – Community Led Housing Development</b>	<p>1) The council will grant planning permission for small sites for community-led affordable homes where:</p> <p>a) it is located within a settlement<sup>a</sup> or, it is adjacent to an existing settlement<sup>a</sup>;</p> <p>b) it is proportionate in scale to the settlement they are adjacent to or within, not exceeding:</p> <p>i) 5% of the number of dwellings in the existing settlement; and</p> <p>ii) 1 hectare in size.</p> <p>c) they do not form an isolated development and have access to local services and facilities; and</p> <p>d) they have no unacceptable impact on amenity, character and appearance, environment or highways.</p> <p>2) Proposals for community led housing must also demonstrate that:</p>	Direct	<p>This policy facilitates community housing. Given this policy requires delivery by a not-for profit and the organisation must demonstrate the viability of their proposals, we have not tested a specific typology, even though the policy seeks 100% affordable housing. These sorts of schemes also often benefit from funding which may be specific to the site and circumstances. It is anticipated that these sites would require viability testing on a case-by-case basis at Development Management stage.</p>

	<ul style="list-style-type: none"> <li>a) it is instigated and taken forward by a not-for-profit organisation set up and run primarily for the purpose of meeting the housing needs of the local community;</li> <li>b) the organisation should own, manage or steward the homes in accordance with an agreed management plan and demonstrate the financial viability of the proposal;</li> <li>c) the local community has been meaningfully engaged with, and involved in preparing the proposal, and there is local support for it; and</li> <li>d) there are benefits to the local community, with satisfactory arrangements to ensure that the benefits are clearly defined and legally protected in perpetuity.</li> </ul> <p>3) Where robust evidence establishes that viability issues would prevent the delivery of a community-led housing development which is 100% affordable, the minimum level of market housing required to make the development viable will be favourably considered where it would ensure the provision of additional affordable housing to meet local needs. Where market housing is provided it should be indistinguishable in appearance and be integrated into the site and should not exceed a maximum of 25% of the units permitted.</p> <p><sup>a</sup> including settlements not listed in the settlement hierarchy (Policy SP2)</p>		
<b>Policy HOU14 – Build to Rent Proposals</b>	<ul style="list-style-type: none"> <li>1) Planning permission will be granted for Build to Rent developments where: <ul style="list-style-type: none"> <li>a) it is in a location where residential development is supported by the settlement hierarchy (Policy SP2);</li> <li>b) it is delivered in accordance with an agreed management plan to include longer term tenancy and nomination arrangements;</li> <li>c) the appropriate mix of sizes of Build to Rent dwellings will be determined at the application stage having regard to site specific circumstances, relevant market signals, viability and the councils' latest evidence;</li> </ul> </li> </ul>	Direct	Mix and affordable housing requirements will have a direct impact on viability. However, it is noted that the policy requirement does not exceed the national benchmark, as set by the PPG: Build to Rent Paragraph: 002 Reference ID: 60-002-20180913.

	<p>d) it provides 20% affordable homes on site in the form affordable private rent set at a level that is at least 20% less than the private market rent (inclusive of service charges) for the same or equivalent property; and</p> <p>e) affordable private rent homes should be under common management control with the market rent Build to Rent homes. They should be distributed evenly throughout the development and be indistinguishable from the market rent homes in terms of appearance and quality.</p> <p>2) Where the applicant can demonstrate that the level of affordable housing being sought would be unviable, the council may consider whether alternative levels of affordable housing would be appropriate. Any departure from the percentage of affordable housing to be delivered will need to be supported by a viability assessment.</p>		Given the policy requirement is set at the minimum level, we have not been instructed to test the viability of build-to-rent development.
<b>Policy HOU15 – Houses in Multiple Occupation</b>	<p>1) Proposals for the conversion of an existing building to a large House in Multiple Occupation (HMOs) (7 or more residents) (sui generis use class) will be permitted provided that the development:</p> <p>a) would not harm the character of the area;</p> <p>b) would not harm the amenity of the occupants of nearby properties;</p> <p>c) is appropriate in terms of the size of the property and the proposed internal layout, access, private amenity space, bin storage and cycle and car parking provision; and</p> <p>d) would not bring the proportion of registered HMOs in a street to more than 20% of homes in 100 metres of street frontage measured in any direction from the property.</p> <p>2) Proposals for new, purpose-built HMOs will be permitted where they comply with the above criteria and Policy SP1 (Spatial strategy).</p>	n/a	Policy does not include any requirements which will influence viability.
<b>Policy HOU16 – Residential</b>	<p>1) Extensions to dwellings, or the erection and extension of ancillary buildings within the curtilage of a dwelling, will be permitted where [...]</p>	n/a	Policy deals with existing buildings and will not influence the viability of new development.

Extensions and Annexes	<div>2) Proposals for detached or attached residential annexes will be permitted provided that [...]</div> <div>3) Development should have regard to the Joint Design Guide, Neighbourhood Plan Character Assessments and Design Codes.</div>																							
Policy HOU17 – Rural Workers’ Dwellings	<div>1) Applications for rural workers’ dwellings within the countryside will be permitted where [...]</div>	n/a	Policy requirements will have no bearing on the viability of development. It is also anticipated that such development is unlikely to be proposed unless it delivers a more viable business.																					
Policy JT1 – Meeting Employment Needs	<div>1) During the plan period, provision will be made to meet the following employment requirements:<div>a) South Oxfordshire requirement: 25.8 hectares of employment land.</div><div>b) Vale of White Horse requirement: 113.2 hectares employment land.</div></div> <div>Table JT1.1: Sources of supply</div> <table><tr><td>Source</td><td>South Oxfordshire</td><td>Vale of White Horse</td></tr><tr><td>Allocations in the Joint Local Plan (hectares)</td><td>17.3</td><td>100.4</td></tr><tr><td>Carried forward existing allocations (hectares)</td><td>6.04</td><td>49.1</td></tr><tr><td>Sites with planning permission (pipeline) (hectares)</td><td>11</td><td>63</td></tr><tr><td>Local Development Orders and remaining Enterprise Zones (hectares)</td><td>0</td><td>52.18</td></tr><tr><td>Allocations in neighbourhood plans (hectares)</td><td>1</td><td>13.2</td></tr><tr><td>Total</td><td>35.34</td><td>277.88</td></tr></table> <div>Allocations in the Joint Local Plan comprise the following sites in Tables JT1.2 and JT1.3, and as shown on the Policies Map<sup>a</sup>.</div> <div>Table JT1.2: South Oxfordshire allocations</div>	Source	South Oxfordshire	Vale of White Horse	Allocations in the Joint Local Plan (hectares)	17.3	100.4	Carried forward existing allocations (hectares)	6.04	49.1	Sites with planning permission (pipeline) (hectares)	11	63	Local Development Orders and remaining Enterprise Zones (hectares)	0	52.18	Allocations in neighbourhood plans (hectares)	1	13.2	Total	35.34	277.88	Indirect	<div>Indirect impact through the pricing mechanism.</div> <div>For strategic sites, viability appraisals include the cost of land and then employment land receipts as income.</div>

2) Proposals for new employment development, on both allocated and unallocated sites, should provide for a range of sizes and					

	<p>types of premises, including flexible business space to meet current and future needs. [...]</p> <p>3) Proposals for employment development on unallocated sites that come forward through planning applications will be supported within existing employment sites<sup>c</sup> and on brownfield sites within the built-up area of Tier 1-4 settlements, where the development is of an appropriate scale and complies with other relevant policy considerations. Proposals for employment development elsewhere will not be supported, except as provided for under Policy JT5 (Supporting the rural economy) [...]</p> <p>4) Proposals for employment development will need to demonstrate how they are efficiently and effectively using the site.</p> <p>5) Proposals for employment uses must demonstrate that they:</p> <ul style="list-style-type: none"> <li>a) maximise the opportunity for sustainable transport modes including walking, cycling and public transport, in order to lower the impact of vehicle movements on the local and strategic road network;</li> <li>b) consider the effect on the character of the area, including landscape impacts; and</li> <li>c) include uses that are suitable for the location.</li> </ul> <p><sup>a</sup> South Oxfordshire and Vale of White Horse (2024) Joint Local Plan Policies Map, available at: <a href="https://www.southandvale.gov.uk/policies-map">https://www.southandvale.gov.uk/policies-map</a></p> <p><sup>b</sup> The Local Development Order for Didcot Technology Park has not been adopted yet. It will be reviewed at Full Council on 23 October 2024</p> <p><sup>c</sup> Existing employment sites covers all land/sites in existing employment use (within Use Classes E(g)i-iii, B2 and B8)</p>		
<b>Policy JT2 Protecting our Employment Sites</b>	<p>1) Where planning permission is required, proposals for the redevelopment or change of use of employment land (existing and allocated) to non-employment uses<sup>a</sup> will only be supported where:</p> <ul style="list-style-type: none"> <li>a) the applicants can demonstrate that any employment use is no longer viable; and</li> <li>b) it is evidenced that there is no market interest in the site following one year of active and effective marketing.</li> </ul> <p>2) Where evidence has been submitted that an employment-only use is not viable (on existing and allocated sites), proposals</p>	n/a	Although referencing viability, this policy will not directly influence the viability of employment sites.

	<p>should demonstrate how employment opportunities have been maximised and incorporated into a scheme, where possible.</p> <p>3) Proposals that improve the stock of existing employment land [...]</p> <p>4) Proposals for ancillary uses on existing employment land will be supported [...]</p> <p><sup>a</sup> <i>Falling outside Use Classes E(g)i-iii, B2 and B8.</i></p>		
<b>Policy JT3 – Affordable Workspace</b>	<p>1) The council supports proposals for genuinely affordable workspaces, incubators, accelerators or co-working spaces as new or converted developments within Tier 1-4 settlements or within existing employment areas to assist the foundational economy or other community, creative and arts sectors.</p> <p>2) Proposals for major new employment and mixed-use commercial developments (within Use Classes E(g)i-iii, B2 and B8) are expected to include affordable workspace. This could be through provision of workspace at a rate below market value or through financial contributions towards off site provision.</p> <p>3) An affordable workspace strategy will guide these major developments with details about the provision, function, and the management of these new affordable workspaces.</p>	n/a	Policy encourages delivery of affordable workspace but does not make this a requirement. Anticipated that this will only be delivered where viable.
<b>Policy JT4 Community Employment Plans</b>	<p>1) The council will require the submission of a site-specific Community Employment Plan (CEP) for the construction and end-use of all major non-residential schemes (commercial, retail, employment development) over 1,000 square metres and all residential schemes of over 500 homes, using a planning condition or legal agreement.</p> <p>2) The CEP must be prepared in partnership with the council and Local Enterprise Partnership to deliver the agreed CEP. [...]</p>	n/a	We note that the authorities are able to request S106 contributions for employment, skills development, apprenticeships etc, for larger schemes. In this respect the cost would be marginal and therefore we have assumed will be absorbed by overhead and profit/contingency so would not impact viability. Further it is in the same interests of the construction industry and services/manufacturing/logistics etc industries to have a strong labour pool to draw upon.
<b>Policy JT5 – Supporting the Rural Economy</b>	<p>1) Development that supports the sustainable growth of existing businesses (including the diversification of agricultural or other land-based rural businesses), and the creation of new</p>	n/a	Policy wording has no direct impact on the viability of such development.

	<p>sustainable land-based or agricultural businesses in the countryside<sup>a</sup> will be supported where:</p> <ul style="list-style-type: none"> <li>a) it respects the landscape character, visual quality, biodiversity and tranquillity of the countryside, particularly within the National Landscapes (formerly AONBs);</li> <li>b) it is in keeping with the scale and character of the locality and, where possible, is achieved through the conversion, re-use or extension of existing buildings;</li> <li>c) it has no unacceptable environmental impact from light, noise or air pollution;</li> <li>d) it has minimal impact on local communities, particularly in relation to levels of disturbance from increased traffic movements, vehicle parking and damage caused to Public Rights of Way;</li> <li>e) it maximises opportunities to access the site by sustainable modes, including via public transport, walking or cycling; and</li> <li>f) it is supported by a business plan demonstrating that it is viable into the future, where such proposals include the erection of new buildings.</li> </ul> <p>2) New non-agricultural or non-land-based businesses will not generally be supported in the countryside unless covered by Policy JT6 (Sustainable tourism and the visitor economy) and Policy JT7 (Overnight visitor accommodation) or is related to an approved infrastructure scheme.</p> <p>3) Any proposals for the enclosure of adjoining land as part of the re-use of a building will be an important consideration, especially in terms of potential impact on the landscape.</p> <p>4) In addition to the requirements of part 1 of this policy, proposals for the keeping, rearing, training and livery of horses on a commercial basis will be permitted where:</p> <ul style="list-style-type: none"> <li>a) the proposed premises will have safe access from the site to public bridleways, gallops or other exercise areas in order to avoid conflict between horses and other public highway users;</li> <li>b) the proposal does not unacceptably impact upon the landscape character, highways, and the amenity of its neighbours; and</li> </ul>		
--	---	--	--

	<p>c) it has no unacceptable environmental impact from light.</p> <p>5) To prevent the proliferation of buildings in the countryside, planning permission for the conversion of farm buildings may be subject to conditions to prevent their replacement by new buildings under permitted development rights. Similarly, planning permission is unlikely to be granted for the conversion of buildings erected as the result of a temporary permission or under permitted development rights, where they have clearly not been genuinely needed or used for agriculture.</p> <p><i><sup>a</sup> Outside settlements which fall within Tiers 1 to 4 of the settlement hierarchy as defined in Policy SP2 (Settlement hierarchy).</i></p>		
<b>Policy JT6 Supporting sustainable Tourism and the Visitor Economy</b>	<p>1) Development proposals for new visitor attractions within existing settlements<sup>a</sup> will be supported [...where various criteria are met]</p> <p>2) In locations outside existing settlements, new visitor attractions or the upgrading / enhancement of existing attractions (including farm diversification and recreational equine development) will be supported [...where various criteria are met]</p> <p>3) Subject to compliance with criteria 2(a) to (d) above, development proposals for rural diversification through the promotion of eco-tourism (including “dark sky” visitor experiences) will be supported in more remote locations in our districts.</p> <p>4) New visitor attractions, particularly in the countryside, will be expected to retain and utilise existing buildings, wherever possible. Where proposals include any new buildings, the applicant will need to submit evidence to demonstrate that their future business plan is viable.</p> <p>5) Support will be given to development proposals that improve public access to green spaces and the countryside via public footpaths, bridleways, restricted byways and other walking or cycling routes (including the National Trails, National Cycle Routes and the Strategic Active Travel Network), or through restoration of the local canal network and its associated towpaths or navigable sections of the local river network.</p>	n/a	Policy unlikely to have impact on viability.

	<p>6) Where planning permission is required, ancillary development to facilitate the temporary use of land for festivals or community events will be supported, subject to acceptability when assessed against relevant policy criteria (dependent on location).</p> <p><sup>a</sup> Those which fall within Tiers 1 to 4 of the settlement hierarchy as defined in Policy SP2 (Settlement hierarchy)</p>		
<b>Policy JT7 – Overnight Visitor Accommodation</b>	<p>1) Development proposals for hotels, guest houses or other serviced visitor accommodation within existing settlements<sup>a</sup> will be supported [...where various criteria are met]</p> <p>2) Dual use of suitable sites or premises, such as public houses or motorway service areas, to provide guest rooms, campervan / motorhome stopovers (“aires”), cycle parking or hire facilities will be encouraged, [...]</p> <p>3) In locations outside existing settlements, development proposals for new visitor accommodation (or minor extensions to existing premises) will be supported where [...various criteria are met]</p> <p>4) New development proposals for overnight accommodation, particularly in the countryside, will be expected to retain and utilise existing buildings, wherever possible. [...]</p> <p>5) Subject to compliance with 3(a) to (d) above, proposals for new visitor accommodation which maximise opportunities for promoting eco-tourism in the districts will be supported.</p> <p>6) Protection against the loss of existing visitor accommodation (sites or premises) will be sought [...]</p> <p>7) Existing visitor moorings on rivers and canals in the districts will be protected [...]</p> <p>8) Proposals to relax or remove seasonal planning restrictions on the use of accommodation for tourism purposes will be supported, [...]</p> <p><sup>a</sup> Those which fall within Tiers 1 to 4 of the settlement hierarchy as defined in Policy SP2 (Settlement hierarchy).</p>	Indirect.	Policy unlikely to have impact on the viability of this type of development beyond encouraging its delivery in suitable locations. Indirect impact through the pricing mechanism.

<p><b>Policy LS1 – Proposals for Large Scale Major Development</b></p>	<p>1) Proposals for large scale major development<sup>a</sup> must:</p> <ul style="list-style-type: none"> <li>a. represent a comprehensive proposal that is well integrated with neighbouring uses where appropriate;</li> <li>b. ensure an appropriate scale and where required mix of uses, to create sustainable developments [...]</li> <li>c. include a comprehensive masterplan for the entire site that is informed by relevant technical studies. [...]</li> <li>d. demonstrate that the number and phasing of homes applied for, and the timing of housing delivery linked to the planned infrastructure is informed by evidence [...]</li> <li>e. ensure that necessary supporting infrastructure is provided, including social and community infrastructure. [...]</li> <li>f. provide sufficient leisure facilities and playing pitches, [...]</li> <li>g. be supported by relevant technical studies and supporting documents, depending on the site's characteristics and location, such as, but not limited to: <ul style="list-style-type: none"> <li>i) a Landscape and Visual Impact Assessment;</li> <li>ii) a Green Infrastructure Statement and Plan illustrating an integrated green infrastructure network;</li> <li>iii) a Landscape Management Plan (for full and detailed planning applications);</li> <li>iv) an Ecological and Landscape Management Plan to be provided to manage habitats on site;</li> <li>v) a Health Impact Assessment;</li> <li>vi) a Transport Assessment and Travel Plan;</li> <li>vii) an Air Quality Assessment;</li> <li>viii) an Arboricultural Survey;</li> <li>ix) an Ecological Impact Assessment;</li> <li>x) a Heritage Impact Assessment;</li> <li>xi) a Design Code</li> <li>xii) a Construction Environmental Management Plan;</li> <li>xiii) a site specific flood risk assessment which takes into consideration the findings and</li> </ul> </li> </ul>	<p>Direct</p>	<p>We have included within our financial viability assessments appropriate upfront Planning Application, Professional Fees, Surveys and report costs to allow for master-planning, Landscape and Visual Impact Assessments etc.</p> <p>We have incorporated specific strategic infrastructure costs and S106/s278 costs for the strategic sites. These costs have been cashflowed to show the timing of the infrastructure vis-à-vis the build out trajectory.</p>
--	--	---------------	--

	<p>recommendations of the Strategic Flood Risk Assessment;</p> <p>xiv) an integrated water management plan to include proposed foul and surface water drainage strategies, incorporating a sewage capacity assessment;</p> <p>xv) an archaeological desk based assessment to provide an assessment of archaeological significance;</p> <p>xvi) a noise assessment including noise during construction and noise insulation of development;</p> <p>xvii) Contaminated Land Preliminary Risk Assessment;</p> <p>xviii) a Sustainable Design and Construction Checklist;</p> <p>xix) a Whole Life Carbon Assessment;</p> <p>xx) for sites involving re-development, a pre-redevelopment audit;</p> <p>xxi) for sites proposing demolition, a pre-demolition audit; and</p> <p>xxii) an Energy Statement, detailing how it is intended to achieve net zero carbon emissions and facilitate renewable energy generation.</p> <p><sup>a</sup> A large scale major development is one where the number of residential dwellings to be constructed is 200 or more or 1,000 sqm of industrial, commercial or retail floor space. Where the number of residential dwellings or floor space to be constructed is not given in the application, or where there is a combination of employment and residential uses on site, a site area of 4 hectares or more should be used as the definition of a large-scale major development. For all other uses a large scale major development is one where the floorspace to be built is more than 10,000 sqm, or where the site area is more than 2 hectares. The definition for major development in a National Landscape (formerly AONB) differs. Please refer to NPPF paragraph 183, footnote 64. Please note the specific masterplan requirements set out in the AS Policies.</p>		
--	--	--	--

<p><b>Policy AS1 – Land at Berinsfield Garden Village</b></p>	<ol style="list-style-type: none"> <li>1) Land at Berinsfield Garden Village (as shown on the Policies Mapa) is allocated to deliver approximately 1,700 new homes, 60 units of housing with care for older people, between 6 and 10 pitches for gypsies and travellers, 5 hectares of additional employment land, and supporting services and facilities.</li> <li>2) Proposals for the development must demonstrate: <ol style="list-style-type: none"> <li>a) that the applicants have prepared a comprehensive masterplan taking into consideration the indicative concept plan (Figure 8.1), and the councils' Joint Design Guide. [...]</li> <li>b) how the proposed development is designed to facilitate the regeneration of Berinsfield, [...]</li> <li>c) how walking and cycling permeability will be achieved [...]</li> <li>d) how the necessary regeneration package has been identified and will be delivered, referring to the Infrastructure Delivery Plan, which is likely to include the refurbishment and expansion of the Abbey Sports Centre and library to accommodate new community facilities in a "community hub". This may include new premises for an expanded health centre or alternatively premises for a new health centre provided within the new development;</li> <li>e) how the proposed number of new homes will support the delivery of the regeneration package for Berinsfield;</li> <li>f) a total affordable housing provision in accordance with Policy HOU3 (Affordable housing), with a site specific mix of affordable tenures informed by robust local evidence that seeks to address existing local need, as well as rebalance the mix of housing tenures across the Garden Village;</li> <li>g) that at least 5% of homes are designed as housing with support for older people, unless specific site conditions make this impractical or unviable. 	<p>2) Each centre in the hierarchy is identified on the Policies Map<sup>a</sup> (with a boundary drawn for each town or local service centre – see also Policy TCR2 (Strategy for town and local service centres)).</p> <p><sup>a</sup> South Oxfordshire and Vale of White Horse (2024) Joint Local Plan Policies Map, available at: <a href="https://www.southandvale.gov.uk/policies-map">https://www.southandvale.gov.uk/policies-map</a></p>		
<b>Policy TCR2 – Strategy for Town and Local Service Centres</b>	<ol style="list-style-type: none"> <li>1) In order to protect the long-term vitality and viability of the town and local service centres identified in Policy TCR1 (Centre hierarchy), an appropriate mix of retail and other main town centre uses<sup>a</sup> will be sought. [...]</li> <li>2) A sequential approach to site selection for new retail or other main town centre uses will be applied, [...]</li> <li>3) Proposals for retail or commercial leisure development (including those relating to mezzanine floorspace and the variation of restrictive conditions) which are not located within a defined centre<sup>c</sup> and exceed the local floorspace thresholds set out below must be accompanied by an impact assessment, [...]</li> <li>4) Each threshold will apply to new floorspace and to applications for changes of use or variations of condition [...]</li> <li>5) Applicants will be expected to be flexible regarding the format and scale of their proposed development so that opportunities to utilise suitable town centre or edge of centre sites can be fully explored. [...]</li> <li>6) Within defined primary shopping areas (and in circumstances where planning permission is required), retail floorspace at ground floor level will be protected, [...]</li> <li>7) Residential development in appropriate locations within town centre boundaries will generally be supported, particularly through the conversion of floorspace above shops or other commercial premises.</li> </ol>	Indirect	<p>Indirect impact through the price mechanism.</p> <p>Policy relates to the location and nature of town centre uses. No direct impact on viability is expected.</p>

	<p>8) When determining applications for retail or commercial leisure development outside of our town centres, consideration will be given to whether planning conditions or legal agreements are needed to restrict the authorised use to that justified in the application submission.</p> <p>9) The retention and enhancement of existing community and farmers' markets will be encouraged [...]</p>		
<b>Policy TCR3 – Retail Floorspace Provision (Convenience and Comparison Goods)</b>	<p>1) To meet additional convenience goods retail floorspace needs and increase customer choice in the districts over the plan period:</p> <ul style="list-style-type: none"> <li>a) A “Town Centre First” approach (as set out in Policy TCR2 (Strategy for town and local service centres)) will be applied [...]</li> <li>b) Sites should be identified in Henley-on-Thames and Thame, through the review of the Henley and Harpsden and Thame Neighbourhood Development Plans respectively, to accommodate a single format food store with at least 1,500 sqm net sales floorspace; and</li> <li>c) The provision of new convenience (food store) floorspace as an integral part of the planned development set out in chapter 8 (Site allocations and garden villages) will be supported in principle. [...]</li> </ul> <p>2) Didcot Town Centre will remain the primary focus for any additional comparison retail floorspace across both districts.</p> <p>3) No new comparison retail floorspace needs have been identified in Abingdon-on-Thames, Henley-on-Thames, Thame, Wallingford, Wantage or Faringdon over the plan period. [...]</p>	Indirect	<p>This policy encourages delivery of retail floorspace in the most appropriate locations. Impact on viability is therefore anticipated to be indirect.</p>
<b>Policy TCR4 – Retail and Service Provision in Villages and Local Centres</b>	<p>1) New small-scale<sup>a</sup> proposals for shops or service uses to serve the day-to-day needs of the local community, will be supported where located in a village or local centre, as defined in Policy TCR1 (Centre hierarchy).</p> <p>2) Proposals for retail or commercial leisure development (including those relating to mezzanine floorspace and the variation of restrictive conditions) which are located within 800 metres of any</p>	Indirect	<p>This policy encourages delivery of retail floorspace in the most appropriate locations. Impact on viability is therefore anticipated to be indirect.</p>

	<p>village or local centre<sup>b</sup> and are in excess of 200 sqm gross will require an impact assessment, [...]</p> <p>3) Where planning permission is required, the loss or change of use of any shop or service use located within a village or local centre will not be permitted unless:</p> <ul style="list-style-type: none"> <li>a. there is another equivalent shop or service use accessible to customers within an 800m walking distance; or</li> <li>b. it can be demonstrated that the premises are no longer required to meet the needs of the local community or have become unviable, through evidence of at least twelve months active marketing. [...]</li> </ul> <p>4) New farm shops will be supported [...]</p> <p><sup>a</sup> Defined as 280 sqm or less as per Class F2 of the Town and Country Planning (Use Classes) Order 1987 (as amended).</p> <p><sup>b</sup> Where a centre is of limited scale and there is no boundary defined, the 800 metres measurement will be taken from the centre's midpoint, identified from the Policies Map.</p>		
<b>Policy DE1 -High Quality Design</b>	<p><b>Place and setting</b></p> <p>1) All development must achieve high quality design that:</p> <ul style="list-style-type: none"> <li>a. responds positively to the site and its surroundings, and reinforces local identity or establishes a distinct identity whilst not preventing innovative responses to context, demonstrated by a constraints and opportunities plan;</li> <li>b. responds positively to the history of a site and its surroundings, and conserves and enhances historic character;</li> <li>c. creates a distinctive sense of place through high quality townscape and landscaping that physically connects and visually integrates with its surroundings whilst avoiding coalescence with neighbouring settlements;</li> <li>d. retain or create any attractive and/or sensitive views and skyline (both of and from built and natural features) into, out of and within the site; and</li> </ul>	Direct	<p>Design policies will directly influence the costs of development.</p> <p>Both districts have always had high standards of design and this policy is nothing new. We assume that the construction costs and external works costs take into consideration the prevailing design quality across the districts.</p> <p>Note that the NPPF places particular emphasis on design quality. Paragraph 131 states that the 'creation of high quality, beautiful and sustainable buildings and places is fundamental to what the planning and development process should achieve.' It is important that the Council review the Plan regularly to ensure that design requirements</p>

	<p>e. is designed to ensure that it would have no impact on the operation or capability of defence sites or assets.</p> <p><b>Natural environment</b></p> <p>2) All development must achieve high quality design that:</p> <ul style="list-style-type: none"> <li>a) is landscape led, by retaining and strengthening the site's landscape features and character;</li> <li>b) retains and enhances biodiversity and delivers biodiversity net gain in accordance with Policy NH2 (Nature recovery);</li> <li>c) incorporates a well-defined network of green infrastructure and links to and improves access to existing green infrastructure in and within the vicinity of the development, in accordance with Policy HP6 (Green infrastructure on new developments);</li> <li>d) provides a range of high-quality green open spaces (providing for a variety of wildlife rich natural and designed landscapes and functions) that meet the needs of all users, and are safe, attractive, and accessible;</li> <li>e) avoids the use of artificial grass in residential development;</li> <li>f) uses planting to help development integrate into the landscape and to develop character and sense of place;</li> <li>g) takes opportunities to incorporate new trees in development, [...]</li> <li>h) uses trees and soft landscaping to create character and distinction between street types and to provide traffic calming.</li> </ul> <p><b>Movement and connectivity</b></p> <p>3) All development must achieve high quality design that:</p> <ul style="list-style-type: none"> <li>a) has a network of streets, paths and integrated cycleways that are safe, direct and legible, and connect with each other and the surrounding area (including to existing streets and cycle and walking paths); creating an attractive choice of routes for all users, with priority given to active travel and sustainable</li> </ul>		<p>and construction costs are not making development unviable.</p> <p>We have made sufficient allowances for professional fees to ensure that the costs of design are covered in our appraisals. We have also considered the impact this may have on construction costs.</p>
--	---	--	--

	<p>modes of transport utilising filtered permeability where appropriate;</p> <ul style="list-style-type: none"> <li>b) provides direct pedestrian and cycle links to local services and facilities [...]</li> <li>c) limits the impacts of car use and encourages movement by active travel by prioritising the needs of pedestrians, cyclists and public transport users (especially those with disabilities), over the needs of motorists within the design of streets, utilising traffic calming measures where car use is present (except on roads that function as bus corridors where traffic calming measures are not suitable);</li> <li>d) provides a clear and permeable hierarchy of streets, routes and spaces [...]</li> <li>e) includes accessible wayfinding / signposting to be installed to promote movement by pedestrians, cyclists and other active travel; and</li> <li>f) co-locates local services and facilities as appropriate within higher tier settlements (Tier 1 and 2) as set out in the settlement hierarchy, with good access to public transport and pedestrian and cycle links.</li> </ul> <p><b>Space and layout</b></p> <ul style="list-style-type: none"> <li>4) All development must achieve high quality design that: <ul style="list-style-type: none"> <li>a) secures a high-quality public realm [...]</li> <li>b) creates cohesive and walkable communities with incorporated and designed social spaces within the public realm, providing places for people to shade and shelter, rest, gather, interact, and spectate;</li> <li>c) ensures that streets and spaces are well overlooked, incorporate active frontages and create a positive relationship between the fronts and backs of buildings;</li> <li>d) has streets where buildings and landscaping are more visually prominent than the highway (including parking);</li> <li>e) provides a wide range of house types and tenures that meet local and district needs;</li> </ul> </li> </ul>		
--	---	--	--

	<ul style="list-style-type: none"> <li>f) clearly defines public and private spaces;</li> <li>g) ensures a sufficient level of well-integrated, innovative and contemporary solutions for street furniture, car and bicycle parking (including EV charging) and external storage, including bins;</li> <li>h) creates safe and secure communities [...]</li> <li>i) incorporates public art into, and/or within the vicinity of, major developments or sites of 0.5ha or more [...]</li> </ul> <p><b>Built form</b></p> <ul style="list-style-type: none"> <li>5) All development must achieve high quality design that: <ul style="list-style-type: none"> <li>a) respects the local context [...]</li> <li>b) chooses materials and detailing for the development inspired by the local context and local vernacular;</li> <li>c) uses land efficiently while respecting the existing landscape and/or townscape character;</li> <li>d) ensures the building line maintains or establishes a good street scene;</li> <li>e) does not differentiate between the design quality of market and affordable housing or the adjacent public realm;</li> <li>f) is designed to take account of possible future development in the local area, [...]</li> <li>g) understands and addresses the needs of all potential users by ensuring that buildings and their surroundings can be accessed and used by everyone through universally accessible and inclusive design;</li> <li>h) ensures that shopfronts are in keeping with the character of the building and street scene, [...]</li> <li>i) ensures that any advertisements are safe, attractive and well designed, [...]</li> </ul> </li> </ul> <p><b>Climate and sustainability</b></p> <ul style="list-style-type: none"> <li>6) All development must achieve high quality design that:</li> </ul>		
--	---	--	--

	<ul style="list-style-type: none"> <li>a) is sustainable and resilient to climate change impacts (including increasing temperatures, wind speeds, droughts, heavy rainfall and snowfall events) in accordance with Policy CE1 (Sustainable design and construction), taking into account location, building orientation, landscaping and planting;</li> <li>b) minimises energy consumption and carbon emissions (utilising a “fabric first” design approach in accordance with Policy CE1 (Sustainable design and construction)), and achieves an on site net zero energy balance for new buildings in accordance with Policy CE2 (Net zero carbon buildings);</li> <li>c) demonstrates design choices have been made to reduce embodied carbon emissions in accordance with Policy CE3 (Reducing embodied carbon), including using sustainable, locally and/or ethically sourced and accredited low embodied carbon materials and/or carbon negative materials [...]</li> <li>d) minimises vulnerability and improves resilience to flood risk from all sources, in accordance with Policy CE6 (Flood risk) and Policy HP6 (Green infrastructure on new developments); and</li> </ul> <p>7) Development must also satisfy requirements of the Joint Design Guide as well as any adopted local design guides or codes (such as those within neighbourhood plans) where relevant.</p>		
<b>Policy DE2 – Local Character and Identity</b>	<ul style="list-style-type: none"> <li>1) All new development must be designed to reflect the positive features that make up the character and identity of the local area and should both physically and visually enhance and complement the surroundings. [...]</li> <li>2) All proposals for new development should be informed by a contextual analysis [...]</li> <li>3) In the Chilterns National Landscape (formerly AONB), proposals for development should reflect the advice in the Chilterns Buildings Design Guide<sup>a</sup> and associated technical notes on brick, flint and roofing materials.</li> </ul>	Direct	<p>Design policies will directly influence the costs of development.</p> <p>Both districts have always had high standards of design and this policy is nothing new. We assume that the construction costs and external works costs take into consideration the prevailing design quality across the districts.</p>

	<p>4) In the North Wessex Downs National Landscape (formerly AONB), proposals for development should reflect the advice in the North Wessex Downs Colour Guide<sup>b</sup>.</p> <p>5) Development within or affecting a valued landscape must have regard to the Joint Local Plan Valued Landscape Assessment (or subsequent update) in accordance with Policy NH5 (District-valued landscapes);</p> <p>6) Where a Character Assessment has been prepared as part of a made neighbourhood plan, a proposal must demonstrate that the positive features identified in the Assessment have been incorporated into the design of the development.</p> <p>7) Proposals that have the potential to impact upon a Conservation Area or the setting of a Conservation Area should also take account of the relevant Conservation Area Appraisal and Management Plan or Character Study [...]</p> <p><sup>a</sup> Chilterns Buildings Design Guide, available at: <a href="https://www.chilterns.org.uk/wp-content/uploads/2022/09/CBDGChilternsBuildingsDesignGuide2010.pdf">https://www.chilterns.org.uk/wp-content/uploads/2022/09/CBDGChilternsBuildingsDesignGuide2010.pdf</a></p> <p><sup>b</sup> North Wessex Downs Colour Guide, available at: <a href="https://www.northwessexdowns.org.uk/our-work/planning/colour-study/">https://www.northwessexdowns.org.uk/our-work/planning/colour-study/</a></p>		<p>We have made sufficient allowances for professional fees to ensure that the costs of design are covered in our appraisals. We have also considered the impact this may have on construction costs.</p>
<p><b>Policy DE3 – Delivering Well-Designed New Development</b></p>	<p>1) Proposals for sites allocated in the Development Plan, including sites allocated within neighbourhood plans, and major development must be accompanied by a masterplan. For outline applications, an illustrative masterplan should be submitted. In all cases, the masterplan should:</p> <p><b>Land use</b></p> <p>a) identify the vision for the development, [...]</p> <p>b) clearly set out the character areas and land uses proposed including the amount, scale, height and density [...]</p> <p>c) illustrate how the proposal integrates with the surrounding built, historic and natural environments, [...]</p> <p>d) define a hierarchy of routes and the integration of suitable infrastructure, [...]</p>	<p>Direct</p>	<p>This policy will have a direct impact on professional fees as it requires masterplans for site allocations.</p> <p>Both districts have always had high standards of design, however.</p> <p>We have made sufficient allowances for professional fees to ensure that the costs of design are covered in our appraisals. This includes design and access statements and design codes. We have also considered the impact this may have on construction costs.</p> <p>We have incorporated an explicit appraisal of strategic sites.</p>

	<ul style="list-style-type: none"> <li>e) demonstrate a legible structure and identify key elements of townscape [...]</li> <li>f) set out the landscape strategy, [...]</li> </ul> <p><b>Design</b></p> <ul style="list-style-type: none"> <li>a) provide a framework plan for a design code;</li> <li>b) show how the design requirements of the scheme work within the masterplan vision [...]</li> <li>c) demonstrates a clear link to the criteria set out in Policy DE1 (High quality design), the Design and Access Statement and the Joint Design Guide;</li> <li>d) be based on a full understanding of the significance or special interest of the related historic environment, including above and below ground archaeological remains and other heritage assets within the site or its setting, and the conservation and enhancement of those remains or assets of significance or special interest;</li> <li>e) be based on the principles of natural surveillance and active street frontages [...]</li> </ul> <p><b>Community Facilities</b></p> <ul style="list-style-type: none"> <li>f) demonstrate as appropriate the careful siting of, and access to, community facilities and other amenities, [...]</li> </ul> <p><b>Design Codes</b></p> <ul style="list-style-type: none"> <li>2) Proposals for sites allocated in the Development Plan, including sites allocated within neighbourhood plans, and large-scale major development<sup>a</sup> must be accompanied by a design code. The design code should: <ul style="list-style-type: none"> <li>a) set out specific, detailed parameters for the physical development of a site;</li> <li>b) avoid detailed policy wording, instead presenting information in a graphical format; and</li> </ul> </li> </ul>		
--	--	--	--

	<p>c) where relevant, build upon details set out in the masterplan providing more specific, detailed design requirements.</p> <p><b>Design and Access Statements</b></p> <p>3) Where an application is required to be supported by a Design and Access Statement, it should be proportional to the scale and complexity of the proposal. It should include:</p> <ul style="list-style-type: none"> <li>a) a constraints and opportunities plan [...]</li> <li>b) a clear concept that shows how the design of the proposal and the rationale behind it has evolved, [...]</li> <li>c) the delivery implementation phases and strategies [...]</li> </ul> <p><b>Community Engagement</b></p> <p>4) Masterplans and design codes must demonstrate that they have been prepared with the involvement of the local community and other stakeholders [...]</p> <p>5) Engagement and collaboration with the local community and other stakeholders on planning applications should take place at an early stage, [...]</p> <p>6) Innovative engagement methods should be utilised where possible to engage the community in the planning process.</p> <p><b>Design Review</b></p> <p>7) The following development proposals will likely be subject to assessment by a Design Review Panel prior to its determination by the council:</p> <ul style="list-style-type: none"> <li>a) major residential and non-residential development [...]</li> <li>b) the site is particularly sensitive in terms of heritage, landscape, design, public interest, or local impact, irrespective of their scale, size and use; and</li> <li>c) significant public realm schemes [...]</li> </ul>		
--	---	--	--

	<p>This design review should take place as early on in the planning application stage as possible, preferably prior to submission at the pre-application stage.</p> <p><sup>a</sup> as defined in Policy LS1 (Proposals for large scale major development).</p>		
<b>Policy DE4: Optimising Densities</b>	<ol style="list-style-type: none"> <li>1) Planning permission will only be granted where it can be demonstrated that the proposal optimises and makes an efficient use of land and potential of the site. [...]</li> <li>2) The density of development must be informed by: <ol style="list-style-type: none"> <li>a) the capacity of the site and the need to use land efficiently;</li> <li>b) the need to achieve high quality sustainable design that respects local character;</li> <li>c) local circumstances and site constraints, including the required housing mix, and the need to protect or enhance the local environment, National Landscapes (formerly AONBs), the significance of heritage assets (including their settings), and important landscapes, [...]</li> <li>d) the site's current and future level of accessibility [...]</li> <li>e) the need to minimise detrimental impacts on the amenity of future and/or adjoining occupiers.</li> </ol> </li> <li>3) Sites well related to higher tier settlements (Tier 1 and 2) and served by public transport, or with good accessibility by foot or bicycle to town centres or a district centre within Oxford City, should be capable of accommodating development at higher densities. It is expected that these sites will accommodate densities of more than 45 dwellings per hectare (net) unless there is a clear conflict with delivering a high quality design or other clearly justified planning reasons for a lower density.</li> <li>4) Applicants should demonstrate that a scheme makes the optimal use of the site, [...]</li> </ol>	Direct	<p>This policy encourages careful consideration of density and encourages suitable densities in the right locations. This is likely to deliver attractive development, improving viability rather than hindering it.</p> <p>The requirement for 45 dph will have a direct impact and is reflected in our viability modelling. See typologies matrix.</p>

<b>Policy DE5 Neighbourhood Amenity</b>	<ol style="list-style-type: none"> <li>1) Development proposals must demonstrate that they will not result in significant adverse impacts on the amenity of neighbouring uses, when considering both individual and cumulative impacts, in relation to the following factors: <ol style="list-style-type: none"> <li>a) loss of privacy, daylight or sunlight;</li> <li>b) dominance or visual intrusion;</li> <li>c) noise or vibration;</li> <li>d) smell, dust, heat, odour, gases or other emissions;</li> <li>e) pollution, contamination or the use / storage of hazardous substances; and</li> <li>f) external lighting.</li> </ol> </li> <li>2) Development should also have regard to the advice within the Joint Design Guide on neighbouring amenity.</li> </ol>	n/a	This policy relates to the impact on existing amenity.
<b>Policy DE6 – Outdoor Amenity Space</b>	<ol style="list-style-type: none"> <li>1) A high quality, usable private outdoor garden or outdoor amenity space, or alternatively a shared outdoor amenity area should be provided for all new dwellings. The amount of land that should be provided for the garden or amenity space will be determined by the size of the dwelling proposed and by the character of surrounding development. Private outdoor sitting areas should not be subject to direct, harmful / adverse overlooking by adjacent habitable rooms. They should also not be compromised by significant shading from buildings or from existing established significant trees and hedges and their associated leaf litter, that would lead to future pressure to prune or remove these landscape features.</li> <li>2) Proposals for new development should demonstrate that the size, location and character of gardens and outdoor amenity spaces have been considered as an integral part of the design and not as an afterthought. [...]</li> </ol>	Indirect	<p>Delivery of outdoor amenity space is likely to have little impact on the viability of housing, as buyers will expect gardens to be provided.</p> <p>For flats, delivery of outdoor space could increase costs. However, it is anticipated that this will also increase the value of a flat and so will not reduce viability.</p>
<b>Policy DE7 – Waste Collection and Recycling</b>	<ol style="list-style-type: none"> <li>1) Development proposals for residential use must ensure: <ol style="list-style-type: none"> <li>a) adequate facilities are provided for the sorting, storage and collection of recycling and waste;</li> <li>b) sufficient space is provided [...]</li> <li>c) access is provided that is safe [...]</li> </ol> </li> </ol>	Direct	We assume that this can be incorporated into the design of the scheme with no additional construction or external works costs. Provision

	<p>d) the location and design of recycling and refuse provision should be integral to the design of the proposed development; and</p> <p>e) all refuse and recycling storage and collection facilities comply with the councils' waste collection and recycling guidance for planning applications.</p> <p>2) Development proposals for non-residential use must ensure:</p> <p>a) sufficient space is provided [...]</p> <p>b) provision is made that is adequate for the proposed use;</p> <p>c) the location and design of recycling and refuse provision should be integral to the design of the proposed development; and</p> <p>d) all refuse and recycling storage and collection facilities comply with the councils' waste collection and recycling guidance for planning applications.</p> <p>[...]</p> <p>5) Innovative new ways to collect and manage household recycling and waste are encouraged. Any innovative recycling and waste collection and management proposals must be agreed in consultation with the councils' waste team and Oxfordshire County Council's waste and circular economy team at an early stage.</p> <p>6) Development will not be permitted if recycling and refuse provision that meets the above requirements cannot feasibly or practicably be provided.</p>		of such facilities should already be reflected in BCIS construction costs.
<b>Policy HP1 – Healthy Place Shaping</b>	<p>1) Major development proposals will be required to submit a health impact assessment (HIA) demonstrating how the health and wellbeing impacts (benefits and harm) of new major development will be assessed and mitigated, and how the conclusions of the HIA have been taken into account in the design of the scheme. Development proposals should explicitly address the existing and projected local health and wellbeing needs identified by the HIA, including the needs of an ageing population. The HIA must follow [...]</p>	Direct	We have made sufficient allowances for professional fees to ensure that the costs of consultancy fees are covered in our appraisals.

<b>Policy HP2 – Community Facilities and Services</b>	<p><b>Existing facilities</b></p> <p>1) Proposals that result in the loss, or partial loss, of an essential community facility or service<sup>a</sup> through change of use or redevelopment will not be permitted unless [...various criteria are met]</p> <p><b>New facilities</b></p> <p>6) Development proposals for the provision of new community facilities<sup>a</sup> will be supported where [...various criteria are met]</p> <p><sup>a</sup> Facilities falling within: Use Class F2 - Local Community Uses (shops smaller than 280 sqm and without another shop in 1,000 metres, a hall or meeting place for the principal use of the local community, outdoor sport or recreation locations, and swimming pools or skating rinks); Use Class F1 - Learning and Non-Residential Institutions; and Sui Generis Uses (such as: cemeteries, drinking establishments, cinemas, concert / dance / bingo halls, theatres).</p>	n/a	Policy protects existing community facilities and encourages new development in suitable locations. No direct impact on viability.
<b>Policy HP3 – Health Care Provision</b>	<p>1) Improvements and expansions of, and upgrades to, existing GP surgeries, dentists and hospital facilities will be supported.</p> <p>2) New GP surgeries, dentist or hospital facilities will be supported [...]</p> <p>3) Where planning permission is required, the loss or change of use of existing health care floorspace will not be permitted unless [...various criteria are met]</p> <p>4) All planning applications resulting in the loss of, or provision of new healthcare facilities should demonstrate engagement with the relevant Integrated Care Board (or their replacement bodies) and the Public Health Team at Oxfordshire County Council.</p> <p><sup>a</sup> See policies LS1 (Proposals for large scale major development) and AS1 to AS10 and AS16. <sup>b</sup> In consultation with Public Health, the Integrated Care Board and other relevant health care partners.</p>	n/a	Policy will have no impact on viability.

<b>Policy HP4 – Existing Open Space, Sport and Recreation Facilities</b>	<ol style="list-style-type: none"> <li>1) The council will protect, maintain and where possible enhance existing open space, sport and recreation, play facilities and land including playing fields and allotments [...]</li> <li>2) Development proposals that result in the loss of open space, sport and recreation facilities will only be permitted where: <ol style="list-style-type: none"> <li>a) it can be demonstrated that alternative facilities of equal or better quantity and quality will be provided in an equally accessible location as part of the development;</li> <li>b) the development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss; or</li> <li>c) an assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements.</li> </ol> </li> <li>3) Any replacement provision should be subject to equivalent or better accessibility and management arrangements and where possible made available before the existing provision is lost.</li> <li>4) Proposals that improve access to the districts' open spaces by public transport and active travel means will be supported.</li> <li>5) The councils' Joint Local Plan evidence base should be used to inform any assessment against this policy including the Green Infrastructure Strategy and Open Space Study, Leisure Facilities Assessment and Strategy and Playing Pitch Strategy.</li> <li>6) Proposals for open space, sport, and recreation facilities should include details for their long-term ownership, management and stewardship.</li> </ol>	<p>n/a</p>	<p>Policy considers existing facilities. No impact on viability.</p>
<b>Policy HP5 – New Facilities for Sport, Physical Activity and Recreation</b>	<ol style="list-style-type: none"> <li>1) The provision of new or expanded facilities for sport, physical activity and recreation will be encouraged where [...various criteria are met]</li> <li>2) New residential developments will be expected to provide on site provision where possible, or where appropriate, a financial contribution towards either off site provision, or the enhancement of existing off site facilities. This will be determined on a site-by-site basis, informed by the councils'</li> </ol>	<p>Direct</p>	<p>The requirement to deliver on-site facilities or off-site payments will impact viability.</p> <p>For strategic sites, we have considered on-site delivery where this is known to be deliverable. For other sites and typologies, we have</p>

	<p>leisure studies and in accordance with the requirements set out in the Infrastructure Delivery Plan. [...]</p> <p>3) Where small scale recreational facilities<sup>a</sup> are provided in the countryside these will be supported provided that [...various criteria are met]</p> <p><sup>a</sup> <i>Small scale recreational facilities in the countryside may include the provision of small picnic sites, roadside parking areas, viewing points or interpretation facilities.</i></p>		considered the likely off-site S106 payments. See typologies matrix.
<b>Policy HP6 – Green Infrastructure on New Developments</b>	<p>1) Development will be expected to contribute towards the provision of additional green infrastructure and protect or enhance existing green infrastructure, in accordance with the councils' latest published evidence.</p> <p>2) Development proposals should ensure that existing and new green infrastructure is considered and integrated into the scheme design from the outset.</p> <p>3) Proposals should protect existing green infrastructure by:</p> <ul style="list-style-type: none"> <li>a) avoiding the loss, fragmentation, severance or other negative impact on the function of green infrastructure;</li> <li>b) providing appropriate mitigation where there would be an adverse impact on green infrastructure; and</li> <li>c) providing an appropriate replacement where it is necessary for development to take place on areas of green infrastructure.</li> </ul> <p>4) Existing green infrastructure should be enhanced where appropriate and practicable, through measure such as the greening of Public Rights of Way and other active travel routes and the protection and strengthening of existing hedgerows and tree belts.</p> <p>5) All new green infrastructure should:</p> <ul style="list-style-type: none"> <li>a) meet needs identified in relevant council plans and strategies including the Green Infrastructure Strategy and Open Space Study, Didcot Garden Town Delivery Plan, AONB Management Plan, Habitats Regulations Assessment<sup>b</sup>, the leisure studies and neighbourhood plans;</li> <li>b) maximise opportunities to create a network of new and existing multifunctional green spaces which are capable of</li> </ul>	Direct	<p>We have included within our financial viability assessments appropriate upfront Planning Application, Professional Fees, Surveys and report costs to allow for a green infrastructure statement.</p> <p>We assume that the green infrastructure requirements can be accommodated within the scheme design and construction/external works costs.</p>

	<p>delivering a wide range of environmental and quality of life benefits for local communities;</p> <ul style="list-style-type: none"> <li>c) incorporate multifunctional, landscape-led sustainable drainage systems (SuDS) to deliver wider benefits including biodiversity improvements and amenity use and manage surface water, flood risks and significant changes in rainfall;</li> <li>d) be provided on site where possible;</li> <li>e) be of an appropriate scale to support its functions;</li> <li>f) be of high quality design;</li> <li>g) maximise biodiversity benefits;</li> <li>h) adequately take account of and address site specific constraints, particularly flood risk; and</li> <li>i) be publicly accessible and usable, where possible.</li> </ul> <p>6) Where green infrastructure is provided, applicants should ensure that appropriate arrangements are in place to ensure its ongoing management and maintenance.</p> <p>7) All major applications must be accompanied by a green infrastructure statement (can be part of the design and access statement) demonstrating that the proposal meets the above criteria, taking into account the relationship of the proposed development to existing green infrastructure and how this will be retained and enhanced.</p> <p><sup>a</sup> South Oxfordshire and Vale of White Horse (2022) Revised Didcot Garden Town Delivery Plan, available at: <a href="https://www.southoxon.gov.uk/south-oxfordshire-district-council/business-and-economy/garden-communities/didcot-garden-town/">https://www.southoxon.gov.uk/south-oxfordshire-district-council/business-and-economy/garden-communities/didcot-garden-town/</a></p> <p><sup>b</sup> South Oxfordshire and Vale of White Horse (2024) Habitats Regulations Assessment (prepared by Urban Edge Environmental), available at: <a href="http://www.southandvale.gov.uk/JLPEvidence">www.southandvale.gov.uk/JLPEvidence</a></p>		
<b>Policy HP7 – Open Space on New Developments</b>	<ul style="list-style-type: none"> <li>1) All development proposals should provide at least 3 hectares of inclusive and accessible open space per 1,000 of the population, having regard to the latest Green Infrastructure Strategy and Open Space Study. In the first instance, provision should be maximised on site.</li> <li>2) In exceptional circumstances, where on site provision cannot be fully achieved, developments should either:</li> </ul>	Direct	We have factored into our financial viability appraisals the price of the land within the density and Benchmark Land Value assumptions. We also assume that the cost of the play equipment etc. is factored-in through the external works costs. Finally, we have

	<ul style="list-style-type: none"> <li>a) provide suitable new off site open space provision; or</li> <li>b) make financial contributions towards the enhancement of existing public open space or other green infrastructure in the locality.</li> <li>3) All major applications must be accompanied by a green infrastructure statement (can be part of the design and access statement) demonstrating that the proposal meets the above criteria, taking into account the relationship of the proposed development to existing open space and how this will be retained and enhanced.</li> <li>4) Provision for the future long-term maintenance and management of the open space will be sought and must be secured as part of the planning application.</li> </ul>		included appropriate S106 allowances – see Typologies Matrix.
<b>Policy HP8 – Provision for Children’s Play and spaces for Young People</b>	<ul style="list-style-type: none"> <li>1) All new residential developments should incorporate good quality publicly accessible play provision for all ages and abilities.</li> <li>2) New residential development should provide 0.55 hectares of on site provision for children and teenagers per 1,000 population, in line with the Green Infrastructure Strategy and Open Space Study.</li> <li>3) Where provision cannot be practically achieved on site due to site specific circumstances, applicants should either make improvements to nearby existing facilities or financial contributions.</li> <li>4) New or improved provision should be of a high quality and provided in line with the Green Infrastructure Strategy and Open Space Study, and the most up to date standards informed by the Joint Design Guide<sup>a</sup> and guidance from Fields in Trust<sup>b</sup>.</li> <li>5) Where new or improved play provision is made it should: <ul style="list-style-type: none"> <li>a) provide a stimulating environment;</li> <li>b) be safely accessible from the street by children and young people independently;</li> <li>c) form an integral part of the surrounding development;</li> <li>d) incorporate trees and/or other forms of greenery;</li> </ul> </li> </ul>	Direct	We have factored into our financial viability appraisals the price of the land within the density and Benchmark Land Value assumptions. We also assume that the cost of the play equipment etc. is factored-in through the external works costs.

	<p>e) be overlooked to enable passive surveillance; and f) not be segregated by tenure of the surrounding development.</p> <p>6) Provision for young people is in addition to any need identified for new sports facilities arising from a development.</p> <p>7) Developers of large-scale major development sites should undertake an assessment of existing play facilities within the surrounding area [...]</p> <p>8) Provision for the future long-term maintenance and management of play provision must be agreed as part of the planning application.</p> <p><sup>a</sup> South Oxfordshire and Vale of White Horse (2022) Joint Design Guide, available at: <a href="https://data.southoxon.gov.uk/SAV/JDG.html#gsc.tab=0">https://data.southoxon.gov.uk/SAV/JDG.html#gsc.tab=0</a> <sup>b</sup> Fields in Trust (2020) Guidance for Outdoor Spot and Play: Beyond the Six Acre Standard, available at: <a href="https://fieldsintrust.org/insights/policy-hub/guidance-for-outdoor-sport-play">https://fieldsintrust.org/insights/policy-hub/guidance-for-outdoor-sport-play</a></p>		
<b>Policy HP9 – Provision of community food growing opportunities</b>	<p>1) The council will support proposals for the provision of community food growing opportunities as part of new housing developments and in other appropriate locations, such as employment sites, new schools and community centres.</p> <p>2) Proposals for major residential development must include provision of, or a contribution towards, 0.4 hectares of community food growing opportunities<sup>a</sup> per 1,000 population, in line with the Green Infrastructure Strategy and Open Space Study.</p> <p>3) Residential developments of over 200 dwellings should provide on site community food growing opportunities.</p> <p>4) New community food growing opportunities should be of high quality to meet the guidelines set out in the Green Infrastructure Strategy and Open Space Study.</p> <p>5) Provision for the future long-term maintenance and management of community food growing opportunities must be agreed as part of the planning application.</p> <p><sup>a</sup> Such as allotments, orchards, roof gardens and edible landscaping</p>	Direct	The requirement to contribute to, or provide, allotments will represent a cost to the developer. For strategic sites, we have allowed for the price of land through our Benchmark Land Value assessment and is reflected in the density assumptions made for these sites. For other sites, S106 allowances are made – see typologies matrix.

<b>Policy HP10 – Watercourses</b>	<ol style="list-style-type: none"> <li>1) Development of land that contains, is adjacent to, or has hydrological links with, a watercourse must protect and, where possible, enhance the function and setting of the watercourse and its biodiversity. As a last resort development should provide mitigation for any unavoidable impacts.</li> <li>2) Development should include a minimum 10m buffer zone along both sides of the watercourse [...]</li> <li>3) Proposals should avoid the culverting of any watercourse. [...]</li> <li>4) Outside settlements, proposals for mooring stages will not be permitted. [...]</li> <li>5) Major development proposals which are located within 20m of a watercourse will require a Construction Management Plan to be agreed with the council [...]</li> <li>6) Sites for new development with existing culverts will be expected to investigate the feasibility of de-culverting the watercourse. [...]</li> </ol>	Indirect	Indirect impact through the price mechanism.
<b>Policy NH1 – Biodiversity Designations</b>	<ol style="list-style-type: none"> <li>1) The highest level of protection will be given to sites of international nature conservation importance (Special Areas of Conservation (SAC)). Development that is likely to result in a significant effect, either alone or in combination, on such sites will need to satisfy the requirements of the Conservation of Habitats and Species Regulations 2017 (as amended)<sup>a</sup>.</li> <li>2) Development within the River Lambourn SAC nutrient neutrality catchment area that would result in additional overnight accommodation<sup>b</sup>, and any other development that could result in the input of additional nutrients within the identified catchment, must demonstrate nutrient neutrality in relation to phosphorus.</li> <li>3) Sites of Special Scientific Interest (SSSI) are of national importance. Development that is likely to have an adverse effect on a SSSI (either on its own or in combination with other developments) will not normally be permitted. The only exception is where the benefits of the development in the location proposed clearly outweigh both its likely impact on the features of the site that make it of special scientific</li> </ol>		

	<p>interest, and any broader impacts on the national network of SSSI. In such circumstances, measures must be provided (and secured through planning conditions or legal agreements) that would fully mitigate or, as a last resort, fully compensate for the adverse effects resulting from development.</p> <p>4) The approach to sites of international and/or national importance should be applied in line with any future changes to those designations that may be introduced.</p> <p>5) Development likely to result directly or indirectly in the loss, deterioration or harm of Important or Ancient Hedgerows, Legally Protected Species, Local Geological Sites, Local Nature Reserves, Local Wildlife Sites, or Priority Habitats and Species will only be permitted if:</p> <ul style="list-style-type: none"> <li>a) the need for and benefits of the development in the proposed location outweigh the adverse effect on the interests;</li> <li>b) the applicant effectively demonstrates that the development could not reasonably be located on an alternative site that would result in less or no harm to the interests;</li> <li>c) the applicant effectively demonstrates that there is no alternative design that would result in less or no harm to the interests; and</li> <li>d) measures will be provided (and secured through planning conditions or legal agreements) that would avoid, mitigate or, as a last resort, compensate for the adverse effects resulting from development.</li> </ul> <p>6) Development resulting in the loss or deterioration of Irreplaceable Habitats (such as ancient woodland, ancient or veteran trees and lowland fen) will be refused planning permission unless there are wholly exceptional reasons [...]</p> <p>7) Where development has the potential to affect a proposed Local Wildlife Site<sup>c</sup>, the developer must undertake surveys and assessments [...]</p> <p>8) Measures proposed to mitigate adverse ecological affects (to meet requirements 1 - 7 above) will be given weight proportionate to their likelihood of success. Where reasonable</p>		
--	---	--	--

	<p>doubt exists as to the effectiveness of any such measures, weight afforded to those measures must be significantly reduced.</p> <p><sup>a</sup> <i>The Conservation of Habitats and Species Regulations 2017, available at: <a href="http://www.legislation.gov.uk/ukxi/2017/1012/contents">www.legislation.gov.uk/ukxi/2017/1012/contents</a></i></p> <p><sup>b</sup> <i>This includes, but is not limited to, new homes, student accommodation, care homes, hotels, guest houses, bed and breakfasts, self-catering holiday chalets, static caravan sites, tourism attractions and tourism accommodation and permitted development which gives rise to new overnight accommodation.</i></p> <p><sup>c</sup> <i>Thames Valley Environmental Records Centre maintains a live list of Local Wildlife Sites, proposed Local Wildlife Sites and proposed extensions to existing Local Wildlife Sites in South Oxfordshire and Vale of White Horse, which are available at: (<a href="http://www.tverc.org/cms/LWSLivingLists">www.tverc.org/cms/LWSLivingLists</a>)</i></p>		
<p><b>Policy NH2 – Nature Recovery</b></p>	<p><b>Biodiversity net gain</b></p> <ol style="list-style-type: none"> <li>1) Development in South Oxfordshire and Vale of White Horse must deliver at least a 20% biodiversity net gain, unless the development is not subject to the statutory framework for biodiversity net gain.</li> <li>2) Where development is not subject to the statutory framework, a net loss of biodiversity must be avoided and opportunities to achieve biodiversity gains are encouraged.</li> <li>3) Biodiversity net gains should be delivered on site where possible. Where the full biodiversity net gain requirement cannot be delivered on site, the following sequential approach must be used to direct the creation and enhancement of habitats off site: <ol style="list-style-type: none"> <li>a) deliver off site biodiversity net gains where it would enhance habitat connectivity within ecological networks within the same district as development.</li> <li>b) if (a) is not possible, deliver off site biodiversity net gains within the same district as development, outside of ecological networks.</li> </ol> </li> </ol>	<p>Direct</p>	<p>Delivery of BNG will represent a direct cost to the developer, either through on-site delivery or through off-site payments.</p> <p>The Council has commissioned research to understand the likely costs associated with mitigation. This provides costs for the typologies we have tested. It also provides individual costs for each of the strategic sites. In some cases, certain strategic sites are capable of meeting BNG on-site and generate a surplus of habitat units. In these cases, we have been instructed to include the sale of these BNG units as income to the schemes.</p>

--	--

	Householder development	The inclusion of features to support wildlife is encouraged.		
	Residential development	Developments of two or more units must deliver features to support wildlife at a ratio of one feature per two units (i.e. 50%).		
	Non-residential development	Minor non-residential development – the inclusion of features to support wildlife is encouraged, where appropriate. Major non-residential development – proportionate and appropriate features to support wildlife must be provided.		
	Features should be integrated into the fabric of buildings wherever possible and should be suitable for species of conservation concern.  8) Development proposing new boundary treatments (such as fencing and walls) must include appropriately designed access holes for wildlife, positioned to help facilitate connectivity (for example hedgehog highways).  <sup>a</sup> Oxfordshire County Council, Oxfordshire's Local Nature Recovery Strategy (LNRS), available at: <a href="https://www.oxfordshire.gov.uk/residents/environment-and-planning/local-nature-recovery-strategy">https://www.oxfordshire.gov.uk/residents/environment-and-planning/local-nature-recovery-strategy</a> <sup>b</sup> Features to support wildlife include, but are not limited to, features such as bird boxes, water sources, swift bricks, bat boxes, bee bricks, and insect hotels.			
Policy NH3 – Trees and Hedgerows in the Landscape	1)  2)  3)	Development should make every effort to retain, protect and enhance existing trees, woodlands and hedgerows. Where retention is not possible, and a proposal seeks their removal; compensatory planting should provide a net gain in canopy cover. The planting must include a wide variety of tree species, suited to the sites growing conditions and include long lived, large canopied species. New hedgerow planting must be suited to the sites growing conditions and include a mixture of locally native hedgerow species when suitable. Developments must secure the long-term maintenance of landscaping elements on site, [...] The design of developments must allow sufficient space for the future growth of all proposed trees and all retained existing trees, [...]	n/a	It is expected that this policy can be met without any impact on viability.

<b>Policy NH4 – Chilterns and North Wessex downs National Landscapes</b>	<ol style="list-style-type: none"> <li>1) Great weight will be given to conserving and enhancing the landscape and scenic beauty of the Chilterns and North Wessex Downs National Landscapes.</li> <li>2) Major development<sup>a</sup> will only be permitted in the National Landscapes in exceptional circumstances, [...]</li> <li>3) Development within the Chilterns and North Wessex Downs National Landscapes will only be permitted where it meets all of the following criteria: <ol style="list-style-type: none"> <li>a) conserves and enhances the National Landscape's natural beauty, special qualities, distinctive character, cultural heritage, tranquillity and remoteness;</li> <li>b) is appropriate to the economic, social and environmental wellbeing of the area and/or supports the public understanding and enjoyment of the area;</li> <li>c) meets the aims of the relevant National Landscape Management Plan;</li> <li>d) is of high-quality design and scale which conforms with relevant National Landscape design guides and technical notes, respects the natural beauty of the National Landscapes, their traditional built character, sense of place and local character; and</li> <li>e) avoids adverse impacts (including cumulative impacts) unless these can be satisfactorily mitigated.</li> </ol> </li> <li>4) Development within the setting of a National Landscape must be sensitively located and designed to avoid or minimise adverse impacts on the National Landscape.</li> <li>5) Development proposals that could affect the natural beauty of a National Landscape (including the setting of a National Landscape) either individually or in combination with other developments, should be accompanied by a proportionate Landscape and Visual Impact Assessment.</li> </ol> <p><sup>a</sup> Whether a development constitutes "major development" will be assessed on a case-by-case basis taking account of the nature, scale and setting of the proposal</p>	Direct	These areas have always been areas of high quality natural landscape. We assume that the cost of landscaping and mitigation is embedded into the BCIS construction costs (and therefore also external works) used herein.

	<i>and whether it could have a significant adverse impact on the purposes of the National Landscape designation.</i>		
<b>Policy NH5 – District-valued Landscapes</b>	<p>1) South Oxfordshire and Vale of White Horse's district-valued landscapes (as shown on the Policies Map<sup>a</sup>) are:</p> <ul style="list-style-type: none"> <li>• Chilterns Chalk Escarpment Footslopes</li> <li>• Chilterns Dipslope</li> <li>• Appleford to Long Wittenham</li> <li>• East Oxford Hills</li> <li>• Faringdon and Buscot</li> <li>• Henley to Sonning Eye Thames Floodplain</li> <li>• Northern Thames Valley</li> <li>• West Oxford Hills</li> <li>• West of Wantage</li> </ul> <p>2) Development within or affecting a district-valued landscape will be assessed based on its specific landscape and visual impact.</p> <p>3) Development which protects and enhances the districts' valued landscapes will be supported.</p> <p>4) Development within a district-valued landscape must have regard to the Joint Local Plan Valued Landscapes Assessment (or subsequent update) and:</p> <ul style="list-style-type: none"> <li>a) appropriately respond to the special characteristics and significance of the district-valued landscape;</li> <li>b) avoid loss of or harm to the special characteristics and features that underpin the scenic quality and significance of the district-valued landscape; and</li> <li>c) appropriately respond to the recommendations for managing the district-valued landscape.</li> </ul> <p><sup>a</sup> South Oxfordshire and Vale of White Horse (2024) Joint Local Plan Policies Map, available at: <a href="https://www.southandvale.gov.uk/policies-map">https://www.southandvale.gov.uk/policies-map</a></p>	Direct	Both districts have always been areas of high-quality natural landscape. We assume that the cost of landscaping and mitigation is embedded into the BCIS construction costs (and therefore also external works) used herein.
<b>Policy NH6 – Landscape</b>	<p>1) South Oxfordshire and Vale of White Horse's landscapes, countryside and rural areas will be protected from harmful development. Proposals should be accompanied by a</p>	Direct	Both districts have always been areas of high-quality natural landscape. We assume that the

	<p>Landscape and Visual Impact Assessment or a Landscape and Visual Appraisal which is proportionate to the level of landscape sensitivity and scale of development.</p> <p>2) Development must appropriately respond to its setting by:</p> <ul style="list-style-type: none"> <li>a) responding to landscape character (as defined in a Joint South Oxfordshire and Vale of White Horse Landscape Character Assessment, National Character Areas and associated profiles and other relevant Landscape Character Assessments in neighbourhood plans);</li> <li>b) being physically sensitive to and visually integrated into the landscape;</li> <li>c) preserving settlement character and setting; and</li> <li>d) maintaining the physical and visual separation between settlements, [...]</li> </ul> <p>3) Development will only be permitted where it protects and, where possible, enhances the features and functions that contribute to the nature and quality of the landscape, in particular:</p> <ul style="list-style-type: none"> <li>a) trees (including individual trees, groups of trees and woodlands), hedgerows and field boundaries;</li> <li>b) irreplaceable habitats such as ancient woodland and aged or veteran trees found outside ancient woodland;</li> <li>c) the landscapes, waterscapes, cultural heritage and user enjoyment of the River Thames, its tributaries and flood plains;</li> <li>d) other watercourses and waterbodies, including globally rare chalk streams;</li> <li>e) topographical features;</li> <li>f) areas or features of cultural and historic value, including historic landscape patterns;</li> <li>g) good quality views and visually sensitive skylines, including the Oxford View Cones and their backdrops / settings; and</li> <li>h) aesthetic and perceptual factors such as tranquillity, wildness, intactness, rarity and enclosure.</li> </ul>		<p>cost of landscaping and mitigation is embedded into the BCIS construction costs (and therefore also external works) used herein.</p>
--	---	--	---

	<p>4) Where appropriate, development should consider opportunities to enhance and restore damaged and/or poor-quality landscapes, features and functions.</p> <p><sup>a</sup> Oxford City Council (2015) Assessment of the Oxford View Cones, available at: <a href="http://www.oxford.gov.uk/info/20064/conservation/876/oxford_views_study">www.oxford.gov.uk/info/20064/conservation/876/oxford_views_study</a></p>		
<b>Policy NH7 – Tranquillity</b>	<p>1) Development proposals should conserve and enhance tranquillity, protecting areas which are prized as relatively most tranquil (zone 1 in the Tranquillity Assessment), through demonstrating consideration of impacts on tranquillity<sup>a</sup> as appropriate to the zone. Development proposals within all tranquillity zones should protect and enhance features which are referenced as contributing positively to tranquillity at their location, as well as incorporating features to reduce negative factors; as shown within the Tranquillity Assessment.</p> <p>2) In determining planning applications, the following factors will be considered:</p> <ul style="list-style-type: none"> <li>a) visual and aural impacts;</li> <li>b) direct and indirect impacts; and</li> <li>c) impacts on users of the Public Right of Way network and other publicly accessible locations.</li> </ul> <p>3) Proposals that are likely to negatively impact on tranquillity, with reference to the factors that increase or detract from tranquillity, should demonstrate the ways in which tranquillity has been designed into the development by seeking to (a) avoid and (b) minimise impacts through appropriate mitigation.</p> <p>4) Development in areas with lower levels of relative tranquillity should take opportunities to enhance tranquillity where these exist (for example through high quality design and the provision of green infrastructure).</p> <p><sup>a</sup> Making use of the User Guidance within the Tranquillity Assessment</p>	Direct	Both districts have always benefitted from these areas. We assume that the cost of landscaping and mitigation is embedded into the BCIS construction costs (and therefore also external works) used herein.

<p><b>Policy NH8 – The Historic Environment</b></p>	<ol style="list-style-type: none"> <li>1) Proposals for new development that may affect designated and non-designated heritage assets should take account of the desirability of sustaining and enhancing the significance of those assets and putting them to viable uses consistent with their conservation.</li> <li>2) Proposals for new development should be sensitively designed and should not cause harm to the historic environment. Applicants will be required to demonstrate that they have considered this through a heritage assessment. Proposals that have an impact on heritage assets (designated and non-designated) will be supported particularly where they: <ol style="list-style-type: none"> <li>a) conserve and enhance the significance of the heritage asset and its setting. The more important the heritage asset, the greater the weight that will be given to its conservation;</li> <li>b) make a positive contribution to local character and distinctiveness (through high standards of design, reflecting its significance, including through the use of appropriate materials and construction techniques);</li> <li>c) make a positive contribution towards wider public benefits;</li> <li>d) provide a viable future use for a heritage asset that is consistent with the conservation of its significance; and</li> <li>e) protect a heritage asset that is currently at risk:</li> </ol> </li> <li>3) When considering the impact of a proposed development on the significance of a designated heritage asset, great weight will be given to the asset's conservation (and the more important the asset, the greater the weight that will be given). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its significance. Any harm to, or loss of, the significance of a designated heritage asset will require clear and convincing justification.</li> <li>4) Non-designated heritage assets, where identified through local or neighborhood plan-making or contained within the Historic Environment Record (HER)a, Conservation Area Appraisal, or review or through the planning application process, will be recognised as heritage assets in accordance</li> </ol>	<p>Indirect</p>	<p>We anticipate that development involving heritage assets will require site specific viability assessment to agree the optimal viable use and/or any enabling development.</p>
---	--	-----------------	--

	<p>with national guidance and any local criteria. Development proposals that directly or indirectly affect the significance of a non-designated heritage asset will be determined with regard to the scale of any harm or loss and the significance of the asset.</p> <p>5) In support of planning applications, applicants will be required to describe, in line with best practice and relevant national guidance, the significance of any heritage assets affected including any contribution made by their setting. The level of detail should be proportionate to the asset's importance. It should be demonstrated that, where relevant, surveys and field work have been carried out prior to submission and that the results have informed the heritage assessment. In some circumstances further survey, analysis and/or recording will be made a condition of consent.</p> <p>6) Encouragement will be given to schemes that will help secure the long-term conservation of vacant and under-used historic buildings to prevent deterioration of condition and bring them back into appropriate use.</p> <p>7) Encouragement will be given to alterations to historic buildings to improve energy efficiency and the delivery of renewable energy measures, providing that they are technically appropriate for the building and respect the character and significance of the affected heritage assets and their settings.</p> <p>8) Developers will also be expected to report, publish, and deposit the results of any investigations into heritage assets with the HER and the relevant local and county authorities.</p> <p><sup>a</sup> Oxfordshire County Council, Oxfordshire Historic Environmental Record, available at: <a href="https://www.oxfordshire.gov.uk/residents/environment-and-planning/archaeology/historic-environment-record">https://www.oxfordshire.gov.uk/residents/environment-and-planning/archaeology/historic-environment-record</a></p>		
<b>Policy NH9 – Listed Buildings</b>	<p>1) Proposals for development, including change of use, that involve any alteration of, addition to, or partial demolition of a</p>	Indirect	We anticipate that development involving heritage assets will require site specific viability

	<p>Listed Building, or within the curtilage of, or affecting the setting of a Listed Building will be expected to:</p> <ul style="list-style-type: none"> <li>a) conserve, enhance or better reveal those elements which contribute to the heritage significance and/or its setting;</li> <li>b) respect any features of special architectural or historic interest, including, where relevant, the historic curtilage or context, such as burgage plots, parklands or fields, or its value within a group and/or its setting, such as the importance of a street frontage or traditional shopfronts, designed landscapes or historic farmyards; and</li> <li>c) be sympathetic to the Listed Building and its setting in terms of its siting, size, scale, height, alignment, materials, and finishes (including colour and texture), design and form, in order to retain the special interest that justifies its designation through appropriate design, with regard to the Joint Design Guide.</li> </ul> <p>2) Development proposals affecting the significance of a Listed Building (including its setting) that will lead to substantial harm or total loss of significance will be refused unless it can be demonstrated that the substantial harm or loss is necessary to achieve substantial public benefits that demonstrably outweigh that harm or loss or where the applicant can demonstrate that:</p> <ul style="list-style-type: none"> <li>a) the nature of the heritage asset prevents all reasonable uses of the site;</li> <li>b) no viable use of the heritage asset itself can be found in the medium term through appropriate marketing that will enable its conservation;</li> <li>c) conservation by grant-funding or some form of not for profit, charitable or public ownership is demonstrably not possible; and</li> <li>d) the harm or loss is outweighed by the benefit of bringing the site back into use.</li> </ul> <p>3) Development proposals that would result in less than substantial harm to the significance of a Listed Building will be expected to:</p>		assessment to agree the optimal viable use and/or any enabling development.
--	--	--	---

	<ul style="list-style-type: none"> <li>a) minimise harm and avoid adverse impacts, and provide justification for any adverse impacts, harm, or loss of significance;</li> <li>b) identify any demonstrable public benefits or exceptional circumstances in relation to the development proposed including, where appropriate, securing its optimum viable use as supported by relevant evidence; and</li> <li>c) investigate and record changes or loss of fabric, features, objects, or remains, both known and unknown, in a manner proportionate to the importance of the change or loss, and to make this information publicly accessible.</li> <li>4) Changes of use will be supported where it can be demonstrated that the new use can be accommodated in a manner appropriate to its significance and historic character without any adverse effect on the special architectural or historic interest of the building and its appearance, character, and setting.</li> </ul>		
<b>Policy NH10 – Conservation Areas</b>	<ul style="list-style-type: none"> <li>1) Proposals for development within or affecting the setting of a Conservation Area must conserve or enhance its special interest, character, setting and appearance and comply with any additional restrictions<sup>a</sup>. Development will be expected to: <ul style="list-style-type: none"> <li>a) contribute to the Conservation Area's special interest and its relationship within its setting. The special characteristics of the Conservation Area (such as existing walls, buildings, trees, hedges, burgage plots, traditional shopfronts and signs, farm groups, medieval townscapes, archaeological features, historic routes etc.) should be preserved;</li> <li>b) take into account important views within, into or out of the Conservation Area and show that these would be retained and unharmed;</li> <li>c) respect the local character and distinctiveness of the Conservation Area in terms of the development's siting, size, scale, height, alignment, materials and finishes (including colour and texture), proportions, design, and form, and should</li> </ul> </li> </ul>	Indirect	We anticipate that development generating an impact on heritage assets in conservation areas will require site specific viability assessment.

	<p>have regard to the Joint Design Guide and any relevant Conservation Area Character Appraisal;</p> <p>d) be sympathetic to the original curtilage of buildings and pattern of development that forms part of the historic interest of the Conservation Area;</p> <p>e) be sympathetic to important spaces such as paddocks, greens, gardens and other gaps or spaces between buildings which make a positive contribution to the pattern of development in the Conservation Area;</p> <p>f) ensure the wider social and environmental effects generated by the development are compatible with the existing character and appearance of the Conservation Area; and</p> <p>g) ensure no loss of, or harm to, any building or feature that makes a positive contribution to the special interest, character or appearance of the Conservation Area.</p> <p>2) Where a development proposal within a Conservation Area would enhance or better reveal the significance of the Conservation Area and its setting, this will be encouraged. Proposals that preserve those elements of the setting that make a positive contribution to the asset (or which better reveal its significance) will be supported.</p> <p>3) Where a proposed development will lead to substantial harm to or total loss of significance of a Conservation Area, consent will only be granted where it can be demonstrated that the substantial harm is necessary to achieve substantial public benefits that outweigh that harm or loss.</p> <p>4) Where a development proposal will lead to less than substantial harm to the significance of a Conservation Area, this harm will be weighed against the public benefits of the proposal.</p> <p>5) Wherever possible the sympathetic restoration and re-use of structures which make a positive contribution to the special interest, character or appearance of the Conservation Area will be encouraged to prevent harm through the cumulative loss of features which are an asset to the Conservation Area.</p>

	<sup>a</sup> Including any Article 4 (1) Directions or legal agreements		
<b>Policy NH11 – Archaeology and Scheduled Monuments</b>	<ol style="list-style-type: none"> <li>1) Development must protect the site and setting of Scheduled Monuments and nationally important non-designated archaeological remains.</li> <li>2) Applicants will be expected to undertake an assessment of appropriate detail to determine whether the development site is known to, or is likely to, contain archaeological remains. Proposals must show the development proposals have had regard to any such remains and that they have consulted the Historic Environment Record (HER).</li> <li>3) Where the assessment indicates archaeological remains on site, or the potential for such remains to be present, and development could disturb or adversely affect archaeological remains and/or their setting, applicants will be expected to: <ol style="list-style-type: none"> <li>a) submit an appropriate archaeological desk-based assessment; and</li> <li>b) to undertake a field evaluation (conducted by a suitably qualified archaeological organisation), where necessary.</li> </ol> </li> <li>4) Applicants must agree the scope of assessment and field evaluation with Oxfordshire County Council or Historic England in the case of Scheduled Monuments, through a written scheme of investigation and in advance of any assessment or trial trenching / groundworks.</li> <li>5) Nationally important archaeological remains (whether scheduled or demonstrably of equivalent significance) should be preserved in situ. Non-designated archaeological sites or deposits of significance equal to that of a nationally important monument will be assessed as though those sites or deposits are designated.</li> <li>6) Where a proposed development will lead to substantial harm to or total loss of significance of such remains, consent will only be permitted where it can be demonstrated that the substantial harm or loss is necessary to achieve substantial public benefits that outweigh that harm or loss.</li> <li>7) Where a development proposal will lead to less than substantial harm to the significance of such remains, this</li> </ol>	Indirect	Indirect impact through the price mechanism.

	<p>harm will be weighed against the public benefits of the proposal.</p> <p>8) For other non-designated heritage assets of archaeological interest, the effect of a development proposal on the significance of the remains, either directly or indirectly, will be taken into account in determining the application. As such assets are irreplaceable, the presumption will be in favour of the avoidance of harm. The scale of the harm or loss will be weighed against this presumption and the significance of the heritage asset.</p> <p>9) In exceptional cases, where harm to or loss of significance to the asset is considered to be justified, the harm should be minimised, and mitigated by a programme of archaeological investigation, including excavation, recording and analysis. The aim of mitigation should be where possible to preserve archaeological remains in situ, to promote public enjoyment of heritage and to record and advance knowledge. Planning permission will not be granted until this programme has been submitted to, and approved by, the council and development must not commence until these works have been satisfactorily undertaken by an appropriately qualified organisation. The results and analysis of findings subsequent to the investigation must be published and made available to the relevant local and county authorities. The full archive generated from any archaeological assessment or investigation will need to be deposited with the Oxfordshire County Museums Service. Applicants will be required to adequately protect archaeological remains from impacts arising from climate change mitigation measures such as tree planting.</p>		
<b>Policy NH12 – Historic Battlefields, Registered</b>	<p>1) Proposals should conserve and enhance the special historic interest, character or setting of a battlefield, or park or garden on the Historic England Register of Historic Battlefields or Register of Historic Parks and Gardens of Special Historic Interest in England.</p>	Indirect	Any requirement for archaeology is considered to represent an abnormal cost which will be factored into the price of land.

<b>Parks and Gardens and Historic Landscapes</b>	<p>2) Any harm to or loss of significance of any heritage asset requires clear and convincing justification. Substantial harm to or loss of these assets should be wholly exceptional in the case of Registered Historic Battlefields and Grade I and Grade II* Registered Historic Parks and Gardens and exceptional in the case of Grade II Registered Historic Parks and Gardens.</p> <p>3) Where a proposed development will lead to substantial harm to or total loss of significance of a designated heritage asset, consent will only be granted where it can be demonstrated that the substantial harm or loss is necessary to achieve substantial public benefits that outweigh that harm or loss. Applicants must demonstrate that all other options for their conservation or use have been explored.</p> <p>4) Where a proposed development will lead to less than substantial harm to the significance of a designated heritage asset, this harm will be weighed against the public benefits of the proposal.</p> <p>5) Development proposals that directly or indirectly affect the significance of non-designated historic battlefields, parks and historic landscapes, including historic routes, will be determined with regard to the scale of any harm or loss and the significance of the asset.</p> <p>6) Applicants will be required to describe, in line with best practice and relevant national guidance, the significance of any heritage assets affected including any contribution made by their setting. It should be demonstrated that, where relevant, surveys and field work have been carried out prior to submission and that the results have informed the heritage assessment. The level of detail should be proportionate to the asset's importance. In some circumstances, further survey, analysis, and recording will be made a condition of consent.</p>		
<b>Policy NH13 – Historic</b>	<p>1) Proposals for small-scale renewable and low carbon energy generation affecting the historic environment will be assessed on a case-by-case basis and supported provided that they are</p>	<p>n/a</p>	<p>This policy relates to existing buildings with no impact on the viability of new development.</p>

<b>environment and Climate Change</b>	<p>designed to avoid or minimise harm to the significance of designated and non-designated assets, including their settings, and would not unacceptably harm that significance.</p> <p>2) Where proposals requiring planning permission and/or Listed Building Consent involve improving the energy efficiency of historic buildings, applicants should demonstrate that traditional and/or reversible methods have been fully explored before proposing irreversible and potentially harmful interventions to historic fabric of traditional construction.</p> <p>3) The retention and re-use of historic buildings, buildings of traditional construction and other heritage assets will be encouraged as a sustainable resource and for their value as part of the historic environment. The retention and re-use of historic buildings and historic fabric will also be encouraged where the embodied carbon within the existing structure would lower the carbon footprint of the proposed development.</p>		
<b>Policy IN1 Infrastructure and Service Provision</b>	<p>1) New development must be served and supported by appropriate and adequate on site and off site infrastructure and services.</p> <p>2) Planning permission will only be granted for developments where the infrastructure and services needed to meet the needs of the new development are already in place or can be provided. Where appropriate, and agreed with the council, financial contributions payable to an agreed timetable will be sought to enable the delivery of infrastructure and/or services by another party. Alternatively, infrastructure and/or services may be required to be delivered by the developer to an agreed timetable. [...]</p> <p>3) Infrastructure and services are required as a consequence of development, and if required, provision for their maintenance will be sought from developers and secured through Section 106 planning obligations, conditions attached to a planning permission, other agreements and funding through the council's Community Infrastructure Levy (CIL), or other</p>	Direct	Appropriate infrastructure costs and S106 allowances are made in our financial appraisals. See typologies matrix and Strategic Sites Assumptions.

	<p>mechanisms. This applies equally where external funding for infrastructure necessary for development has been secured (including where the infrastructure is delivered ahead of development), on the expectation that funding shall be recovered from development.</p> <p>4) Development will also need to take account of existing public utility infrastructure on / or affecting sites, [...]</p> <p>5) New infrastructure should be designed to ensure easy access for maintenance and upgrades, to minimise disruption when works are undertaken.</p>		
<b>Policy IN2 – Sustainable Transport and Accessibility</b>	<p>1) Development proposals must demonstrate that:</p> <p>a) the location and proposed layout will maximise active and sustainable travel opportunities, [...]</p> <p>b) viable active and sustainable travel choices have been assessed for suitability where currently available or will be delivered where levels are insufficient for users of the development to access day-to-day amenities. Any identified improvements to active and sustainable travel choices required by a development (on and off site) must be delivered ahead of occupation; and</p> <p>c) access to the development is safe and convenient for all highway users, [...]</p> <p>2) All major development proposals must demonstrate that:</p> <p>a) the application is consistent with the guiding principles of the Oxfordshire’s Local Transport and Connectivity Plan and supporting documents<sup>b</sup>, [...]</p> <p>b) the Active Travel England Planning Application Assessment Toolkit has been used, where appropriate,</p> <p>c) provision of infrastructure and services has been prioritised in accordance with Oxfordshire County Council’s Transport User Hierarchy, as set out in Policy 1 of the Local Transport and Connectivity Plan;</p> <p>d) they address any road safety issues [...]</p> <p>e) they do not worsen air quality issues and provide air quality mitigation measures where suitable;</p>	Direct	We have incorporated the appropriate site mitigation S278 works and professional fees within our financial viability assessment herein.

	<p>f) they contribute to and enhance the provision of active and sustainable transport infrastructure (both on and off site) and, where feasible, implement new travel and transportation technology and services necessary to support that development, either through direct delivery or developer contributions;</p> <p>g) the methodology in Oxfordshire County Council's Implementing Decide and Provide: Requirements for Transport Assessments document<sup>f</sup> has been used to assess the need for infrastructure and provision of transport services;</p> <p>h) they have made reasonable provision of car club and lift sharing opportunities for users of the development. [...]</p> <p>i) they align with and help to deliver planned transport infrastructure [...]</p> <p><b>Transport documents to support planning applications</b></p> <p>3) Transport Statements, Transport Assessments and Travel Plans must be provided to support planning applications [...]</p> <p>4) Travel Plans, where required, must set out measures that seek to promote and support modal shift to walking, cycling and wheeling, and public transport use for a range of trip purposes through agreed targets and monitoring arrangements. Travel Plan initiatives must seek to reduce demand for travel by private cars. Initiatives and infrastructure provision should facilitate electric, or other fuelled vehicle use, in line with Oxfordshire County Council's Parking Standards for New Developments<sup>g</sup>. [...]</p> <p><sup>a</sup> See Policy 1 of the Oxfordshire County Council (2022) Local Transport and Connectivity Plan, available at: <a href="https://www.oxfordshire.gov.uk/sites/default/files/file/roads-and-transport-connecting-oxfordshire/LocalTransportandConnectivityPlan.pdf">https://www.oxfordshire.gov.uk/sites/default/files/file/roads-and-transport-connecting-oxfordshire/LocalTransportandConnectivityPlan.pdf</a></p> <p><sup>b</sup> Oxfordshire County Council (2022) Oxfordshire Local Transport and Connectivity Plan – supporting documents, available at: <a href="https://www.oxfordshire.gov.uk/residents/roads-and-transport/connecting-oxfordshire/ltcp">https://www.oxfordshire.gov.uk/residents/roads-and-transport/connecting-oxfordshire/ltcp</a></p>

<b>Policy IN4 – Wilts and Berks Canal Safeguarding</b>	<ol style="list-style-type: none"> <li>1) The restoration and reconstruction of the Wilts and Berks Canal as navigable waterways is supported in principle and Vale of White Horse will facilitate this subject to other planning policy restraints. [...]</li> <li>2) The canal route will be safeguarded by: <ol style="list-style-type: none"> <li>a) not permitting development likely to prejudice the canal alignment or its associated structures, or likely to make restoration more difficult;</li> <li>b) ensuring that where the canal is affected by development, the alignment is protected or an alternative alignment is provided; and</li> <li>c) ensuring, where the width of the protected route is not currently defined, that a 30m wide corridor for the canal and associated infrastructure is protected.</li> </ol> </li> <li>3) Proposals will be considered positively where they support the delivery of canal infrastructure, including recreational and nature conservation potential, in particular, the use of canals for boating and the towpath for walking, cycling, and (where possible) horse riding.</li> <li>4) All development adjacent to the historic and safeguarded Wilts and Berks Canal routes must consider the character, setting, biodiversity and historic value of the canal as well as have regard to improving and enhancing views along and from the canals. Development should not detract from the navigation of the canal and/or pedestrian, cycle and horse riding movement alongside, where applicable. Development</li> </ol>	Indirect	We assume that development on sites impacted by this policy would factor in the price of the land.

	<p>5) must support the delivery of the canal restoration where it adjoins the land safeguarded for the canal. Proposals for the reinstatement of canal along these historic alignments or any alternative alignments will need to demonstrate that the cultural, historic and natural environment will be protected and enhanced, with no overall adverse effect, and that potential impacts on ecology, landscape, flood risk, water resources (abstraction) and water quality have been fully assessed and taken into account.</p> <p>6) The entirety of the historic canal route is safeguarded. [...]</p>		
<b>Policy IN5 – Cycle and car parking Standards</b>	<p>1) New development must provide cycle and car parking in accordance with Oxfordshire County Council's adopted parking standards.</p> <p>2) Where development provides parking provision, facilities must provide cycle parking that is Local Transport Note 1/20 compliant and has:</p> <ul style="list-style-type: none"> <li>a) where provided, a minimum door width of 1 metre wide for doorways used to access cycling parking;</li> <li>b) safe and convenient access for manoeuvring with a bike between cycle parking and the public highway for the whole journey to and from the public highway, this may include wheeling ramps available in convenient locations to prevent the need for lifting a bike;</li> <li>c) an air pump and multi-tool facility where cycle parking spaces are clustered together; and</li> <li>d) where new developments seek to provide internal cycle parking, the cycle parking must be convenient, with no more than 2 doors required to access internal cycle facilities.</li> </ul> <p>3) Major developments providing employment and education must provide active travel (walking, running, wheeling and cycling) welfare facilities. The requirement will be identified on a case-by-case basis during pre-application discussions with Oxfordshire County Council. Active travel welfare facilities include (list is not exhaustive) the following:</p> <ul style="list-style-type: none"> <li>a) lockers;</li> </ul>	Indirect	Provision of Cycle Facilities will have a cost. However, the policy aligns with the current OCC position and so costs will not exceed current build costs, It is also unlikely that schemes will seek to provide indoor cycle parking where it is unviable to do so. We have not included any additional cost allowances in our appraisals.

	<ul style="list-style-type: none"> <li>i. device charging can be supplied within lockers to allow e-bike batteries and bike lights to be charged securely.</li> <li>ii. when a drying room is not provided, lockers can be heated / well-ventilated to allow wet equipment to dry.</li> </ul> <p>b) changing rooms; c) showers; and d) drying room.</p>		
<b>Policy IN6 – Deliveries and Freight</b>	<ul style="list-style-type: none"> <li>1) Access and loading arrangements suitable for cargo bikes must be considered for all developments (for current and future operations).</li> <li>2) Suitable vehicle turning and circulation for a large refuse vehicle and emergency services must be provided and demonstrated through swept path analysis [...]</li> <li>3) Developments that require dedicated loading and unloading facilities (such as supermarkets and retail shops) must be provided with convenient access arrangements, [...]</li> <li>4) Design of new development, particularly employment sites and any related transport infrastructure, needs to consider ongoing freight / delivery [...]</li> <li>5) Development that includes industrial or commercial elements that are estimated to generate freight movements should be assessed in accordance with Oxfordshire County Council's Transport for New Developments: Transport Assessments and Travel Plans document<sup>a</sup>. [...]</li> <li>6) Major development identified by the Highways Authority as being located by sensitive receptors and/or via a public highway that is unsuitable for large vehicle traffic must provide a Construction Traffic Management Plan [...]</li> <li>7) Opportunities to achieve and improve rail freight capability in the districts in appropriate locations to de-carbonise the delivery network and reduce air pollution will be supported, particularly where the transfer of goods is between rail and electric vehicles or cargo bikes.</li> </ul>	n/a	Although this policy requires consideration during design to ensure sufficient access, it is expected that requirements can be met without additional costs.

	<p>8) Provision of roadside services including refuelling, fast electric charging and other sustainable fuelling (such as hydrogen), car and lorry parking, toilets, refreshments and picnic areas will be supported [...]</p> <p><sup>a</sup> Oxfordshire County Council, <i>Transport Development Management</i>, available at: <a href="https://www.oxfordshire.gov.uk/residents/roads-and-transport/transport-policies-and-plans/transport-new-developments/transport-development">https://www.oxfordshire.gov.uk/residents/roads-and-transport/transport-policies-and-plans/transport-new-developments/transport-development</a></p>		
<b>Policy IN7 – South East Strategic reservoir Option (SESRO) Safeguarding</b>	<p>1) Land is safeguarded for a reservoir and related development works, as shown on the Policies Map, between the settlements of Drayton, East Hanney and Steventon, unless reference to it is excluded from an approved Water Resources Management Plan for the area, (at which time this policy will cease to have effect). [...]</p>	n/a	Policy is not anticipated to have an impact on viability.
<b>Policy IN8 – Digital Connectivity</b>	<p>2) The council will work with Oxfordshire County Council and others to promote faster, more reliable and more comprehensive coverage of electronic communications and allow businesses and residents to access services and information more effectively, thereby helping to reduce the need to travel.</p> <p>3) All proposals for new development must ensure appropriate infrastructure is provided during development, sufficient to enable all properties to be connected to full fibre broadband without any post-development works. [...]</p> <p>4) Where relevant, proposals will be encouraged to demonstrate that fibre connections are easily accessible to enable connection to street furniture to facilitate future advancements in digital technology.</p> <p>5) All residential developments and all new employment generating development should meet expected demand for mobile connectivity generated by the development [...]</p> <p>6) Adverse impacts on the successful functioning of existing digital infrastructure should be avoided. Where this is not possible, appropriate mitigation must be provided.</p>	Direct	We assume the cost of communication service and/or ducts (for future proofing) are incorporated within the normal external works budgets for utilities connections.

	<p>7) All proposals must demonstrate how they are future-proofed for developments in digital connectivity (including both fibre and mobile data).</p> <p><b>Telecommunications installations</b></p> <p>8) In accordance with government advice, if a proposed installation meets the International Commission on Non-Ionising Radiation Protection (ICNIRP) guidelines for public exposure then it will not be necessary to consider further health aspects and concerns.</p> <p>9) Proposals for telecommunications development will be permitted provided [...various criteria are met] 9) Any planning permission will contain conditions to ensure that when any facility ceases to be used, becomes obsolete, or falls into disrepair, the demolition and removal of all works is undertaken, both above and below ground, and the reinstatement of the site to its original condition or to an agreed specification will be required.</p>

# South Oxfordshire and Vale of White Horse District Councils – Joint Local Plan Viability Testing

## Stakeholder Workshop

2<sup>nd</sup> August 2024

# House-keeping

- We would like this to be interactive
- Ask questions throughout - raise hand / use Chat
- Mute microphone when not speaking
- Slides will be circulated

1. Introduction
2. Local Plan Viability Context
3. Methodology
4. Research and Emerging Assumptions
5. Feedback and Next Steps

# About AspinallVerdi

- Specialist Property Development Consultants
- RICS GP and P&D Surveyors / RTPI
- Local Plan / Affordable Housing Viability
- CIL Viability Studies
- RTPI England Policy Panel / RICS FVIP Panel
- Homes England Property Panel
- Financial Viability Appraisals for S106
- Market Studies to support change of use
- Heritage - Conservation Deficit / Enabling Dev. Appraisals
- Leeds | London | Liverpool | Newcastle | Birmingham

## Background and Objectives of the Study:

- SODC and VOWH are producing a Joint Local Plan 2041. This document will set out how much development is required in an area, as well as where it should go. It also includes policies determining what will be required of development, including: affordable housing, environmental protection, sustainability, water quality and much more.
- Both Councils are currently charging CIL
  - SODC implemented January 2023 & VOWH implemented October 2021.
- To undertake Viability Assessment of the Councils' affordable housing and development policies in order to inform the Councils' planning policies for affordable housing and developer contributions in the new Joint Local Plan. Also, to demonstrate that the Policies are viable and the Plan is deliverable.

# Purpose of the Workshop

- To explain our methodology and emerging assumptions
- To engage and receive feedback
- We will then refine and revise the assumptions
- Run viability appraisals
- Make recommendations to the councils

1. Introduction
2. Local Plan Viability Context
3. Methodology
4. Research and Emerging Assumptions
5. Feedback and Next Steps

## NPPF (December 2023)

**2012 Para 173.** *Pursuing sustainable development requires careful attention to viability and costs in plan-making and decision-taking.....To ensure viability, the costs of any requirements likely to be applied to development (affordable housing, infrastructure contributions etc.) should, when taking account of the normal cost of development, provide **competitive returns to a willing land owner and willing developer to enable the development to be deliverable***

**2023 Para 58.** Where up-to-date policies have set out the contributions expected from development, ***planning applications that comply with them should be assumed to be viable.....***

....All viability assessments, including any undertaken at the plan-making stage, should *reflect the recommended approach in national planning guidance*, including standardised inputs, and should be made publicly available.

**2021 Para 34.** Plans should set out the contributions expected from development. This should include setting out the levels and types of affordable housing provision required, along with other infrastructure (such as that needed for education, health, transport, flood and water management, green and digital infrastructure). Such policies should not undermine the ***deliverability*** of the plan.

Includes sections on:

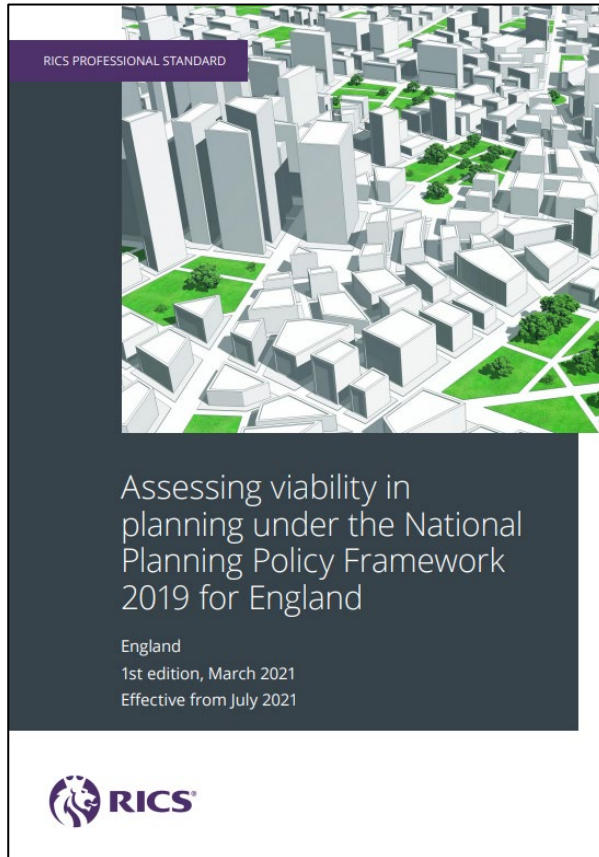

- Viability and plan making
- Viability and decision taking
- Standardised inputs to viability assessment

- Policy requirements should be informed by evidence of infrastructure and affordable housing need, and a ***proportionate assessment*** of viability that takes into account all relevant policies, and local and national standards, ***including the cost implications of the Community Infrastructure Levy (CIL) and section 106***
- Policy requirements should be ***clear so that they can be accurately accounted for in the price paid for land***. To provide this certainty, affordable housing requirements should be expressed as a single figure rather than a range
- ***Different requirements*** may be set for ***different types*** or location of site or types of development

- Paragraph 010 - What are the principles for carrying out a viability assessment? - *Strike a balance*
- Paragraph 011 - How should gross development value be defined for the purpose of viability assessment? - *Sales values evidence; rents and yields*
- Paragraph 012 - How should costs be defined for the purpose of viability assessment? - *All costs; including abnormals*
- Paragraph 013 - How should land value be defined for the purpose of viability assessment? - *‘Existing use value plus’ (EUV+)*
- Paragraph 018 - How should a return to developers be defined for the purpose of viability assessment? - *15-20% of gross development value (GDV).*

# Value Zones by Ward – Current Findings

Value Zone	Value Range
Zone 1 – Western VOWH	Up to £4,500 psm
Zone 2 – SODC + Eastern VOWH	£4,500 - £6,500 psm
Zone 3 – Southern SODC	£6,500 psm and over

# Residential Value Assumptions (£)

Property type	Floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
1 Bed Flat	50	£382,000	£294,000	£186,200
2 Bed Flat	70	£482,000	£360,000	£187,200
2 Bed House	70	£547,000	£403,200	£295,200
3 Bed House	95	£564,000	£460,600	£357,200
4 Bed House	124	£817,000	£573,400	£427,000
5 Bed House	128	£1,060,000	£766,100	£554,200

# Residential Value Assumptions (£ psm)

Property type	Floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
1 Bed Flat	50	£7,800	£6,000	£3,800
2 Bed Flat	70	£6,700	£5,000	£2,600
2 Bed House	70	£7,600	£5,600	£4,100
3 Bed House	95	£6,000	£4,900	£3,800
4 Bed House	124	£6,700	£4,700	£3,500
5 Bed House	128	£6,500	£4,700	£3,400

# Garage Assumptions

We have made the following assumptions:

- 3 bed houses - 50% have garages;
- 4 bed houses - 100% have garages;
- 5 bed houses - 150% have garages; (i.e., 1.5 garages per units, 100% have single garages and 50% have double garages).

# Affordable Housing Target and Assumptions

Tenure	% Mix	Transfer Value (% of MV)	Comments
Affordable Housing	50%		
Comprising:			
Social Rented	25%	44%	
Affordable Rented	2.5%	60%	
First Homes	12.5%	70%	Capped at £250,000
Other Routes	10%	76%	Assumed Shared Ownership

# Cost Assumptions – Initial Payments

Item	Assumption	Comments
Planning Application Professional Fees and reports	Allowance for typology	Generally x 3 Stat Planning fees
Statutory Planning Fees	Based on national formula	
CIL / IL	Based on the separate CIL Charging Schedules for the districts	
Site Specific S106 and other policy costs	TBC	

# Cost Assumptions – Construction

Item	Build Cost	Comments
Site Clearance, Demolition & Remediation	£50,000 per acre if brownfield	Generic Assumption
Site Infrastructure Costs	Inc. in External Works for generic typologies	
Houses (medium house builder 4 to 50 units)	£1,555 psm	BCIS Category: Estate Housing Generally (Median Value)
Houses (large house builder 51+ units and above)	£1,365 psm	BCIS Category: Estate Housing Generally, Lower Quartile
Flats/ Apartments	£1,757 psm	BCIS Category: Flats (apartments) Generally (Median Values)
Garages	£8,000 per garage	
External Works	10% - 15%	Standard Assumption, dependent on typology (e.g. flatted / housing)

# Cost Assumptions – Design

Item	Cost	Comments
M4(2) Category 2 – Accessible and Adaptable housing	+£1,090 per unit (flats) +£625 per unit (houses)  (except M4(3))	Equality and Human Rights Commission & Habinteg, A toolkit for local authorities in England: Planning for accessible homes (index linked by BCIS TPI)
M4(3) (a)	+£9,470 per unit (flats) +£12,370 per unit (houses)	As above
M4(3) (b)	+£9,660 per unit (flats) +£27,350 per unit (houses)	As above
EV Charging	£0	Assumed to be incorporated into BCIS costs

## Cost Assumptions - Other

Item	Assumption	Comments
Contingency	3% - 5%	Greenfield / brownfield
Professional Fees	6.5%	Based on recent FVA evidence and industry standard assumptions
OMS Marketing and Promotion (also applicable to FH)	3%	% of OMS GDV
Sales Agent (also applicable to FH)	1%	As above
Sales Legal (also applicable to FH)	0.25%	As above
AH Disposal	£750 per unit	

## Residential Cost Assumptions – Finance, OH&P

Item	Assumption	Comments
Debit Interest	7.5%	Applies to 100% of cashflow to include Finance Fees etc
Profit on Market Sales	17.5%	With sensitivities between 15% and 20%
Profit on Affordable Housing	6%	Standard Assumption

- Typologies have been based on scenarios provided by the Councils.
- Typologies are sites with shared characteristics such as location/value zone, brownfield or greenfield, size of site and current and proposed use or type of development.
- The characteristics used to group sites should reflect the nature of typical sites that may be developed within the plan area and the type of development proposed for allocation in the plan.
- Typologies matrix – easy navigation, checks NPPF 10% affordable home ownership requirement.
- Unit sizes based on Nationally Described Space Standards – and Market Evidence.

## Unit Sizes

We have assumed the following floor areas across all Value Zones:

Property type	Areas (sqm)
1 Bed Flat	50
2 Bed Flat	70
2 Bed House	70
3 Bed House	95
4 Bed House	124
5 Bed House	128

# Senior Living / Extra Care Value Assumptions

Property type	Average floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
<b>1 Bed Flat</b>	50	£400,000	£250,000	£175,000
<b>2 Bed Flat</b>	75	£550,000	£325,000	£225,000
<b>1 Bed Flat (extra care)</b>	60	£600,000	£375,000	£263,000
<b>2 Bed Flat (extra care)</b>	80	£733,000	£433,000	£300,000

Property type	Average floor area sqm	Zone 3 – Southern SODC (£ psm)	Zone 2 – SODC + Eastern VOWH (£ psm)	Zone 1 – Western VOWH (£ psm)
<b>1 Bed Flat</b>	50	£8,000	£5,000	£3,500
<b>2 Bed Flat</b>	75	£7,333	£4,333	£3,000
<b>1 Bed Flat (extra care)</b>	60	£10,000	£6,250	£4,375
<b>2 Bed Flat (extra care)</b>	80	£9,166	£5,416	£3,750

Additional revenue?

- Event Fees
- Ground Rents

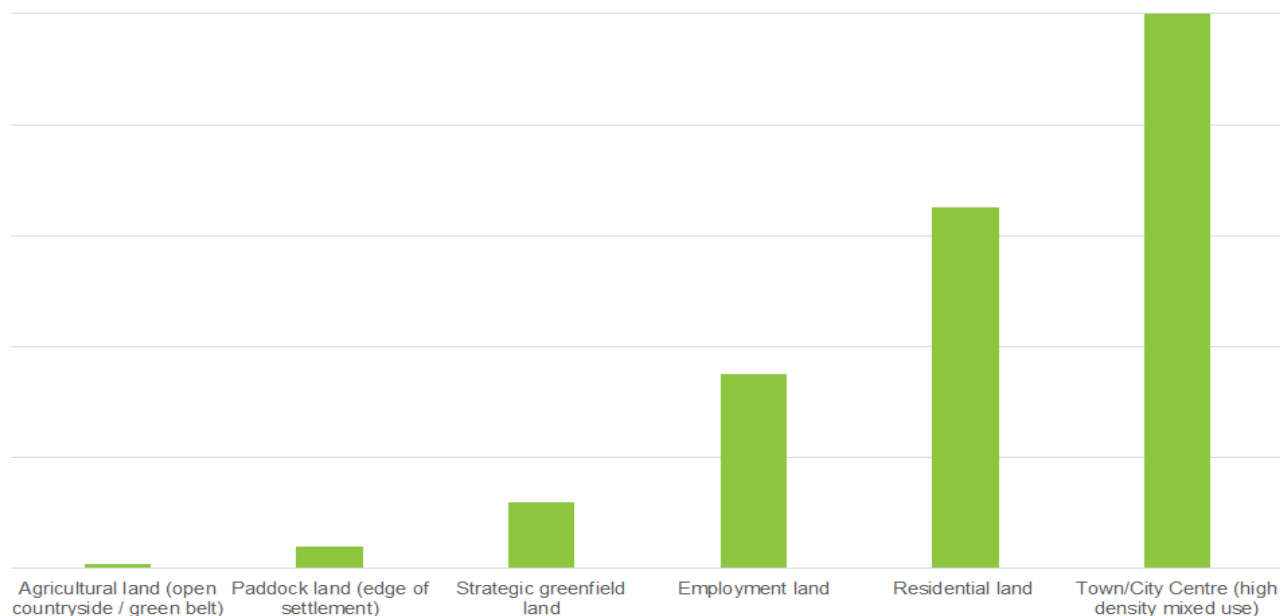

# Older Persons Housing – Additional Cost Assumptions

Typologies	Build Cost	Comments
Sheltered Housing	£1,986 psm	Median BCIS – Supported Housing Generally (Feb 2024)
Extra Care Housing	Sheltered +4%	Based on RHG Viability Base Data evidence - <i>but not double counting with M4(3)(a)/(b)</i>
External Works	+10%	These schemes generally have less external areas (e.g. less car parking). This is consistent with the higher development density assumptions
Empty Property Costs (EPC)	Based on Rateable Value for ½ marketing period	Welcome feedback on appropriate metric

# Benchmark Land Value (BLV)

## Approach:

- Existing Evidence Base Review (inc. Neighbouring Authorities)
- UK Land Context
- Agricultural / Paddock Land
- Residential Development Land
- Greenfield / Brownfield

# BLV – Working Assumptions

Typology	Location	Existing Use	EUV -			Uplift Multiplier	BLV -	
			(per acre) (gross)	Net:Gross (%)	(per acre) (net)		(per acre) (net developable) (rounded)	(per ha) (net developable) (rounded)
Residential - Smaller Sites	High Value Zone	Greenfield	£20,000	75%	£26,667	24	£650,000	£1,606,000
Residential - Volume House Builder scale	High Value Zone	Greenfield	£15,000	75%	£20,000	28	£550,000	£1,359,000
Residential - Smaller Sites	Medium Value Zone	Greenfield	£20,000	75%	£26,667	20	£520,000	£1,285,000
Residential - Volume House Builder scale	Medium Value Zone	Greenfield	£15,000	75%	£20,000	24	£480,000	£1,186,000
Residential - Smaller Sites	Lower Value Zone	Greenfield	£20,000	75%	£26,667	17	£460,000	£1,137,000
Residential - Volume House Builder scale	Lower Value Zone	Greenfield	£15,000	75%	£20,000	21	£420,000	£1,038,000
Residential	High Value Zone	Brownfield	£1,000,000	100%	£1,000,000	15%	£1,150,000	£2,842,000
Residential	Medium Value Zone	Brownfield	£900,000	100%	£900,000	12%	£1,008,000	£2,491,000
Residential	Lower Value Zone	Brownfield	£800,000	100%	£800,000	10%	£880,000	£2,174,000

## BLV – call for evidence

- We would welcome more comparable land value evidence for all land uses (including any minimum land value clauses within agreed option / promotion agreements).
- We need specific details of:
  - the existing use (greenfield / brownfield);
  - transaction date;
  - net and gross site area;
  - price paid;
  - planning consent (including affordable housing % and S106 details)
  - abnormal costs
- ***Any information provided in confidence, will be treated as such***

Elliot Squire - [elliott.squire@aspinallverdi.co.uk](mailto:elliott.squire@aspinallverdi.co.uk)

Matthew Scott – [matthew@aspinallverdi.co.uk](mailto:matthew@aspinallverdi.co.uk)

Planning Policy - [planning.policy@southandvale.gov.uk](mailto:planning.policy@southandvale.gov.uk)

**Deadline for responses – 2 Weeks (by Friday 16<sup>th</sup> August)**

## Next Steps

1. Review workshop feedback
2. Refine assumptions
3. Run appraisals
4. Prepare recommendations
5. Publication of Viability Report

Any final questions?

*Please participate / provide feedback*

**SODC and VOWH Joint Local Plan Viability – Stakeholder Consultation Feedback and Analysis**  
**Stakeholder Workshop – 2<sup>nd</sup> August 2024**

Item / Heading	Date	Comment / Feedback	AspinallVerdi Comments
Land Values	[in the workshop]	Is the assessment on a gross or net acre basis in terms of land values?	Both net and gross are shown in the appraisals.
Wider infrastructure	[in the workshop]	Wider infrastructure delivery plan – how is this being taken into consideration? How much interaction between OCC and SODC about infrastructure requirements that effect the allocations?	SODC / VOWH: IDPs are being updated, collaborating with the county council. The intention is that these are captured in the Word proformas / Excel docs, although we have had limited response.
Energy Efficiency	[in the workshop]	How are you factoring in the uplift to build cost in terms of Part L and fabric energy efficiency? Does it differ in the scale of the site?	The Council have commissioned research in terms of % uplift in build cost.
On-site infrastructure	[in the workshop]	15% on externals, does this apply to strategic sites?	It's an additional cost that is requested by proformas.
Utilities	[in the workshop]	Where are the costs of utilities	Typically covered within the external works, although if there are specific abnormalities to be covered in the proformas for strategic sites.
External Works	07/08/24	Could you confirm your definition is of what is included within the External Works section of the viability	The external works covers the remainder of the construction related costs not covered in the BCIS base build. These includes items such as hardstanding, landscaping, infrastructure.
Value Zones / Values	15/08/24	This indicates that the viability testing undertaken by Aspinall Verdi ( AV ) will be split into 3 zones of which the land at Berinsfield falls within zone 2 (essentially the medium value area). This identifies an achievable value range of between £4,500 sqm - £6,500 sqm or £418 psf - £604 psf. The reason I raise this as a	The whole plan viability assessment is a high-level testing of the emerging local plan.  SODC and VOWH combining their local plans has led to the need for a re-evaluation of value areas. Our

Item / Heading	Date	Comment / Feedback	AspinallVerdi Comments
		<p>concern at this stage is if we refer back to the previous viability work undertaken by AV, the locations of Berinsfield and Didcot were previously allocated into the lowest value area and now seem to have been moved into the medium value area.</p> <p>What the above analysis suggests is that AV are proposing a value uplift for Berinsfield from c. £400 psf to £590 psf; an uplift of c. 47% over c. 2-year period.</p>	<p>new values areas are supporting by the evidence in our residential market paper.</p> <p>Our approach is for each strategic site to adopt the values of the area it exists in.</p>
Affordable housing rate	15/08/24	<p>*Concern of uplift to 50% affordable housing</p> <p>Since the Local Plan was adopted in December 2020, the Land Registry HPI for SODC from this point to the latest published date shows an uplift in all property type values of c. 10%. In contrast, the BCIS All in Tender Price Index over the same period has increased 20% (Appendix 3). What this demonstrates is that cost inflation has substantially outstripped revenue growth and the impact this will have on viability is clearly a negative one....</p> <p>....</p> <p>On this basis therefore, I would suggest consideration is required as to the continued flexibility of this policy target, as it stands in adopted policy, and the tenure of affordable housing to ensure the Berinsfield site is deliverable.</p>	<p>Our assessment of the local plan will determine if the rate of 50% affordable housing is viable in the context of the emerging plan policies and current market.</p>

Item / Heading	Date	Comment / Feedback	AspinallVerdi Comments
Site Infrastructure/ Exceptional Costs	15/08/24	<p>External Works allowance (10% - 15% on BCIS) for generic typologies.</p> <p>important to clarify that this assumption does not apply to strategic development sites such as Berinsfield.</p> <p>*Larger greenfield sites require more external works.</p>	The strategic sites have the over and above infrastructure costs included. These were consulted on through the excel proformas.
Developer Profit	15/08/24	<p>AV are intending to include a profit on market housing of 17.5% on GDV.</p> <p>Previous assessment was on a 20% basis. It is unclear what had changed.</p> <p>Evidence provided of other local plan viabilities adopting 20%.</p>	<p>Our current baseline assumption for profit allowances in local plan viability studies has moved from 20% to 17.5% based on various consultations.</p> <p>We provide sensitivities on this up to 20%.</p>
Benchmark Land Value (BLV)	15/08/24	<p>The AV schedule shows the BLV for Berinsfield would be benchmarked at £480k per net developable acre.</p> <p>Whilst it is appreciated the equivalent £ per gross acre can be estimated, it would be helpful if prior to finalising their assumptions AV are able to confirm/disclose what the assumptions relate to on a gross acre basis.</p>	Gross and Net BLVs are shown in our detailed appraisals.
Unit Size	15/08/24	<p>Recommendations to adjust unit sizes: 1-bed sheltered from 50 sqm to 52 sqm, 2-bed sheltered from 75 sqm to 72 sqm, 1-bed extra care remains 60 sqm.</p>	As a high-level assessment, this is good evidence that our unit sizes are accurate.
Unit Mix	15/08/24	<p>Typical retirement developments: 60% 1-bed and 40% 2-bed units, applicable to both sheltered and extra care schemes.</p>	The Council has instructed us to test a different mix in our appraisal for sheltered housing. However, flatted elements are tested at this mix. Also, extra care is tested at this mix.

Item / Heading	Date	Comment / Feedback	AspinallVerdi Comments
Non-chargeable / Communal Space	15/08/24	Recommend 25-30% non-chargeable area for sheltered housing and 35-40% for extra care housing.	These are aligned with the assumptions made in our appraisals.
Sales and Marketing Costs	15/08/24	Older persons housing schemes typically have sales and marketing costs of 6% of GDV, higher than the 3-4% used for general housing.	This allowance is adopted in our appraisals.
Sales Periods / Void / Empty Property Costs	15/08/24	Longer sales periods for older persons housing: typical sales pattern over 3 years. Recommend allowance of £5,000 per unit for sheltered and £10,000 per unit for extra care to cover empty property costs.	This allowance is adopted in our appraisals.
Developer Return	15/08/24	Suggest 20% of GDV as an acceptable return for older persons housing due to specific risks and slower return on investment, based on appeal precedents.	This allowance is adopted in our appraisals.
Cost of M4(3)	15/08/24	The cost of M4(3) compliance for flats needs to consider additional space and fittings, impacting density, sales values, and site capacity.	M4 (3) costs have been specifically included within our appraisals.
Cost of EV Charging and Building Regulations	15/08/24	EV charging and new building regulations costs are not yet reflected in BCIS data. An uplift of £2,500-£5,000 per unit is commonly agreed.	We are of the view that these are accounted for within BCIS given the time period since the required for EV charging.
Cost of Biodiversity Net Gain	15/08/24	Emphasise the need to account for realistic BNG costs, especially on brownfield sites, in the viability assessment and benchmark land value.	We have had specific costs provided to us from SODC / VOWH for BNG.
Event Fees and Ground Rent	15/08/24	Event fees are used for communal maintenance, not additional developer revenue. Ground rents are no longer applicable due to 2023 legislation.	No income allowances have been carried forward to our assessment.

Item / Heading	Date	Comment / Feedback	AspinallVerdi Comments
Sales Values / Worth of Retirement and Extra Care	15/08/24	Sales values based on asking prices are often higher than actual sales; a 14% premium for extra care over retirement living is more accurate than 25%.	We have provided evidence of the 25% premium which has been acceptable in other local plan assessments.
Benchmark Land Values	15/08/24	Older persons housing requires specific, typically brownfield, sites near town centres, leading to higher demand and competition. Testing should focus on medium to high residential zones.	This is considered within our various typologies.

# 1 Introduction

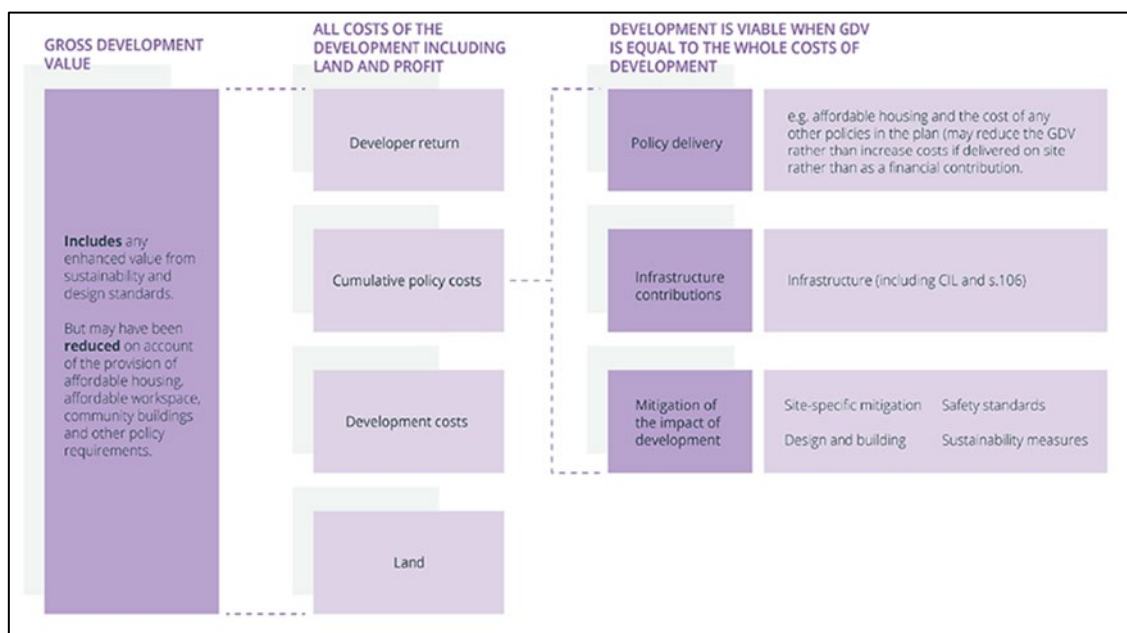

- 1.1 The (benchmark) land value assumption(s) are fundamental in terms of Local Plan Viability. This land value paper sets out our approach to land values for the wider Viability Assessment. The Viability Assessment is discussed in our separate, main viability report.
- 1.2 Once we have considered the approach taken, we then review the agricultural, and residential land values across South Oxfordshire and Vale of White Horse districts in order to inform our assumptions for the Benchmark Land Values (BLV) used in the appraisals.
- 1.3 The purpose of the study is to review the viability of the Joint Local Plan. This has regard to the cumulative impact of policy costs and other development value and cost assumptions, including land value.
- 1.4 This paper includes the following sections:

2) Land Value Approach	This section summarises our approach to the BLV. It should be read in conjunction with the more detailed discussion and analysis in the main Viability report.
3) Existing Evidence Base Review	In this section we review the existing evidence base with regard to land values from previous viability studies.
4) UK Land Context	This section provides some background context to land values at a national and regional level. This includes development land, as well as agricultural land as we are aware that some sites likely to come forward for development are greenfield.
5) Agricultural Land Market	This section sets out the market information for agricultural land values across South Oxfordshire and Vale of White Horse districts.
6) Residential Development Land Value	This section sets out residential development land value evidence (i.e. from land that has either obtained planning permission or has outline planning consent for residential use and/or is allocated for residential development).
7) Benchmark Land Value Assumptions	Finally, we set out our BLV assumptions. These are derived from the above research and interrogation of our confidential land value database.

## 2 Land Value Approach

- 2.1 In a development context, the land value is calculated using a residual approach – the Residual Land Value (RLV).
- 2.2 The RLV is calculated by the summation of the total value of the development, less the development costs, planning obligations, developers return/profit to give the land value. This is illustrated on the following diagram (see Figure 2.1)

**Figure 2.1 – Development Viability**

Source: Royal Institution of Chartered Surveyors (RICS) Assessing viability in planning under the National Planning Policy Framework 2019 for England -1st edition, March 2021

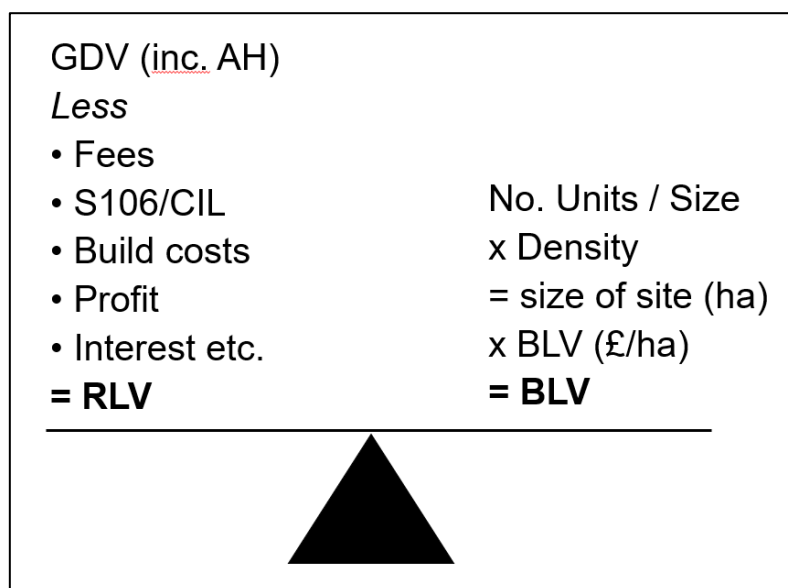

- 2.3 The above figure illustrates that development is only viable on a policy compliant basis if the cumulative policy costs (i.e., affordable housing, policy delivery, infrastructure contributions and mitigation measures) have sufficient 'headroom'.
- 2.4 In order to determine whether development is viable in the context of area-wide studies, the NPPF (December 2023) is silent on the requirements of landowners and developers<sup>1</sup>. It now simply states that, 'all viability assessments, including any undertaken at the plan-making stage, should reflect the recommended approach in national planning guidance, including standardised inputs, and should be made publicly available<sup>2</sup>.
- 2.5 The NPPG Viability provides guidance on the land values and particularly benchmark land values for the purposes of viability assessment:

<sup>1</sup> Previously paragraph 173 of the NPPF (2012) stated that 'to ensure viability, the policy costs should provide competitive returns to a willing land owner and willing developer to enable the development to be deliverable'.

<sup>2</sup> Paragraph 58, December 2023, Department for Levelling Up, Housing & Communities, National Planning Policy Framework

- **How should land value be defined for the purpose of viability assessment?** – ‘a benchmark land value should be established on the basis of the existing use value (EUV) of the land, plus a premium for the landowner’. Paragraph: 013 Reference ID: 10-013-20190509 Revision date: 09 05 2019
  - **What factors should be considered to establish benchmark land value?** – ‘In plan making, the landowner premium should be tested and balanced against emerging policies.’ Paragraph: 014 Reference ID: 10-014-20190509, Revision date: 09 05 2019
  - **What is meant by existing use value in viability assessment?** – ‘EUV is the value of the land in its existing use. Existing use value is not the price paid and should disregard hope value. Existing use values will vary depending on the type of site and development types. EUV can be established in collaboration between plan makers, developers and landowners by assessing the value of the specific site or type of site using published sources of information such as agricultural or industrial land values, or if appropriate capitalised rental levels at an appropriate yield (excluding any hope value for development)’. Paragraph: 015 Reference ID: 10-015-20190509, Revision date: 09 05 2019
  - **How should the premium to the landowner be defined for viability assessment?** – ‘The premium should provide a reasonable incentive for a land owner to bring forward land for development while allowing a sufficient contribution to fully comply with policy requirements’. Paragraph: 016 Reference ID: 10-016-20190509, Revision date: 09 05 2019
- 2.6 The above PPG guidance is described in detail in the main report (section 2 – National Policy Context). The PPG does not provide any guidance on the quantum of premiums. One therefore has to ‘triangulate’ the BLV based on evidence.
- 2.7 In this respect we have created a land value database of Oxfordshire land value evidence. This has circa 185 data points and we are able to interrogate this by evidence source, value basis and zone etc.
- 2.8 Hence, for plans and schemes to be viable, the RLV has to be tested against the benchmark which would enable sites to come forward – the Benchmark Land Value (BLV). This is illustrated in the following diagram - Figure 2.2.

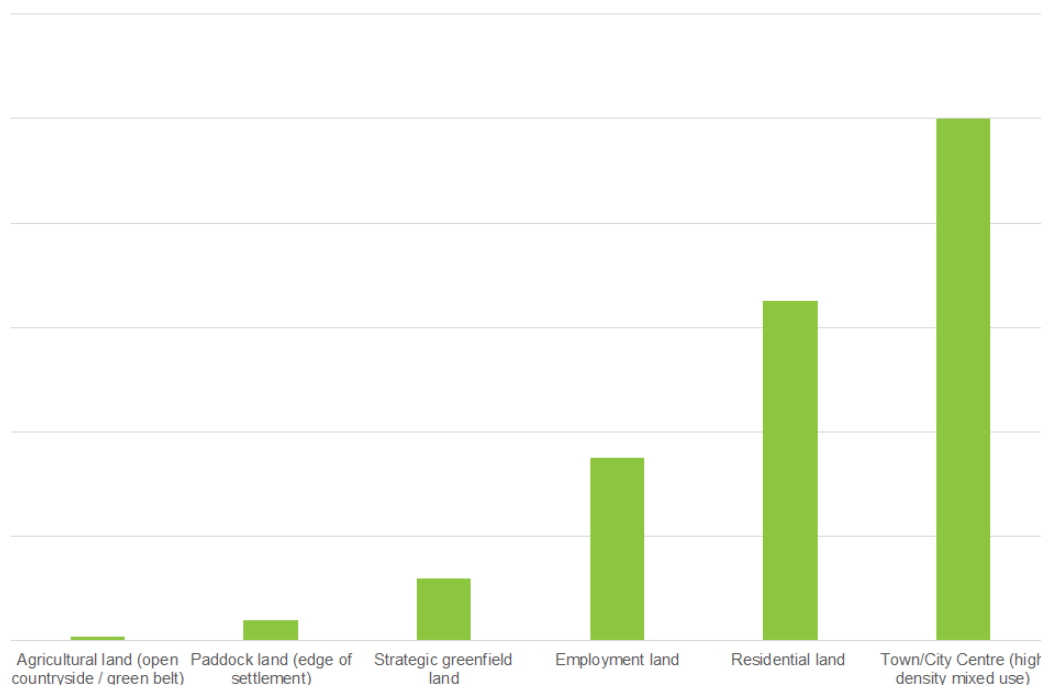

**Figure 2.2 – Balance between RLV and BLV**

Source: AspinallVerdi (© Copyright)

- 2.9 The fundamental question is, '*what is the appropriate BLV?*' The land market is not perfect but there is a generally accepted hierarchy of values based on the supply and demand for different uses. This is illustrated on an indicative basis in the following chart in Figure 2.3.

**Figure 2.3 – Indicative Land Value Hierarchy**

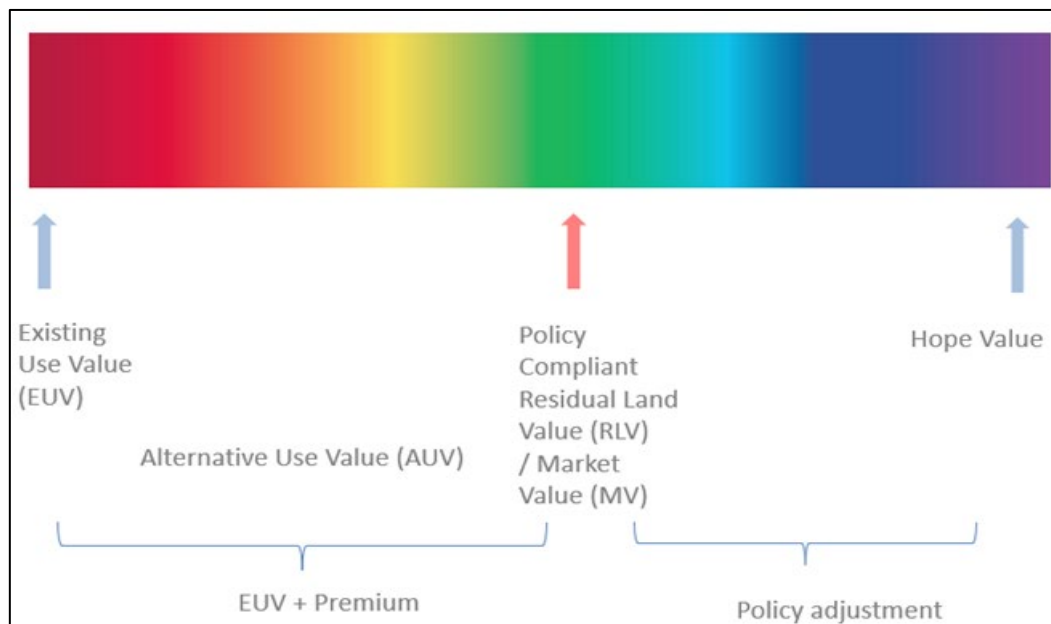

Source: AspinallVerdi (© Copyright)

- 2.10 Note that the value of individual sites depends on the specific location and site characteristics. In order for development to take place (particularly in the brownfield land context) the value of the alternative land use has to be significantly above the existing use value to cover the costs of site acquisition and all the cost of redevelopment (including demolition and construction costs) and developers profit / return for risk. In an area-wide context, we can only be broad-brush in terms of the BLV as we can only appraise a representative sample of hypothetical development typologies.
- 2.11 Note also that some vendors have different motivations for selling sites and releasing land. Some investors (e.g. Oxbridge colleges) take a very long-term view of returns, whereas other vendors could be forced sellers (e.g. when a bank forecloses).
- 2.12 Finally, 'hope value' has a big influence over land prices. Hope value is the element of value in excess of the existing use value, reflecting the prospect of some more valuable future use or development. The PPG specifically states that hope value (and the price paid) should be disregarded from the EUV. However, hope value is a fundamental part of the market mechanism and therefore is relevant in the context of the premium.
- 2.13 The diagram below (Figure 2.4) illustrates these concepts. It is acknowledged that there has to be a premium over EUV in order to incentivise the landowner to sell. This 'works' in the context of greenfield agricultural land, where the values are well established, however, it works less well in urban areas where there is competition for land among a range of alternative uses. In an area-wide context, it begs the question EUV "for what use?" It is impossible to appraise every single possible permutation of

the existing use (having regard to any associated legacy costs<sup>3</sup>) and development potential.

**Figure 2.4 – Benchmark Land Value Approaches**

2.14 There is very little specific guidance on premiums. The main guidance and references are set out in section 4 of the main report - Guidance on Premiums/Land Value Adjustments. The main references are:

- RICS, Assessing Viability in Planning under the National Planning Policy Framework 2019 for England, March 2021 (effective from 01 July 2021)
- Local Housing Delivery Group Chaired by Sir John Harman, 20 June 2012, Viability Testing Local Plans, Advice for planning practitioners (The Harman Report)

- House of Commons Housing, Communities and Local Government Committee Land Value Capture Tenth Report of Session 2017–19 HC 766 Published on 13 September 2018 by authority of the House of Commons

<sup>3</sup> E.g. Existing buildings to be demolished and/or contamination requiring remediation.

- Appeal Decision, Appeal Ref: APP/Q4245/W/19/3243720, Land at Warburton Lane, Trafford by Christina Downes BSc DipTP MRTPI an Inspector appointed by the Secretary of State for Communities and Local Government. Decision date: 25 January 2021
- 2.15 The HCA Area Wide Viability Model (Annex 1 Transparent Viability Assumptions) is the only source of specific guidance on the size of the premium. The guidance states:
- ‘There is some practitioner convention on the required premium above EUV, but this is some way short of consensus and the views of Planning Inspectors at Examination of Core Strategy have varied. Benchmarks and evidence from planning appeals tend to be in a range of 10% to 30% above EUV in urban areas. For greenfield land, benchmarks tend to be in a range of 10 to 20 times agricultural value’.*<sup>4</sup>
- 2.16 Greater emphasis is now being placed on the existing use value (EUV) + premium approach to planning viability to break the circularity of ever-increasing land values. Due to increasing land values (partly driven by developers negotiating a reduction in policy obligations on grounds of ‘viability’), we are finding that the range between existing use value (EUV) and ‘Market Values’ and especially asking prices is getting larger. Therefore (say) 20 x EUV and (say) 25% reduction from ‘Market Value’ may not ‘meet in the middle’ and it is therefore a matter of professional judgement what the BLV should be (based on the evidence). Our BLVs are set out in Table 7.1 - Benchmark Land Value Table of Assumptions – at the end of this paper.
- 2.17 In order to provide comprehensive analysis, we also set out a variety of sensitivities in terms of changes to the BLV (and other) assumptions – these are shown for each of the typologies on the appraisals appended (with an explanation of how to interpret the sensitivities in the main Viability Assessment report).

---

### 3 Existing Evidence Base Review

---

- 3.1 We have undertaken a review of the existing evidence base in regard to land values. This includes studies for South Oxfordshire, Vale of White Horse and the surrounding authorities, as follows:

#### Vale of White Horse Affordable Housing Viability, BNP Paribas (2010)

---

- 3.2 BNP Paribas undertook this study and the following assumptions were made:

- Agricultural land value £8,000 per acre [£3,237 per hectare]
- Residential land lower benchmark £250,000 per acre [£101,174 per hectare]
- Residential land upper benchmark £500,000 per acre [£202,347 per hectare]

#### SODC CIL Viability Study Update, BNP Paribas (2014)

---

- 3.3 This study was also undertaken by BNP Paribas and the key points are summarised below:

- For previously developed land, i.e., sites likely to be in current or historic uses, the first benchmark equates to £750,000 per hectare (£303,520 per acre) based on capitalised rents for existing commercial buildings.
- The second benchmark land value makes a downward adjustment to benchmark 1 to provide an indicative residential land value benchmark for lower value uses. This benchmark equates to £500,000 per hectare (£202,350 per acre) and is intended to illustrate the inevitable variation in land values across the District.
- The third and fourth benchmark land values are based on greenfield sites, ranging from £325,000 per hectare (£131,525 per acre) to £375,000 per hectare (£151,760 per acre).

- 3.4 The above studies by BNP Paribas pre-date the emphasis on EUV+ brought into effect by the PPG Viability in 2019.

#### VOWH CIL Viability Assessment (2019)

---

- 3.5 In January 2019 AspinallVerdi published a Land Value Paper for the Vale of White Horse CIL Viability review. This was based upon similar methodology to the earlier Plan-viability studies for SODC. Note this was only just following the update to the NPPF/PPG in respect of EUV+.
- 3.6 The BLV assumptions that were adopted for the 2019 CIL viability study are set out on the following table.

**Table 3.1 - VOWH CIL Viability BLV Assumptions (2019)**

Typology	Location	Existing Use	EUV -					Uplift Multiplier	BLV -		Policy adjustment - [X] %	MV -	
			(per acre) (gross)	(per ha) (gross)	Net:Gross (%)	(per acre) (net)	(per ha) (net)		(per acre) (net developable) (rounded)	(per ha) (net developable) (rounded)		(per acre) (net)	(per ha) (net) (rounded)
Residential < 50 units	Higher Value Zone - Eastern Parishes	Greenfield	£15,000	£37,065	75%	£20,000	£49,420	28	£550,000	£1,359,000	15%	£650,000	£1,606,000
Residential > 50 units	Higher Value Zone - Eastern Parishes	Greenfield	£12,500	£30,888	75%	£16,667	£41,183	28	£470,000	£1,161,000	15%	£550,000	£1,359,000
Residential < 50 units	Lower Value Zone - Rest of the District	Greenfield	£15,000	£37,065	75%	£20,000	£49,420	25	£500,000	£1,236,000	17%	£600,000	£1,483,000
Residential > 50 units	Lower Value Zone - Rest of the District	Greenfield	£12,500	£30,888	75%	£16,667	£41,183	27	£450,000	£1,112,000	10%	£500,000	£1,236,000
Residential Strategic Sites	Lower Value Zone - Rest of the District	Greenfield	£10,000	£24,710	50%	£20,000	£49,420	23	£450,000	£1,112,000	10%	£500,000	£1,236,000
Residential	Higher Value Zone - Eastern Parishes	Brownfield	£700,000	£1,729,700	100%	£700,000	£1,729,700	20%	£840,000	£2,076,000			
Residential	Lower Value Zone - Rest of the District	Brownfield	£450,000	£1,111,950	100%	£450,000	£1,111,950	20%	£540,000	£1,334,000			

Source: AspinallVerdi (190226 VOWH Land Value Research\_v4)

- 3.7 For greenfield typologies the bottom-up approach was based on the net value per acre / hectare for agricultural / paddock land (existing use value (EUV)). This EUV was 'grossed up' to reflect a net developable to gross site area ratio of 75%. The BLV divided by the higher net value per acre / hectare gives an uplift multiplier of 28 and 23x in the lower value area. These were the minimum values assumed for the purpose of the hypothetical viability appraisals.
- 3.8 For the residential typologies on brownfield land, the benchmark land value was based on a 20% premium over perceived Existing Use Values.
- 3.9 In summary, for VOWH:
- We carried out detailed land market research and analysis for the January 2019 Land Market Paper;
  - We consulted on this with Stakeholders at workshops on 28 February 2019 and 12 October 2020. We put out a specific call for evidence, but none was forthcoming at that time.
  - We noted to the Examiner that the BLVs were quite high, with high multipliers. This was due to the research being undertaken when there was less emphasis on the EUV compared to current policy.
  - The BLV includes net to gross of 50%-75% for greenfield sites (100% for brownfield sites).
- 3.10 The VOWH CIL review was the subject of independent Examination in May 2021 and the Examiner reported (in July 2021) that the Council had provided sufficient evidence to demonstrate that the proposed CIL rates would not threaten delivery of the adopted Local Plan.

### AspinallVerdi SODC Plan Viability Study (May 2020)

---

- 3.11 We prepared two formal land value papers in May 2017 and November 2018 in support of our South Oxfordshire Local Plan Viability study in May 2020.
- 3.12 We consulted with landowners, developers and site promoters with an interest in the strategic sites. We explicitly asked the landowners for their expected premium above existing use value and asked the developers and site promoters for the minimum land value agreed within their option or promotion agreement.
- 3.13 Our adopted BLV for the larger sites in the 'rest of district' market area was based on analysis of the responses received.
- 3.14 The BLV assumptions that were adopted for the 2020 Plan viability study are set out in Table 3.2.

**Table 3.2 – SODC Plan-Viability BLV Assumptions (2020)**

Typology	Location	Existing Use	EUV -					Uplift Multiplier	BLV -		Policy adjustment - [X] %	MV -	
			(per acre) (gross)	(per ha) (gross)	Net:Gross (%)	(per acre) (net)	(per ha) (net)		(per acre) (net developable) (rounded)	(per ha) (net developable) (rounded)		(per acre) (net)	(per ha) (net) (rounded)
Residential < 50 units	Henley-on-Thames	Greenfield	£17,500	£43,243	75%	£23,333	£57,657	28	£650,000	£1,606,000	19%	£800,000	£1,977,000
Residential > 50 units	Henley-on-Thames	Greenfield	£15,000	£37,065	75%	£20,000	£49,420	28	£560,000	£1,384,000	20%	£700,000	£1,730,000
Residential < 50 units	Rest of the District	Greenfield	£15,000	£37,065	75%	£20,000	£49,420	28	£550,000	£1,359,000	15%	£650,000	£1,606,000
Residential > 50 units	Rest of the District	Greenfield	£12,500	£30,888	75%	£16,667	£41,183	28	£470,000	£1,161,000	15%	£550,000	£1,359,000
Residential Strategic Sites	Rest of the District	Greenfield	£10,000	£24,710	50%	£20,000	£49,420	18	£350,000	£865,000	36%	£550,000	£1,359,000
Residential	Henley-on-Thames	Brownfield	£900,000	£2,223,900	100%	£900,000	£2,223,900	20%	£1,080,000	£2,669,000			
Residential	Rest of the District	Brownfield	£700,000	£1,729,700	100%	£700,000	£1,729,700	20%	£840,000	£2,076,000			

Source: AspinallVerdi 2020

3.15 It is important to note that these were derived before the NPPF/PPG was updated with greater emphasis on the EUV.

### AspinallVerdi SODC CIL Viability Study (Sept 2021)

---

- 3.16 We most recently prepared a formal land value paper in September 2021 in support of our SODC CIL Viability study in 2021.
- 3.17 We carried out another stakeholder consultation workshop (including a developer engagement session) where we asked developers and site promoters for the minimum land value agreed within their option or promotion agreement, and to provide their feedback on our updated BLV assumptions, shown in Table 3.3.

**Table 3.3 - SODC CIL-Viability BLV Assumptions (2021)**

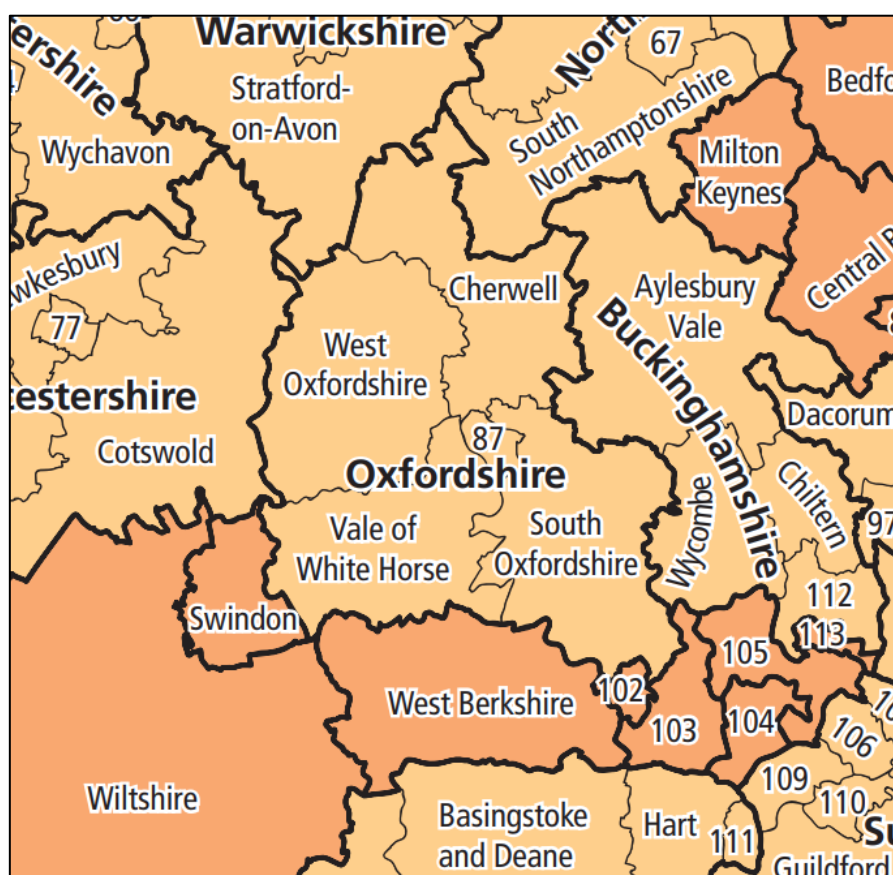

Typology	Location	Existing Use	EUV -					Uplift Multiplier	BLV -		Policy adjustment - [X] %	MV -	
			(per acre) (gross)	(per ha) (gross)	Net:Gross (%)	(per acre) (net)	(per ha) (net)		(per acre) (net developable) (rounded)	(per ha) (net developable) (rounded)		(per acre) (net)	(per ha) (net) (rounded)
Residential < 50 units	Henley-on-Thames Market Area (H)	Greenfield	£17,500	£43,243	75%	£23,333	£57,657	24	£550,000	£1,359,000	31%	£800,000	£1,977,000
Residential > 50 units	Henley-on-Thames Market Area (H)	Greenfield	£15,000	£37,065	75%	£20,000	£49,420	24	£470,000	£1,161,000	33%	£700,000	£1,730,000

## Other Relevant Studies -

- 3.18 Property market information is not perfect and in particular, land value evidence is challenging to gather given the absence of a database of all land deals. Thus, for a high-level area wide study it is also relevant to consider other studies in adjacent authorities to provide land market context to an appropriate benchmark land value for South Oxfordshire and Vale of White Horse.
- 3.19 Figure 3.1 - Map of Districts Adjacent to SODC and VOWH shows the local authority district boundaries surrounding South Oxfordshire District Council and Vale of White Horse District Council.

**Figure 3.1 - Map of Districts Adjacent to SODC and VOWH**

Source: Google images [ 87 = Oxford City; 102 = Reading 103 = Wokingham]

- 3.20 Not all of the surrounding authorities have published area wide viability assessments on their websites. We set out below the information that is published.

## West Oxfordshire Whole Plan and CIL Viability Assessment (2016)

- 3.21 In 2016 AspinallVerdi prepared a Local Plan and CIL viability assessment for West Oxfordshire.

- 3.22 Within our West Oxfordshire viability study, we had regard to both existing use and market values in arriving at an appropriate benchmark land value (as this pre-dated the NPPF/PPG updates in 2019). The table below summarises the benchmarks used:

**Table 3.4 – West Oxfordshire Land Value Assumptions**

Typology	Land Value Assumption
Agricultural Land	£10,000-£20,000 per acre (£24,700-£49,500 per ha)
Residential Lower Benchmark (10-40 units)	£543,750 per acre (£1.34 m per ha)
Residential Upper Benchmark (10-40 units)	£712,500 per acre (£1.76 m per ha)
Residential Lower Benchmark (40+ units)	£225,000 per acre (£555,975 per ha)
Residential Upper Benchmark (40+ units)	£337,500 per acre (£834,000 per ha)
Supported Living (Previously Developed Land)	£600,000 per acre (£1.4 m per ha)
Greenfield Retail Land	£281,250 per acre (£694,950 per ha)
Retail (Previously Developed Land)	£500,000-£1.5 m per acre (£1.6 m - £3.7 m per ha)

Source: AspinallVerdi, 2016

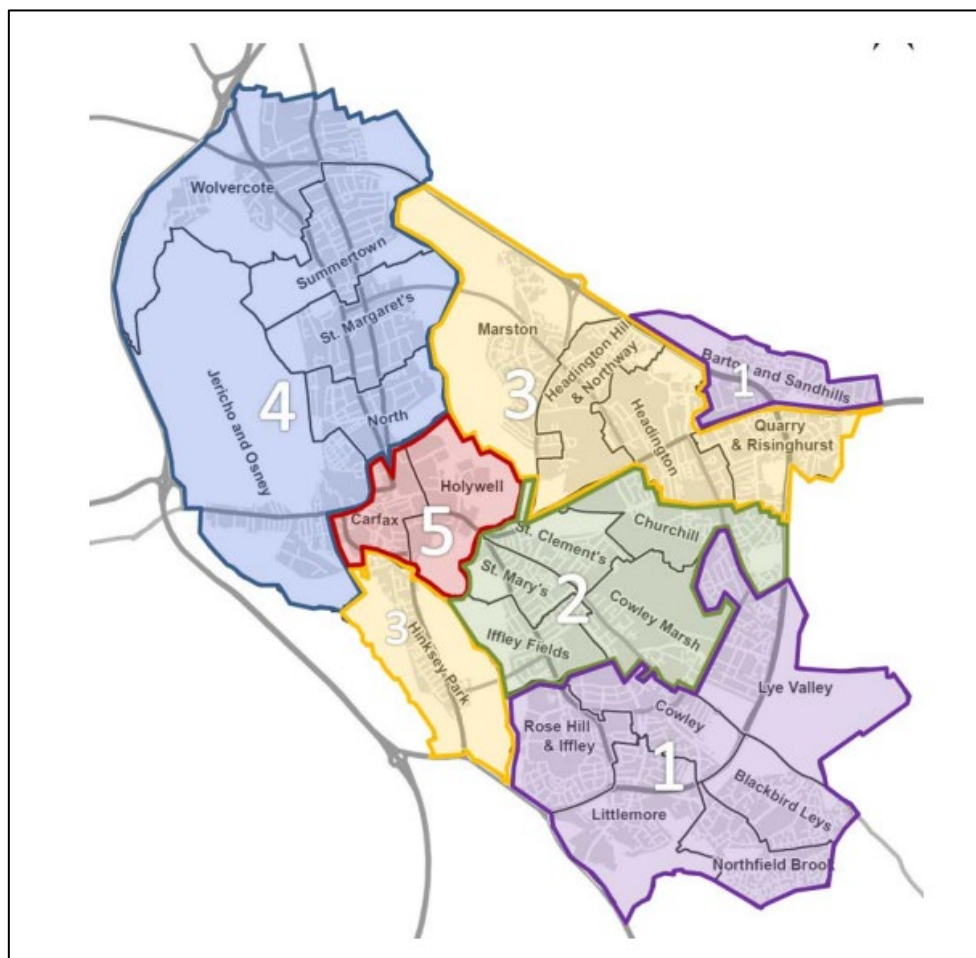

### Cherwell District Council Plan Partial Review Assessment (2017)

- 3.23 This study was undertaken by Montagu Evans in July 2017, and the key points are summarised below.
- EUV - £10,000 per acre (£25,000 per ha) for agricultural land.
  - BLV - £200,000 per acre (£500,000 per ha) (x20 uplift).

### Oxford City Council Plan Viability Assessment and CIL Review (2018)

- 3.24 This study was undertaken by GVA in September 2018, who assessed the EUV and BLV according to five value zones within the Oxford City Council district boundary. GVA's zoning map is illustrated below in Figure 3.2.

**Figure 3.2 – OCC Plan-Viability Zoning Map (2018)**

Source: GVA (2018)

- 3.25 GVA in their assessment of the BLV, agreed with the Council that for each tested site would be attributed with an uplift of 30% from the EUV (taking into account policy requirements, landowner incentive etc) to reflect the increment in value required to trigger activity on a site. Their EUV and BLV assumptions, based on sample brownfield sites tested in each zone, are summarised in Figure 3.3.

**Figure 3.3 – OCC Plan-Viability EUV/BLV Assumptions (2018)**

Zone	Average EUV/ha	Average EUV/ac	Average BLV/ha	Average BLV/ac
1	£2,100,000	£850,200	£2,730,000	£1,100,000
2	£2,100,000	£850,200	£2,730,000	£1,100,000
3	£3,100,000	£1,255,100	£4,030,000	£1,600,000
4	£3,500,000	£1,417,000	£4,550,000	£1,800,000
5	£7,300,000	£2,995,500	£9,490,000	£3,800,000

Source: GVA (2018)

- 3.26 They also tested two greenfield site typologies. For these, an EUV rate of £7,500 per acre (£18,500 per ha) was adopted for greenfield sites. A 30% uplift was also applied on their greenfield typologies to arrive at a BLV.
- 3.27 study was undertaken by BNP Paribas in July 2023

### West Berkshire Local Plan Review (2022)

- 3.28 This study was undertaken by Dixon Searle Partnership (DSP) in Autumn 2022 to contribute to the existing evidence base for the Local Plan Review (to 2039).
- 3.29 Figure 3.4 shows the range of selected BLVs they adopted for their viability testing<sup>5</sup>.

**Figure 3.4 - West Berkshire Plan-Viability BLV Assumptions (2022)**

EUV+ £/ha	Notes
<b>£250,000</b>	Greenfield Enhancement – Larger releases
<b>£500,000</b>	Greenfield Enhancement (Upper) – Smaller releases not exceeding 100-250 dwellings.
<b>£1,000,000</b>	Low-grade PDL (former community uses, yards, workshops etc.)
<b>£1,500,000</b>	PDL land values - industrial
<b>£2,000,000</b>	PDL - Commercial (Lower)
<b>£2,500,000</b>	PDL - Commercial (Upper)
<b>£3,000,000</b>	Upper PDL Benchmark/Residential land values

Source: DSP (2022)

- 3.30 DSP expected that the £100,000 per acre (£250,000 per ha) for greenfield land to be based on a c. x10 uplift from an EUV for agricultural land at not exceeding c. £10,000 per acre (£25,000 per ha).

### Oxford City Council Local Plan Viability Assessment (2023)

- 3.31 This study was undertaken by BNP Paribas in July 2023. In this study, BNP test the ability of developments in the City of Oxford to accommodate emerging policies in the emerging Oxford Local Plan. The emerging Local Plan was examined in June 2024.
- 3.32 BNP report agricultural land's existing use value as between £22,000 - £25,000 per hectare. For cleared sites, urban undeveloped land and greenfield land, they adopt a benchmark land value of £0.37 million per gross hectare, a multiple of 15 times agricultural land value. They also adopt the following benchmark land values for commercial land uses:
- Land in secondary office use: £7.63 million per gross hectare;
  - Land in secondary retail use: £4.21 million per gross hectare;
  - Land in secondary industrial use: £1.61 million per gross hectare;

<sup>5</sup> PDL = Previously Developed Land i.e. Brownfield Land

## 4 UK Land Context

- 4.1 This section provides some background context to residential development land values at a national and regional level. This includes development land, as well as agricultural land, as we are aware that some sites likely to come forward for development are greenfield.

### Development Land Context

- 4.2 Knight Frank published a short market update on the UK and Prime Central London (PCL) residential land market in Q3, 2023<sup>6</sup>. We have not commented on the PCL land as it is not relevant. This report highlighted that UK land values saw a more modest decline this quarter as the Bank held interest rates and build costs plateaued, with finance costs starting to ease (Figure 4.1). The graph key points are as follows
- UK greenfield and urban brownfield values fell on average by 2.4% and 2% respectively in Q3 2023.
  - Land values are stabilising in most areas of the country.
  - Average urban brownfield land values across England have now fallen by 20% since the most recent peak in the market in the first quarter of 2022 up to Q3 this year, with greenfield values down 17% during this period.

**Figure 4.1 – Residential Development Land Prices**

Source: Knight Frank, Residential Land Index, Q3, 2023

<sup>6</sup> [uk-res-dev-land-index-q3-2023-10703.pdf \(knightfrank.com\)](https://www.knightfrank.com/uk-res-dev-land-index-q3-2023-10703.pdf)

- 4.3 Savills, 'Residential Development Land - Market in Minutes' report for Q3 2023 states that activity in the development land market has continued to be slow at a national level with continued falls in land values. Key points are as follows
- Fewer new sites are coming to the market with varied levels of demand for sites, reflecting challenges in the wider housing market.
  - Greenfield development land values are holding up more than expected for optimum-sized, oven-ready sites due to their scarcity, and in some markets, such as the North, values are proving more resilient.
  - There have been fewer development land sales in the last quarter at a national level (39% down on the same time last year according to Savills).
  - The downward pressures on land values persist due to a combination of weaker sales rates for new homes, falling house prices elevated mortgage rates, high levels of inflation and rising build costs.
  - UK greenfield land values have fallen by -8.0% (annual change to September 2023).
  - UK urban land values have fallen by -8.7% (annual change to September 2023).
- 4.4 At a regional level there are distinct differences in values and activity. Northern greenfield and urban land values fell by -2.7% and -3.1% in the 12 months to September 2023. In comparison, the annual change in South East, greenfield and urban values was -9.4% and -12.2% respectively, as a result of heightened affordability pressures and a weaker sales market in this region.
- 4.5 These research reports demonstrate that land values are not immune from the wider economic context.

## Agricultural Land Context

---

- 4.6 The RICS publish a Farmland Market Report and Directory of Land Sales twice yearly. This is generated using information from land agents across the UK, covering the period from January to June and July to December. The latest publication of this covers the period between January – June 2023 in which they reported:
- A total of 217 transactions in this period – compared to 258 from H2 2022 and 232 from H1 2022;
  - 79% of transactions for sales of 50 acres or less;
  - 75% of the transactions were bare land;
- 4.7 The RICS report the average transaction prices reported by property type, as illustrated in Figure 4.2.

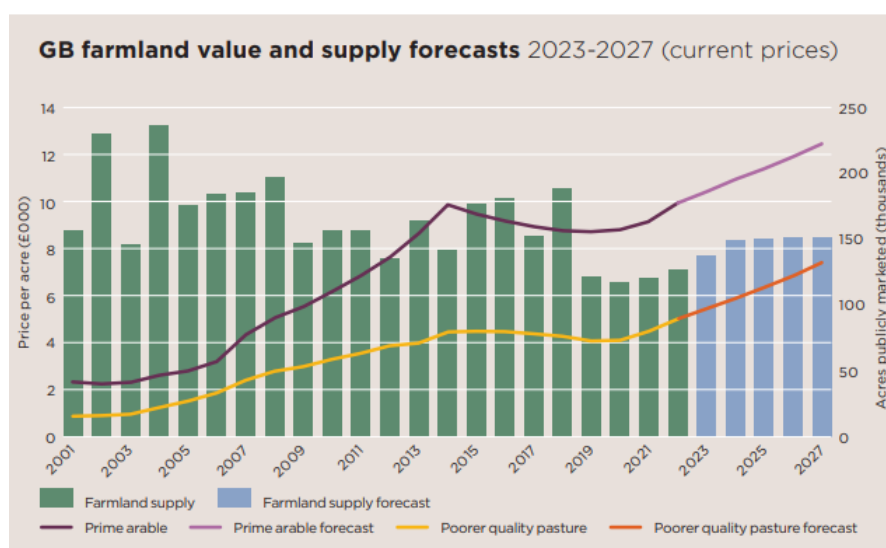

**Figure 4.2 – RICS Average Land Transaction Price by Property Type (2023)**

Property Type	Overall	England	Wales
	£/acre		
Full Sample			
Bare Land	11,237	10,891	13,621
Land and Buildings	19,330	19,233	28,571 <sup>1</sup>
Dwelling(s), land and buildings	19,543	20,864	14,872

Source: RICS (2023)

- 4.8 Both Knight Frank and Savills have published land market research in Q3 2023. Both report a reduction in development land values.
- 4.9 Whilst understanding the development land market is important, with the changes to the PPG on viability, exploring agricultural land values is equally as important to understand where there are new greenfield sites (e.g. through Green Belt release). This informs the Benchmark Land Value of greenfield allocations.
- 4.10 Savills published their farmland market report in January 2023, which highlighted that the supply of farmland has increased where farmers are exiting the industry. Figure 4.3. illustrates the average farmland values and the forecast in the UK. Here it shows that there has been moderate, but consistent growth in value for all land types. This graph draws particular attention to prime arable and poor livestock land types, again both reporting a moderate period of growth, where the average value of UK farmland increased by 8.90% in 2022 to £7,800 per acre.

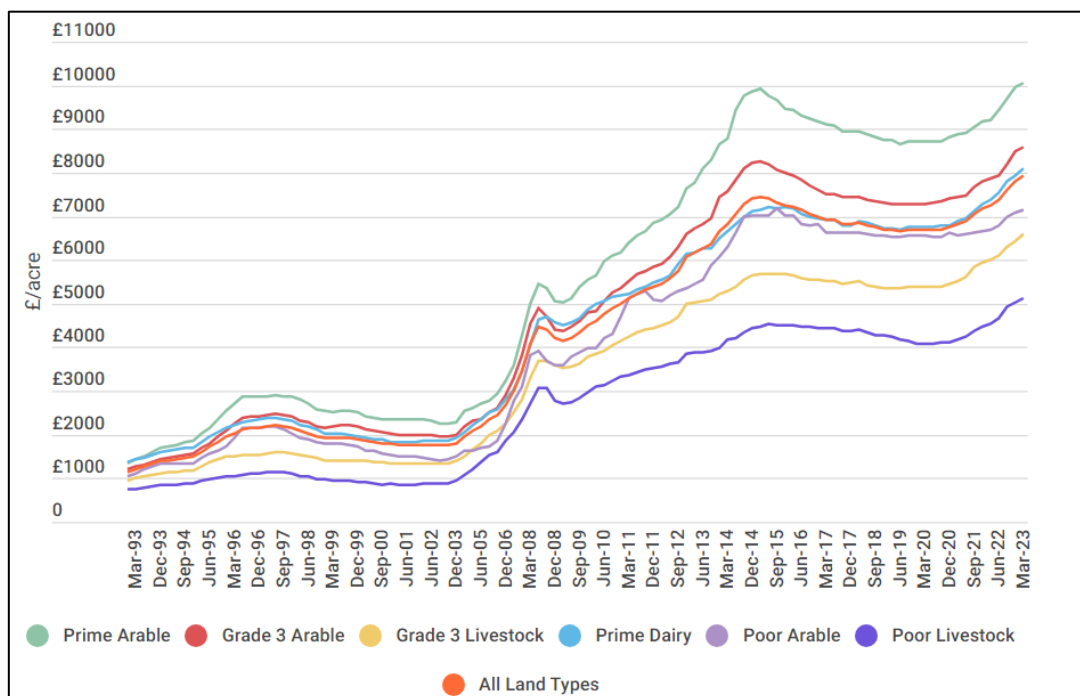

**Figure 4.3 – Agricultural Land Values**

Source: Savills (2023)

- 4.11 Figure 4.4 below shows the long-term trend in average agricultural land values by type. It shows that following a relatively small drop in the average price post the Global Financial Crisis (by approximately £500 per acre), there was a sustained period of growth up to early 2015. At this point, 'All Land Types' achieved on average £7,500 per acre. Since then, agricultural land values have dipped but have been increasing since December 2021 to c £8,000 per acre as from March 2023.

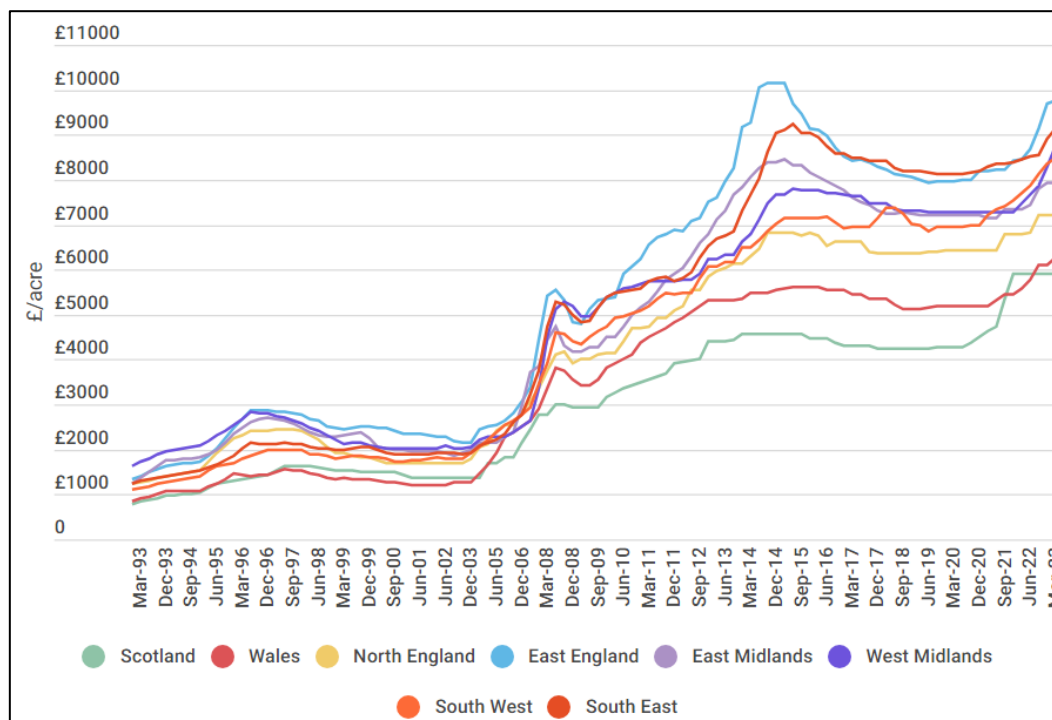

**Figure 4.4 – Average Agricultural Land Values Per Acre (by land type)**

Source: Savills (2023)

- 4.12 On a regional level, agricultural land values have been strongest in the South East and East of England between £9,000 and £10,000 per acre respectively (as shown by Figure 4.5). This graph provides an overall average and does not distinguish between grade of land.

**Figure 4.5 – Average Agricultural Land Values Per Acre (by region)**

Source: Savills (2023)

- 4.13 If the majority of agricultural land is generally Grade 3, we can equate this back to the evidence presented above in Figure 4.4 and Figure 4.5. Grade 3 land nationally is on average between £6,500-£8,500 per acre. In the South East, agricultural land values are on average £8,500 per acre.
- 4.14 Carter Jonas also publishes a quarterly Farmland Market Update report, the latest of which covers the Q3 2023 period. Carter Jonas highlights that average pasture land and arable land values across England and Wales increased by 3.2% and 4.5% respectively in the last 12 months to £7,683 (pasture) and £9,517 (arable) per acre.
- 4.15 This (and the Savills research) shows that values have mostly recovered to their peak in 2016. However, if the growth trajectory continues, then this could be surpassed. Carter Jonas report the following values for the South West in Figure 4.6. The average values per acre for this region are above the national average.

**Figure 4.6 – Average Land Values £ per acre – South East (2023)**

	<b>Low £ / acre</b>	<b>Prime £ / acre</b>	<b>£ / acre</b>	<b>Average Quarterly %</b>	<b>Annual %</b>
<b>Arable</b>	£9,250	£12,250	£10,750	0.0%	7.5%
<b>Pasture</b>	£8,000	£9,500	£9,000	0.0%	5.9%
<b>Lifestyle</b>	£16,000	£35,000	£22,500	0.0%	12.5%

Source: Carter Jonas (2023)

## 5 Agricultural Land Market – SODC / VOWH

- 5.1 Figure 5.1 shows a classification map for South Oxfordshire and Vale of White Horse, whereby it identifies the quality (grade) of land.

**Figure 5.1 – Agricultural Land Classification Map for South Oxfordshire and Vale of White Horse**

**Grade Description**

- 1 ■ Excellent
- 2 ■ Very Good
- 3 ■ Good to Moderate
- 4 ■ Poor
- 5 ■ Very Poor

**Non-Agricultural Land**

- Other land primarily in non-agricultural use
- Land predominantly in urban use

Source: Natural England

- 5.2 The land in the district is primarily grade 3 (Good to Moderate) which is prevalent in both districts, with significant bands of grade 2 (Very Good) and 4 (Poor) present. Much of the grade 2 land resides near Wantage, Faringdon, Didcot and Watlington. Figure 4.4 from Savills provides an average value per acre for different land types for the varying agricultural land types and quality.
- 5.3 We have carried out our own market research to determine a value per acre / hectare (ha) for agricultural land in South Oxfordshire and Vale of White Horse districts. We

have also looked at agricultural land in neighbouring districts as we expect there to be similar values therein. These can be seen in the section below.

## Agricultural Land Values

- 5.4 For our market research, we have looked at land which is for agricultural purposes in its existing use, with no development potential (via planning permission).
- 5.5 We have referred to our existing evidence base, consulted with local agents in Oxfordshire, collated transactional evidence (from CoStar, RICS Farmland Directory, EGI, Land Registry etc) and current quoting prices (on Rightmove, listings from agents etc). We have supplemented this with stakeholder evidence i.e. evidence of transactions and general anecdotal evidence from agents.
- 5.6 We accept that agricultural land values will vary dependent upon numerous variables such as quality of land and accessibility etc.

## Agricultural Land Transactions

- 5.7 We identified 11 land transactions within and around the districts. Table 5.1 summarises our findings for achieved transactional evidence for agricultural land in South Oxfordshire, Vale of White Horse and neighbouring districts.

**Table 5.1 – Agricultural Land Transactions Summary**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date
Parcel 2 Land to the South of Stow, Stow on the Wold, Cheltenham, GL54 1FA	12.66	5.12	£205,000	£16,192	£40,012	17/05/2023
Scrapelors Wood, Chinnor	4.32	1.75	£35,000	£8,102	£20,020	01/05/2022
Land at Barford Road, South Newington - Lot 2	11.65	4.71	£115,000	£9,871	£24,392	01/04/2022
Arable Land off Oatley Hill, Hook Norton, Banbury	77.04	31.18	£750,000	£9,735	£24,056	01/03/2022
Land at Kingston Bagpuize, Abingdon	69.67	28.20	£700,000	£10,047	£24,827	01/03/2022
20 acres at Enstone	20.00	8.09	£325,000	£16,250	£40,154	01/03/2022
Land at Wigginton Road, South Newington Lot 1	12.42	5.03	£125,000	£10,064	£24,869	01/03/2022
Land at Home Farm, Bletchingdon	7.60	3.08	£170,000	£22,368	£55,272	01/03/2022
Land at Duns Tew, Bicester	50.76	20.54	£500,000	£9,850	£24,340	01/01/2022

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date
Land & Buildings at Hannington Wick, Swindon, SN6 7RX	5.90	2.38	£161,000	£27,288	£67,428	08/07/2021
Zig Zag Farm, Culworth, Banbury, OX17 2HJ	30.00	12.14	765,000	£25,500	£63,011	20/04/2021
Land at Chowle Farm, Industrial Estate, Great Coxwell, Faringdon, SN7 7SR	6.78	2.74	£116,000	£17,109	£42,277	26/05/2021

Source: AspinallVerdi '231208 Combined South Oxfordshire and VOWH Land Value database v0.9'

- 5.8 The data generally ranges from £8,000 per acre (£18,000 per ha) to £27,288 per acre (£67,328 per ha). The average of the above values sits at c.£15,000 per acre (£37,500 per ha).

### Agricultural Land Asking Prices

- 5.9 We have identified 7 listings in 2023 for agricultural land from Rightmove and UK Land and Farms. Table 5.2 summarises these listings for agricultural land in South Oxfordshire, Vale of White Horse and neighbouring districts.

**Table 5.2 – Agricultural Land Asking Prices**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date
Old London Road, Chipping Norton, Oxfordshire, OX7,	461.00	186.56	£12,500,000	£27,115	£67,001	28/09/2023
Land At Fritwell, Bicester, OX27, Oxfordshire	116.00	46.94	£1,100,000	£9,483	£23,432	28/09/2023
Arable Land Off Bicester Road, Middleton Stoney, Bicester, Oxfordshire, OX25 4TA	42.53	17.21	£400,000	£9,405	£23,240	28/09/2023
Land At Standlake, Abingdon, Oxfordshire	34.00	13.76	£300,000	£8,824	£21,803	28/09/2023
Land At Nettlebed, Henley-on-Thames, Oxfordshire, RG9	8.10	3.28	£300,000	£37,037	£91,519	28/09/2023
Hanwell, Banbury, Oxfordshire	102.32	41.41	£1,200,000	£11,728	£28,980	20/09/2023
Land At Gooseywick, Stanford In The Vale, Faringdon, Oxfordshire, SN7	143.61	58.12	£1,550,000	£10,793	£26,670	19/09/2023

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date
Didmarton Badminton, Gloucestershire, GL9	6.06	2.45	£115,000	£18,977	£46,939	14/12/2023
Preston, Cirencester, Gloucestershire, GL7	7.78	3.15	£160,000	£20,565	£50,817	14/12/2023

Source: AspinallVerdi '231208 Combined South Oxfordshire and VOWH Land Value database v0.9'

- 5.10 These range from £8,800 per acre (£21,800 per ha) to £37,000 per acre (£91,500 per ha). There are two outliers in this data set at £27,115 per acre and the £37,037 per acre listings. These are located in Chipping Norton and Henley on Thames, which are more likely to have a premium or have hope value attributed to their land parcels compared to other areas of the districts (see further below).
- 5.11 This is correspondent with sentiment expressed in our agent consultation which found that land in Henley is likely to be attributed with hope value. We note however that these are asking prices so they may be aspirational values.

### Other Agricultural Viability Evidence

- 5.12 We have also considered the most recent evidence for agricultural values from the existing evidence base.
- 5.13 Section 3 summarises the EUV / agricultural land values from previous local plan viability assessments, including the most recent AspinallVerdi SODC CIL Viability Study September 2021. We have regard to these as these values have been accepted at the examination in public (EIP), and so they are relevant.
- 5.14 The values from the existing evidence base range from £10,000 per acre (£25,000 per ha) to £20,000 per acre (£50,000 per ha). There is variance according to the locations within the district, with higher values near Henley than compared to Didcot. But the land values for agricultural land average at around £15,000 per acre (£37,000 per hectare).
- 5.15 Alongside this, we have consulted with local agents for their experiences in the district. This helps to provide an understanding of the dynamics which drive the market locally. A local agent (Moore Allen & Innocent) informed us that values per acre for larger sites of 10 acres+ can vary from £10,000 to £15,000. They mention that smaller sites from 2 to 10 acres can have higher values from £25,000 up to £50,000 per acre – although this does incorporate paddock land (with hope value).
- 5.16 Another agent in Henley (Knight Frank) concurs with the above values for agricultural land generally, that they can range from £20,000 up to £50,000 per acre especially in Henley. Although this is contingent on any hope value that may be attached.

### Paddock Land Values

- 5.17 We classify paddock land as agricultural / 'pony paddock' land which is on the edge of an existing settlement which has 'hope value' attached, perhaps due to an extant

planning permission or because the site (or a neighbouring site) has been identified as having development potential. This is more for completeness, as in accordance with the PPG, hope value does not form part of the EUV.

## Paddock Land Transactions

- 5.18 We have 8 transactions for paddock land and have had regard to market listings on EGI and CoStar to collate our evidence. Table 5.3 below summarises these transactions.

**Table 5.3 – Paddock Land Transactional Evidence**

Land Address/Site Name	Site Area (acres)	Value £	Value (£/acres)	Value (£/ha)	Date of Evidence
Barn 3 at Lowerfield Farm, Lower Bourton, Swindon, SN6 8HT	0.32	£165,000	£515,625	£1,274,109	31/08/2023
Barn 4 at Lowerfield Farm, Lower Bourton, Swindon, SN6 8HT	0.63	£235,000	£373,016	£921,722	31/08/2023
Teddy's Barn, Kencot, Lechlade, GL7 3QT	0.53	£214,000	£403,774	£997,725	31/08/2023
Land At Nettlebed, Nettlebed, Henley-On-Thames, RG9	0.70	£50,000	£71,429	£176,500	28/09/2023
Barn and Land at Padbury, Buckingham, MK18 2BP	2.70	£230,000	£85,185	£210,493	17/08/2023
Land off Chestnut Close, Down Ampney, Cirencester, GL7 5RA	1.50	£65,000	£43,333	£107,077	27/04/2023
Land and Barn at Dark Lane, Maidenhatch, Pangbourne, Reading, RG8 8HH	1.40	£127,000	£90,714	£224,155	18/04/2023
Land at Sycamore Farm, Preston Road, Gawcott, Buckingham, MK18 4HF	3.50	£225,000	£64,286	£158,850	14/10/2021

Source: AspinallVerdi '231208 Combined South Oxfordshire and VOWH Land Value database v0.9'

- 5.19 There is also a variance within the above paddock land evidence, according to site circumstances and land quality. The values per acre for the smaller sites (less than 0.7 acres) sit much higher between £370,000 to £515,000 per acre. The larger sites over 0.7 acres in the database range from £43,000 to £90,000 per acre. The overall average sits at £206,000 per acre (£509,000 per ha).
- 5.20 Some of the above have been sold with a 50% overage clause in the event of planning permission being granted for development. There is therefore likely to be an element of hope value within the advertised price.

### Paddock Land Asking Prices

- 5.21 We have identified 5 listings for paddock land from Rightmove, EGI and agent websites. These are summarised in Table 5.4.

**Table 5.4 – Paddock Land Asking Prices Summary**

Land Address/Site Name	Site Area (acres)	Value £	Value (£/acres)	Value (£/ha)	Date of Evidence
Duns Tew, Bicester, Oxfordshire, OX25	1.70	£90,000	£52,941	£130,818	28/09/2023
Shepherds Green, Rotherfield Greys, Henley-on-Thames, RG9	11.00	£1,000,000	£90,909	£224,636	19/09/2023
High Street Upton St Leonards, Gloucester, GL4	0.49	£30,000	£61,224	£151,286	01/11/2023
AMENITY LAND Quainton, Aylesbury, Buckinghamshire, HP22 4BX	0.48	£45,000	£93,750	£231,656	14/12/2023
Enstone Road, Little Tew, Chipping Norton	1.46	£75,000	£51,370	£126,935	14/12/2023

Source: AspinallVerdi '231208 Combined South Oxfordshire and VOWH Land Value database v0.9'

- 5.22 The listings range from £50,000 to £94,000 per acre, with an average value of £70,000 per acre. There is one outlier site with an area of 11 acres. However due to its higher land value, we classified it as paddock land.
- 5.23 As with the transactional values, some of the above are on sale with a 50% overage clause in the event of planning permission being granted for development.

## 6 Residential Development Land Values – SODC / VOWH

---

- 6.1 For the purpose of this research, residential development land is land which has either obtained planning permission or has outline planning consent for residential use and/or is allocated for residential development within the Council's adopted policy documents.
- 6.2 As with agricultural land, we have utilised EGi, CoStar and also the Land Registry for transaction-based evidence. We have also noted sites currently listed on Rightmove and local agent websites to determine a value per acre / hectare and a value on a per unit basis. Dependent upon the availability of information, this process tries to gauge an understanding of what typical market values are for residential land (greenfield and/or brownfield).
- 6.3 It should be noted that within our database of evidence we have carried out background research wherever possible into the planning consent the site has; and whether it is policy compliant, or not. However, it is difficult to be certain that developers have not offered values (and landowners have not asked for values) which are not sustainable in planning policy terms and therefore challenge viability at the detailed planning stage. This practice is contrary to the NPPF/PPG.
- 6.4 We also recognise that it is difficult to generalise what a typical greenfield or brownfield residential development site is worth across a District, given that all sites are unique. It is therefore important to reiterate that this is a plan-wide study and thus the purpose of our research is to establish a suitable Benchmark Land Value for the respective typologies of development to be appraised, utilising both existing use and market values for greenfield and brownfield land.

### Greenfield Residential Development Land

---

- 6.5 The most relevant evidence for greenfield development land is set out below.

#### Transactional Evidence

---

- 6.6 We identified 13 transactions for greenfield residential development land between 2018 and 2023. These can be seen summarised in Table 6.1.
- 6.7 9 out of the 13 had achieved planning permissions for schemes with proposed units ranging from 40 to 655 units. 6 sites of the 13 were delivering policy compliant schemes, with affordable housing levels meeting the policy of their relevant district. 10 sites out of the 13 were located within the South Oxfordshire and Vale of White Horse districts.
- 6.8 The values per acre ranged from £88,153 per acre (£217,800 per ha) to £1.78m per acre (£4.41m per ha) with the average value sitting at £890,000 (£1.78m per ha).

**Table 6.1 – Greenfield Residential Development Land Transactions**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Land known as Fuller's Field Charlton Wantage OX12 7FY	5.36	2.17	£472,500	£88,153	£217,826	01/02/2023	Outline permission was refused in September 2023 for up to 60 dwellings, including open space and green infrastructure (P23/V1236/O)
Land North Of Aston Clinton Road (Former Aston Clinton MDA Site) Weston Turville Buckinghamshire	1.40	0.57	£2,500,000	£1,785,714	£4,412,500	04/11/2022	A vacant former MDA site with site allocation from Buckinghamshire Council and reserved matters permission for an 85-bed care home with car parking and landscaping, including a resident's lounge, cinema, café, gym etc (20/00530/ADP   granted in September 2021). This sale price equates to £29,500 per bed.
Land at Lady Grove Didcot OX11 9BP	36.84	14.91	£16,620,000	£451,140	£1,114,767	05/09/2022	Outline appeal granted in April 2021 for 150 dwellings with 40% policy compliant affordable housing, associated parking, landscaping, country park, equipped and informal open spaces and associated infrastructure and works. Reserved matters approved in April 2023 (P22/S3532/RM). Site sits on edge of existing settlement in Didcot.
Thame Rd, Princes, Risborough Buckinghamshire, HP27 9SW	7.41	3.00	£10,500,000	£1,417,004	£3,501,417	29/07/2022	CoStar mentions the site was sold to Miller homes Ltd who have proposed a development of 655 residential units, to be complete by q4 2024. No planning details identified however we classified this site as one with residential development potential.
Land for Primrose Gardens, Cow Lane, Valley	49.79	20.15	£17,622,249	£353,931	£874,565	27/04/2022	The site is allocated in the VOWH Local Plan 2031. The freehold interest was sold by A&J Farming to Taylor Wimpey. Site has plans for 264 homes, of which 86 will be affordable. The

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Park, Didcot, OX11 6DN							Reserved Matters application is currently pending decision (P22/V0539/RM).
Parcel 1P Land to the west of Great Western Park (Valley Park) Didcot	11.12	4.50	£3,933,759	£353,755	£874,129	27/04/2022	Reserved Matters submission relating to phase 1P pursuant to outline planning permission comprising 172 dwellings with associated infrastructure and landscaping (P23/V0667/RM). This site forms the first phase of the strategic allocation at Valley Park.
Land adjacent to the Village Hall, Main Road, East Hagbourne, Didcot	8.64	3.50	£8,760,000	£1,013,889	£2,505,319	02/08/2021	The title register for this transaction lists Deanfield Homes Ltd as the proprietor. The site has Reserved Matters permission as of April 2022 for 70 houses and 4 flats with 40% affordable housing applied on a greenfield site in SODC, with associated infrastructure access, parking and public open spaces (p19/s0357/RM).
Land At Butts Piece Main Road Stanton Harcourt Oxfordshire	10.90	4.41	£4,525,000	£415,138	£1,025,805	16/04/2021	Reserved matters application approved in July 2021, for up to 40 dwellings (21/00691/RES), pursuant to outline planning permission (16/03627/OUT). 40% affordable being delivered on-site.
Land at Chiltern Edge School, Reades Lane, Sonning Common,	4.32	1.75	£7,500,000	£1,736,111	£4,289,931	01/03/2021	The site had an offer subject to planning basis, with terms agreed at c£7,500,000 based upon a policy compliant scheme for 50 dwellings. The site was allocated for 37 dwellings. While this is a gross area, we have assumed net: gross would be relatively similar.
Land to the West of Wallingford (Site B)	31.00	12.55	£4,025,000	£129,839	£320,831	27/03/2020	Reserved Matters approved in November 2023 for appearance, landscaping, layout and scale of 234 dwellings in phases 4, 5 and 6

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Wallingford OX10 0ND							(P23/S0748/RM), pursuant to outline planning permission (P14/S2860/O)
Land at Meadow View, Didcot Road, Harwell	6.62	2.68	£5,413,549	£817,757	£2,020,677	31/01/2020	The scheme is for 63 dwellings from 1, 2, 3, 4, 5 bed houses and apartments with 35% affordable housing. The net developable area is 1.98ha ergo a density of 31 dph.
Land at Reading Road, Shiplake, RG9 3PH	10.76	4.35	£19,000,000	£1,766,456	£4,364,913	01/12/2018	The site achieved planning for 95 units at 40% affordable (38 affordable units). The site sold to Taylor Wimpey. From reviewing the scheme plan, we have adopted an assumed net developable area for the breakdown.
Thames Farm Reading Road Shiplake RG9 3PH	15.31	6.20	£19,000,000	£1,241,019	£3,066,558	19/10/2018	Reserved Matters approved in May 2019 for 95 dwellings (P19/S0245/RM), pursuant to outline application (P16/S0970/O). 40% Policy Compliant Affordable Housing being delivered. Outline permission was granted in 2017 and site was purchased by Taylor Wimpey in 2018. Site sits on edge of a village.

## Asking Prices

---

- 6.9 We identified 6 listings for greenfield residential development land in South Oxfordshire, Vale of White Horse and in neighbouring authorities. These can be seen summarised Table 6.2 below.
- 6.10 5 out of the 6 had achieved planning permissions for schemes with mostly single to multi-dwelling proposed developments. 2 sites out of the 6 were located within the South Oxfordshire and Vale of White Horse districts.
- 6.11 The values per acre had a large range from £212,500 per acre (£525,088 per ha) to £1.66m per acre (£4.12m per ha) with the average value sitting at £516,000 (£1.27m per ha). The largest site in this set is 6.62 acres.
- 6.12 The site named “Plot 2, Road Running Through Pyrton, OX49 5AN” is an outlier in this data set with the only value above £475,000 per acre (at £1.66m per acre). This site has an area of 0.33 acres which gives a higher value on a £ per acre basis. This pattern is also consistent with the transactional data.
- 6.13 There is however the Sturt Close site at 0.06 acres (£250,000 per acre) with a lower value on a per acre basis. Other than the fact that these are greenfield development sites listed on the market, it is unclear what the ground conditions are or if there are any constraints (ground conditions, topography etc) which would result in any abnormal costs. This would have an influence on the asking price for the land.

**Table 6.2 – Greenfield Residential Development Land Listings**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Note
Somerton Road, Ardley	4.40	1.78	£1,000,000	£227,273	£561,591	Former farm sat in wonderful open countryside just 6 miles from Bicester - 2 bedroom detached house of c.1,000 sq ft plus c.11,000 sq ft of agricultural buildings on 4.4 acres - further 10.9 acres of arable included - Potential for single or multiple dwelling development, subject to consent.
Off Windmill Rd, Towersey, Thame, OX9	2.00	0.81	£425,000	£212,500	£525,088	Full Planning approved in November 2022 for conversion of existing stables into one bedroom living accommodation with open plan living space (P22/S3712/FUL).
Plot 2, Road Running Through Pyrton, Pyrton, OX49 5AN	0.33	0.13	£550,000	£1,666,667	£4,118,333	A plot, extending to a third of an acre, with Full planning permission for a 2,745 sq ft dwelling and separate garage/store of 409 sqft (P21/S0260/FUL).
West Adderbury House, Adderbury, Oxfordshire, OX17	6.62	2.68	£1,750,000	£264,350	£653,210	Cherwell District Council - Residential development of a single dwelling with associated landscaping and additional community land associated with the Friends Meeting House (20/01208/F)
Sturt Close, Land To The Rear 7 Hughes Close, OX7	0.06	0.02	£15,000	£250,000	£617,750	Full planning approved in July 2023 for Erection of detached dwelling and widening of existing dropped kerb (23/01493/FUL).
Land North East of Broad Lane Evenley, Northamptonshire, NN13 5SF	1.00	0.50	£475,000	£475,000	£1,173,725	Village plot with outline Planning Permission granted for a single dwelling of up to 6,000 square feet.

## Other Greenfield Development Viability Evidence

---

- 6.14 AspinallVerdi have reviewed numerous site specific FVAs in the region, for authorities such as South Oxfordshire and West Oxfordshire. Table 6.3 provides a summary of these assessments.
- 6.15 In our FVA reviews, we reported that all of these applications were able to provide policy-compliant affordable housing. The values for these ranged from £91,166 per acre (£225,271 per ha) to £1.15m (£2.83 per ha).
- 6.16 The Sonning Common scheme's higher land value may be attributed to the fact that it is a hybrid application with permission for a care home along with communal and care facilities, and that it resides near Henley-on-Thames (a high value area).
- 6.17 On the contrary, the scheme in Didcot and Eynsham are still pending decision so they do not benefit from the uplift in land value from planning permission. The Didcot scheme is also located in a lower value zone.

**Table 6.3 – Greenfield Site-Specific FVA Evidence**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Land East of Didcot Road, Long Wittenham (P23/S1474/F UL)	14.15	34.96	£1,293,113	£91,166	£225,271	31/10/2023	<p>AspinallVerdi acted for SODC in respect of an FVA review = for: 45 residential dwellings, a Community Hub and a Primary School with associated playing pitches, village green and infrastructure, parking, landscaping and drainage. Part demolition and conversion of existing village and school to provide 2 residential dwellings.</p> <p>The existing site comprised of 10-acres agricultural land, a previous school site of 3.3 acres and a previous village hall site of 0.85 acres – a total area of 14.15 acres.</p> <p>In their assessment, the Applicants adopted a land value of £0 (zero) as their rationale was that adopting a BLV would make their appraisal less viable. However, they conceded that in a normal circumstance, they would apply a BLV of £100,000 per acre.</p> <p>In our assessment, we considered the EUV and AUV of the site. The EUV was considered to be £79,415 for the agricultural site. We note that the EUV was not provided for the school or village hall due to their obsolescence and lack of an 'existing use'. Based on our policy-compliant (40% affordable housing) appraisal, the RLV was £1,293,113, which resulted in a 16.3 multiplier.</p>
Land at Derrymerrye Farm, Eynsham, West Oxfordshire	27.48	11.12	£6,941,619	£252,606	£624,190	14/07/2023	<p>We have more recently (July 2023) acted for WODC in respect of an FVA Review of this application (22/03484/OUT). The application concerned a 27.48-acre greenfield residential development site which was part of the West Eynsham Strategic Development Area. The proposal was for 180 residential units with associated landscaping, open space, infrastructure etc.</p>

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
							<p>The Applicant claimed the scheme could not support the policy-compliant 50% affordable housing with a total BLV of £8,000,000. Our viability review demonstrated that the site could deliver the full affordable housing (50%).</p> <p>The EUV in our review came out at £839,645. We carried out a RLV appraisal on a policy compliant basis including 50% affordable housing on-site. This resulted in a RLV £6,941,619 (£252,606 per acre). This resulted in a multiplier/premium of 8.26 (826%). Ergo, the scheme could afford the 50% affordable housing.</p>
Land off Blounts Court Road, Sonning Common, South Oxfordshire	11.1	4.50	£12,783,486	£1,150,629	£2,843,204	31/03/2021	<p>AspinallVerdi have acted for SODC in respect of an FVA for an appeal by Senior Living for this application: Hybrid planning application for the development of a continuing care retirement community care village of up to 133 units with ancillary communal and care facilities and green space (Ref: P19/S4576/O - Planning Inspectorate Reference: APP/Q3115/W/20/325861).</p> <p>In this appeal the Appellants confirmed that, within their appraisal, they adopted £12,500 per acre as an EUV. They also confirmed that they paid £17,500 per acre for the land. We considered the EUV to be £15,000 per acre (gross).</p> <p>Furthermore, we carried out a RLV appraisal on a policy compliant basis including 40% affordable housing on-site. This resulted in a RLV of £12,783,486 (£1,150,629 per acre (gross) and £1,535,738 per acre (net) developable). Based on the EUV of £166,792, this results in a multiplier of 76. The scheme was therefore viable and the Appellants conceded to provide full planning policy-compliant affordable housing (as a commuted sum).</p>

## Brownfield Residential Development Land

---

- 6.18 For plan-viability studies, establishing a brownfield land value is challenging given the numerous variables which influence the value of brownfield development land. The challenge with land values for brownfield land are (unlike agricultural land which is generally more homogeneous) there are infinite permutation of the 'existing use' and hence the Existing Use Value (EUV) will be also uniquely different (having regard also to the location, shape, size and topography).
- 6.19 Similarly, the premium for the brownfield site will be uniquely different having regard to the proposed use and hope value (within the context of planning allocations and policy requirements).
- 6.20 This is further complicated on a site-specific level if there are extant consents and possible alternative uses which generate Alternative Use Values.
- 6.21 As set out in the main report section on brownfield / greenfield land economics and hope value, the timing of any redevelopment decision on brownfield land is determined by the relationship between the EUV and the value of the site in its redeveloped [higher value] use – less the costs of redevelopment.
- 6.22 Redevelopment takes place at a point in time when buildings are economically obsolete (as opposed to physically obsolete). Over time the existing use value of buildings falls as the operating costs increase, depreciation kicks in and the rent falls by comparison with modern equivalent buildings. In contrast the value of the next best alternative use of the site increases over time due to development pressure in the urban context (assuming there is general economic growth in the economy). Physical obsolescence occurs when the decreasing existing use value crosses the rising alternative use value.
- 6.23 However, redevelopment requires costs to be incurred on site demolition, clearance, remediation, and new build construction costs. These costs have to be deducted from the alternative use value 'curve'. The effect is to extend the time period to achieve the point where redevelopment is viable (economic obsolescence).
- 6.24 Where there is a possibility of development the landowner will often have regard to 'hope value'. Hope value is the element of market value of a property in excess of the existing use value, reflecting the prospect of some more valuable future use or development. Hope value is represented in the EUV premium and can never be in excess of policy compliant market value (RLV), given RICS guidance on the valuation of development sites.
- 6.25 Hope value takes into account the uncertain nature or extent of such redevelopment prospects, including the time which would elapse before one could expect planning permission to be obtained or any relevant constraints overcome, so as to enable the more valuable use to be implemented. In the case of Oxfordshire, there are many sites (former MOD sites, quarries, derelict office spaces/garden centres etc) which are redundant and could be considered physically obsolete. However, they may not be economically obsolete for many years until the costs of demolition and redevelopment or refurbishment are surpassed by the new use. This value equation is also often personal to the landowner who has particular aspirations which may not be met by the market. Hence redevelopment is often a 'waiting' game.

- 6.26 As with greenfield land, we are reliant upon market evidence and agreed prices for brownfield sites in South Oxfordshire, the Vale of White Horse and neighbouring districts.
- 6.27 The most relevant comparable evidence for brownfield development land is set out below.

### Transactional Evidence

---

- 6.28 We identified 6 transactions greenfield residential development land between 2017 and 2022. These can be seen summarised in Table 6.4.
- 6.29 5 out of the 6 had achieved planning permissions for schemes with proposed units ranging from 1 dwelling up to 160 units. Only 1 site has been identified as delivering a policy compliant scheme. 4 sites out of the 6 were located within the South Oxfordshire and Vale of White Horse districts.
- 6.30 The values per acre ranged from £137,212 per acre (£339,050 per ha) to £2.01m per acre (£4.97m per ha) with the average value sitting at £1.3m per acre (£3.22m per ha). Most sites have an area ranging from 4.4 to 9 acres with one site at 22.5 acres.
- 6.31 The largest values are with the smallest sites. The highest value (£2,013,182 per acre) is attributed to the Former Wyevale Garden Centre which sits in a higher value zone (near Henley) and has planning permission.
- 6.32 The scheme with the lowest value per acre (at £137,212 per acre) comprises a former quarry, storage and retail site. This site is allocated in the VOWH Local Plan. The other sites are former garden centres, colleges, commercial spaces. It is likely that the former quarry's land value reflects its associated abnormal costs, ground conditions and on-site constraints.

**Table 6.4 – Brownfield Residential Development Land Transactions**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Denman College New Road Marcham Abingdon OX13 6NW	4.67	1.89	£8,500,000	£1,820,128	£4,497,537	25/04/2022	This site has a full application pending decision for: the change of use of Denman College and curtilage from Class C2 to a single-family dwelling. The erection of ancillary garden buildings and new boathouse. Site sits in a conversion area and has a listed building on-site (P23/V1880/FUL).
Wootton Business Park Wootton Abingdon OX13 6FD	4.94	2.00	£9,210,000	£1,864,372	£4,606,864	26/11/2021	This site has full planning approved for the construction of an office building and associated refuse store, cycle store, plant enclosure and car parking and 58 residential units with car parking and associated landscaping across the site (P21/V0477/FUL). Full 35% policy to be delivered.
Reading Road, Former Wyevale Garden Centre, RG9 4AE	4.40	1.78	£8,858,000	£2,013,182	£4,974,572	23/07/2021	Site is a former garden centre with 5 single storey greenhouses derelict since 2009 and in a state of disrepair with large hardstanding area. Proposed developed is for 1 -2 bed apartments, 2, 3 & 4 bed houses totalling 34,875 sqft net and commercial floorspace of 2,691 sqft (P18/s0951/o).
210 Long Ln - Land, Reading, Berkshire, RG31 5UG	7.66	3.10	£4,600,000	£600,522	£1,483,890	01/11/2019	Sold to Country Estates for residential redevelopment. No other details available.
Rogers Concrete, Sandshill, Faringdon, SN7 7PQ	9.11	3.69	£1,250,000	£137,212	£339,050	15/12/2017	Site has outline permission for 95 houses (18% affordable) and 1500 sqm of office space (P20/V0855/O). Applicant is Obsidian Strategic.

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Pirbright Institute site (formerly Institute For Animal Health), Compton", Newbury RG20 7NN	22.48	9.10	£31,265,017	£1,390,793	£3,436,648	20/06/2017	<p>Site has outline planning permission development comprising of up to 160 residential units (Class C3), landscaping, street lighting, car and cycle parking, other associated infrastructure, sustainable drainage systems, engineering works and mitigation measures including the construction of internal roads (20/01336/OUTMAJ).</p> <p>The proposal includes at least 1.75 hectares of employment land).</p> <p>Full planning permission for the demolition of existing buildings, structures and hardstanding along with preparatory works including earthworks, remediation, utility works and associated mitigation measures. The change of use of land including the creation of public open space and wildlife area</p>

## Asking Prices

---

- 6.33 We identified 9 listings for brownfield residential development land in South Oxfordshire, Vale of White Horse and in neighbouring authorities. These can be seen summarised Table 6.5 below.
- 6.34 8 out of the 9 had achieved planning permissions for schemes with mostly single to multi-dwelling proposed developments. 4 sites out of the 9 were located within the South Oxfordshire and Vale of White Horse districts.
- 6.35 The values per acre had a large range from £300,000 per acre (£741,300 per ha) to £2.27m per acre (£5.16m per ha) with the average value sitting at £1.15m per acre (£2.85m per ha).
- 6.36 Most sites have an area ranging from 0.1 to 2 acres with one site at 10 acres. This is resulting in much higher £ per acre values for the smaller sites. Most of the proposals on these sites are for large singular dwellings which have benefit of planning permission. This also drives up the value per acre.

**Table 6.5 - Brownfield Residential Development Land Listings**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Note
Brize Norton, Oxfordshire, OX18	0.74	0.30	£395,000	£533,784	£1,318,980	Existing site a former commercial nursery, within a former quarry. Outline permission to build two-detached dwellings (20/01915/OUT).
Woodstock Road, Charlbury, OX7	0.17	0.07	£185,000	£1,088,235	£2,689,029	Full Planning approved for a single building plot with planning for a detached three-bedroom home (23/00572/FUL)
Carton Lodge, Carterton, Oxfordshire, OX18 1DT	0.10	0.04	£195,000	£1,950,000	£4,818,450	A single building plot with Planning Permission for a 4-bedroom detached house with an integral garage and parking for several cars located on Swinbrook Road close to the Country Park (22/02962/FUL).
Land adjacent 45 Northcourt Road, Abingdon	0.35	0.14	£200,000	£571,429	£1,412,000	Permission was granted by the Vale of the White Horse District Council for a detached two-bedroom chalet bungalow (P15/V0256/FUL).
A420, Great Coxwell, Faringdon, SN7	0.32	0.13	£300,000	£937,500	£2,316,563	0.32 acre consented site with permission granted for a 300sqm detached dwelling and garage. Utilities on-site and most conditions have been discharged (P21/V3482/FUL).
Winterbrook, Wallingford	0.22	0.09	£500,000	£2,272,727	£5,615,909	Planning permission granted for a state-of-the-art single storey property measuring circa 2,648 sqft in the heart of Winterbrook, Wallingford (P23/S1587/FUL).
Scours Lane, Tilehurst, Reading, Berks	1.00	0.40	£1,600,000	£1,600,000	£3,953,600	Site has no application attributed to it however, its lawful planning uses are: 1. A residential building 2. A mixed (sui generis) use site for 11 static caravans for residential use, commercial storage, the sale and repair of motor vehicles, buying and selling of scrap.
Lincombe Lane, Boars Hill, Oxford	2.00	0.81	£2,250,000	£1,125,000	£2,779,875	Elevated development site with detailed planning consent for a 6-bed house. The property to be created will have an internal volume of over 8,000 sq ft / 762 sqm with high spec features.

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Note
						There is an existing 'office' building on site and a hard tennis court to refurbish.
Wyck Hill, Stow On The Wold, Cheltenham, Gloucestershire, GL54 1HY	10	4.05	£3,000,000	£300,000	£741,300	Site has planning permission for erection of a dwelling of exceptional quality plus associated hard and soft landscaping at Former Wyck Hill Nursery under ref. 23/00417/FUL. Designed by RIBA award winning architects Loyn + Co, the proposed house has been contextually designed relative to the specific topography, history and landscape of the site

## Other Brownfield Development Viability Evidence

---

- 6.37 AspinallVerdi have reviewed numerous site specific FVAs in the region for brownfield sites, for authorities such as South Oxfordshire and West Oxfordshire. Table 6.6 provides a summary of these assessments.
- 6.38 The land values for these ranged from £1.04m per acre (£2.53m per ha) to £1.99m (£4.98m per ha). The areas range from 1.3 acres to 4.2 acres. The highest values are attributed to the two smaller 1.3-acre schemes. However, the Steve Orton scheme did not provide a detailed cost plan breaking down abnormal costs on-site, so these may not have been accurately reflected in the land value.
- 6.39 The Smith Centre's abnormal costs were accurately reflected by a detailed cost plan. The site still retains a significantly high value which can be attributed to its location in Henley.
- 6.40 At the time of our FVA reviews, we reported that the Steve Orton and Smith Centre applications unable to provide policy-compliant affordable housing with CIL and S106 Contributions and were even unviable in our scenario testing at 100% Market Housing. As of November 2023, the Smith Centre application has been approved.

**Table 6.6 - Brownfield Site-Specific FVA Evidence**

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
Steve Orton Antiques, Shirburn Road Watlington, OX49 5BZ	1.3	0.5	£2,050,000	£1,576,923	£3,896,576	30/11/2023	<p>AspinallVerdi have acted for SODC in respect of an FVA Review of Alder King's application on this site. The application submitted was for 'The redevelopment of part of the site at Shirburn Road, Watlington for the erection of 25 age-restricted dwellings on a cleared brownfield site. This scheme sits as part of a larger site with outline permission for a care home (extant scheme).</p> <p>We considered the extant scheme in our assessment as an AUV (due to lack of EUV as site was cleared) which we calculated to be £2.05 million (£1.57m per acre).</p>
The Smith Centre, Fairmile, Henley on Thames, RG9 6AB (P22/S3033/F UL)	4.2	1.7	£4,390,000	£1,045,300	£2,582,936	20/01/2023	<p>AspinallVerdi have acted for SODC in respect of an FVA Review of DS2's application on this site. The application submitted was for 'demolition of the existing office floorspace and construction of an Extra care residential development (C2 Class Use). The existing site comprised of 6-commercial office buildings that were not in use. The proposal aimed to provide 115 high-quality extra care housing units. There was also an extant scheme with prior approval under permitted development rights, for the conversion of the existing office buildings into a residential scheme (P19/S2661/N1A   granted in 2019).</p> <p>We considered the extant scheme in our assessment as an AUV (due to lack of demand for the existing use) which we calculated to be in the region of £1.96 million (£467,300 per acre) to £6.1 million (£1,462,400 per acre) depending upon the assumptions for the scheme. This compared to the Applicants AUV of £4.39</p>

Land Address/Site Name	Site Area (acres)	Site Area (ha)	Value £	Value (£/acres)	Value (£/ha)	Date	Note
							million (£1,045,300 per acre) which therefore we considered to be reasonable.
Balmaha, 42 Rotherfield Road, Henley-on-Thames, RG9 1NN (P19/S1003/F UL)	1.38	0.55	£2,758,333	£1,998,792	£4,939,015	23/03/2021	<p>AspinallVerdi provided an appeal hearing statement for the appeal of this application. The application was for 'the Demolition of Balmaha including outbuildings and swimming pool, erection of 3 pairs of semi-detached villas, erection of a single building containing 5 apartments [11 units in total], associated garaging, parking and bin stores.</p> <p>The application was refused on the basis of the visual bulk, massing and overall density of development and failure to provide affordable housing on-site. The site already had planning consent which could be implemented for the redevelopment to 3 detached units (evidence of AUV). In this case the BLV was assessed as the 'average of the ranges' as the EUV £2,758,333 (£1,998,792 per acre based on a site area of 1.38 acres).</p>

## Open Call for Land Evidence

---

- 6.41 We currently have an open call for land value data and comparable evidence. We would welcome more comparable land value evidence for residential land use. In this respect we need specific details of:
- price paid or current asking price;
  - the transaction date (if sold);
  - net and gross site area;
  - greenfield / brownfield (existing use)
  - planning consent (including affordable housing % and S106 details)
  - abnormal costs.
- 6.42 Please note that this data will be retained in our land value database but anonymised as appropriate for reporting purposes.

## 7 Benchmark Land Value Assumptions

---

- 7.1 For greenfield typologies the bottom-up approach is based on the net value per acre / hectare for agricultural / paddock land (existing use value (EUV)). This EUV is 'grossed up' to reflect a net developable to gross site area ratio of:
- 75% net to gross on small and large site typologies, and
  - 100% on brownfield typologies (assumes all of the site is redeveloped).
- 7.2 Table 7.1 below adopts the appropriate Existing Use Values and premiums to derive a Benchmark Land Value (BLV) for the respective typologies.

### Greenfield Land

---

- 7.3 For greenfield typologies the 'bottom up' approach is based on the net value per acre / hectare for agricultural land (existing use value (EUV)). We have generally applied an EUV of £15,000 - £20,000 per acre gross depending on the size of the site (quantum). For smaller sites, we have assumed a higher EUV and assumed that volume house builder scale sites would have a lower EUV due to economies of scale.
- 7.4 Given that the market areas for towns and larger villages such as Didcot, Faringdon, Sonning Common, Watlington, Abingdon etc are relatively small, we do not perceive there to be any perceptible difference in agricultural land values. This was corroborated by our agent consultation.
- 7.5 The BLV divided by the (higher) net value per acre / hectare gives an uplift multiplier/premium of 17-28, reflecting the size and location of the site.
- 7.6 These are the *minimum* values that we would assume for the purpose of our hypothetical viability appraisals and they act as the benchmark to test the RLVs of schemes to determine whether sites would come forward for development (as discussed with regard to Figure 2.2). They are not market values (/RLV) which we would anticipate to be much higher (even on a policy compliant basis).
- 7.7 The EUV assumptions for greenfield land reflect the likelihood that residential land coming forward on greenfield sites would do so on land at the edge of settlements (i.e., paddock land) and thus, our assumptions are between agricultural and paddock land values (when considering the premium).
- 7.8 The assumption that the Henley area of the South Oxfordshire District and Abingdon area of the Vale of White Horse District would carry stronger EUVs is driven by our Residential Market paper which demonstrates stronger sales values in this part of the district. Thus, we anticipate agricultural land with the potential for residential development would command a premium in the higher value areas, especially around Henley.

### Brownfield Land

---

- 7.9 For the residential typologies, the benchmark land value is based on a 10-15% premium over perceived Existing Use Values. We have used a lower 10% premium in the lower value zone, 12% in the medium value zone and 15% in the high value zone. We have previously applied a higher premium of 20%. However, as there is a

significant and generous range for the EUVs, a lower premium is sufficient to provide landowners an incentive to sell.

## Land Value Caveats

---

- 7.10 It is important to note that the BLV's contained herein are for 'high-level' plan / CIL viability purposes and the appraisals should be read in the context of the BLV sensitivity table (contained within the appraisals). It is important to emphasise that the adoption of a particular BLV £ in the base-case appraisal typologies in no way implies that this figure can be used by applicants to negotiate site specific planning applications.
- 7.11 Where sites have obvious abnormal costs, these costs should be deducted from the value of the land. The land value for site-specific viability appraisals should be thoroughly evidenced, having regard to the existing use value of the site (as is best practice in the PPG). This report is for plan-making purposes and is 'without prejudice' to future site-specific planning applications.
- 7.12 Furthermore, we are not saying that land can *only* be acquired in the Districts for these BLV's. As the appraisals show, there is often a surplus between the RLV and BLV which could be put to a stronger land bid or retained as profit. Furthermore, the sensitivity scenarios show the impact on the surplus (i.e., difference between RLV and BLV) for various levels of BLV and profit %.
- 7.13 We consider that our assumptions are appropriate given that they are largely in line with the other plan wide studies. Furthermore, over 15 times uplift over EUV is a significant premium that should act as an incentive for landowners to sell.
- 7.14 We set out our Benchmark Land Value assumptions in the table below.

**Table 7.1 – Benchmark Land Value Table of Assumptions**

Typology	Location	Existing Use	EUV -					Uplift Multiplier	BLV -	
			(per acre) (gross)	(per ha) (gross)	Net:Gross (%)	(per acre) (net)	(per ha) (net)		(per acre) (net developable) (rounded)	(per ha) (net developable) (rounded)
Residential - Smaller Sites	High Value Zone	Greenfield	£20,000	£49,420	75%	£26,667	£65,893	24	£650,000	£1,606,000

# 1 Introduction

---

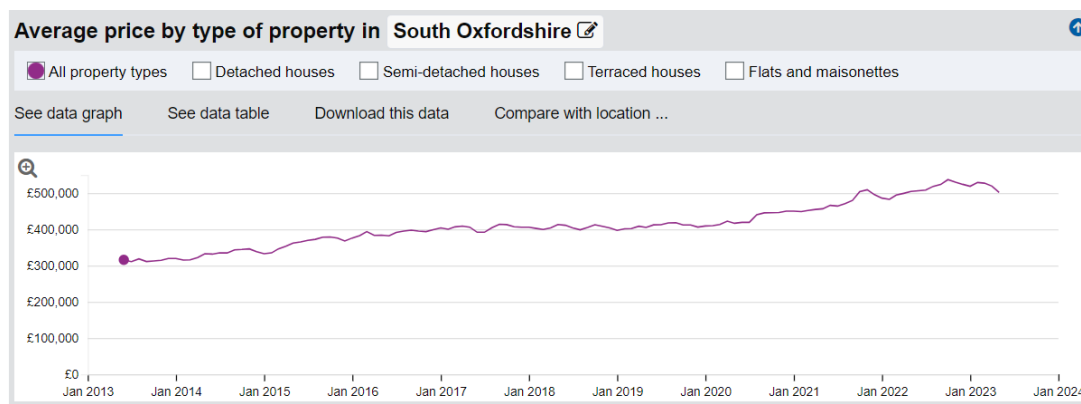

- 1.1 This paper provides the background to the value assumptions made in appraising the residential development typologies set out in the main report. The purpose of the overarching study is to review the viability of South Oxfordshire and Vale of White Horse District Councils' Joint Local Plan. In this paper where we refer to the Districts, we are referring to both authority areas.
- 1.2 The structure of the residential market paper is as follows:
- Section 2 - National and Regional Overview – provides an assessment of the current residential market in a national and regional context.
  - Section 3 - Existing Evidence Base – provides a review of existing market evidence which will inform our assumptions.
  - Section 4 - New Build Achieved Values – provides an assessment of new build achieved values across the Districts over the last two years based on industry recognised published data from Land Registry and Energy Performance Certificate Register (EPC).
  - Section 5 - Housing Value Zones – provides an assessment of second hand achieved values across the Districts over the last three months, again based on industry recognised published data. This is to provide a baseline for establishing housing values *zones* (not absolute values for new-build housing).
  - Section 6 - New Build Asking Prices – provides an assessment of asking prices for new build properties across the District. The market assessment is based on industry recognised published data from Rightmove and developer's websites such as Taylor Wimpey and Bellway Homes.
  - Section 7 - Residential Value Assumptions – based on assessment of achieved and asking value data, we set out our value assumptions (£ psm and absolute values) which could be expected across the Districts, taking into consideration the settlement hierarchy.
  - Section 8 - Older Persons Housing – this section sets out our market evidence and value assumptions for older persons housing.
  - Section 9 - Affordable Housing Transfer Values – this section sets out our specific assumptions in respect of transfer values for S106 affordable housing.

## 2 National and Regional Market Overview

---

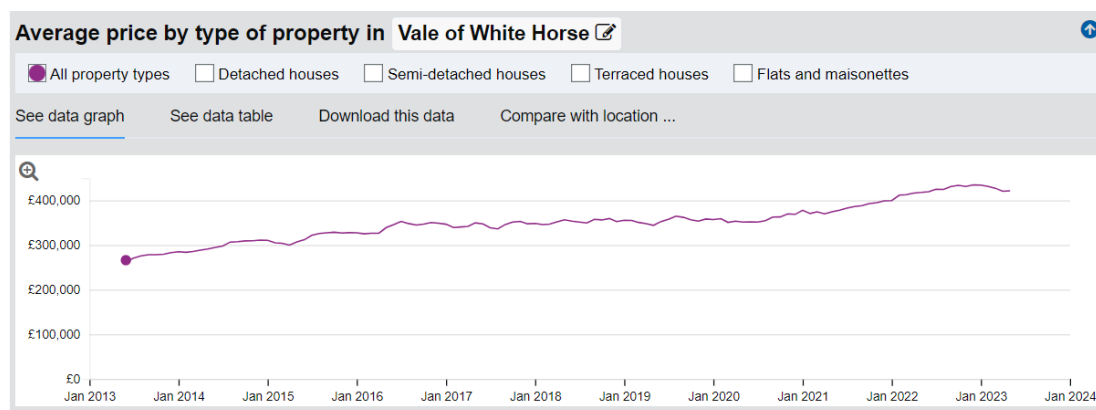

- 2.1 The RICS publishes a regular UK residential property market survey providing an overall opinion of the direction that the residential market is taking, along with commentary from surveyors from individual regions throughout the UK. The latest publication of this is June 2023 providing the following summary:
- Indicators on new buyer enquiries and agreed sales slip deeper into negative territory.
  - The ongoing dip in national house prices appears to gain momentum slightly during June.
  - Sales expectations deteriorate at both the three and twelve-month time horizons.
- 2.2 The June 2023 RICS UK Residential Survey results indicate a renewed deterioration in sales market activity. This is on the back of the recent escalation in interest rate expectations. Indeed, as borrowing costs increased, many of the survey's indicators fell deeper into negative territory this month, albeit most metrics remain at least somewhat above the lows hit towards the end of last year.
- 2.3 With respect to new buyer enquiries, the national net balance slipped to -45% in June, down from a reading of -20% last month. As such, this marks an eight-month low for the buyer demand series. When disaggregated, respondents across all parts of the UK reported a firmly negative trend in buyer enquiries compared to May 2023. For newly agreed sales, the headline net balance fell to -34% this month, notably weaker than the figure of -8% posted last time around. In fact, June's return represents the most downbeat figure since December 2022, when the net balance stood at -38%. Looking ahead, near-term sales expectations deteriorated to post a net balance of -36% in June (a four-month low), down sharply relative to the reading of -9% seen previously. On a twelve-month view, a net balance of -31% of survey participants foresees sales declining.
- 2.4 Looking at supply, having picked up slightly during May, new sales instructions reportedly held more or less steady this month (net balance -1% vs +14% previously). Meanwhile, average stock levels on estate agent's books were also little changed relative to last month (coming in at 37.4 properties). Although this level of inventory is still slightly higher than that reported at the end of last year, the average number of homes available for purchase currently remains very low on a longer-term historical comparison.
- 2.5 Turning to house prices, the national net balance fell to -46% in June, declining from a figure of -30% beforehand. Having turned slightly less negative in both April and May, the latest feedback on house prices signals downward impetus is gaining traction once more. When viewed at a more local level, all English regions are seeing house prices retreat, with East Anglia and the East Midlands exhibiting the sharpest monthly declines in net balance terms (-72% and -69% respectively). By way of contrast, house prices remain more resilient across Northern Ireland and Scotland, evidenced by respondents based in both countries continuing to cite an upward trend despite the weaker activity backdrop. Average prices in England and Wales are now well in excess of the 2007/08 peak (£190,032) at £269,626 equating to a 41.88% increase in values.
- 2.6 Below is a chart of the comparison between South Oxfordshire, Vale of White Horse and the UK average house prices over the last 10 years.

**Figure 2.1 – SODC HPI Index**

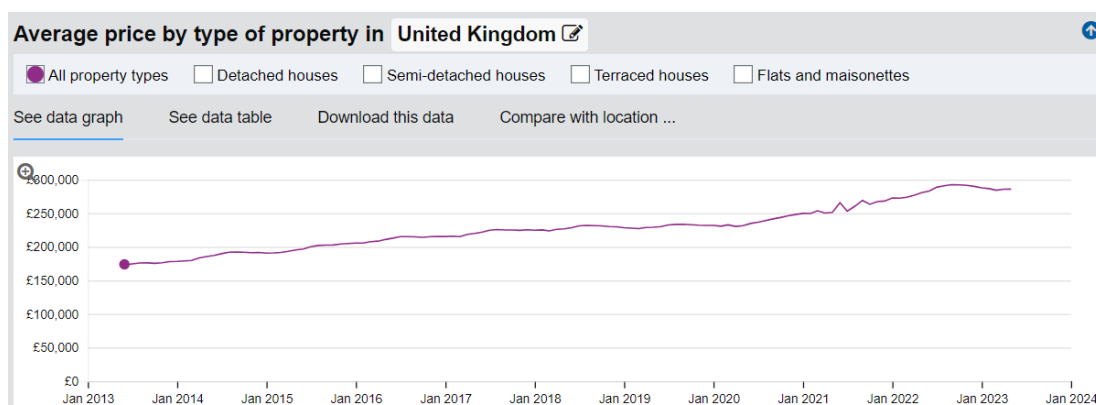

Source: UK House Price Index 2023

**Figure 2.2 - VOWH HPI Index**

Source: UK House Price Index 2023

**Figure 2.3 - UK HPI Index**

Source: UK House Price Index 2023

- 2.7 South Oxfordshire and Vale of White Horse housing values have historically been above the regional average.

### 3 Existing Evidence Base

---

3.1 We have undertaken a review of the existing evidence base having regard to the following documents listed below:

- Residential Market Paper – South Oxfordshire (February 2018)
- SODC Viability Report (February 2018)
- SODC Residential Market Paper – Update (Nov 2018)
- SODC Local Plan and CIL Viability Assessment (Dec 2018)
- SODC Local Plan and CIL Viability Update (July 2020)
- South Oxfordshire Local Plan, 2011-2035, SODC (Dec 2020)
- Vale of White Horse LPP1 Viability Study, HDH (Oct 2014)
- Vale of White Horse LPP2 Viability Study, HDH (Feb 2017)
- Vale of White Horse DC Residential Market Paper (Feb 2019)
- Vale of White Horse DC CIL Viability Assessment (Oct 2020)

#### Residential Market Paper – South Oxfordshire (February 2018)

---

- 3.2 In May 2017, AspinallVerdi was retained by SODC to provide whole plan viability advice in respect of the New Local Plan. In doing so, we prepared a Residential Market Review Paper in February 2018. This paper provided the background to the value assumptions made in appraising the residential development typologies set out in the main whole plan viability report.
- 3.3 A review of sales values within the South Oxfordshire District was undertaken recording any new-build sales within the previous 2 years and any second-hand sales within the previous 3 months.
- 3.4 This was based on a detailed analysis of the Land Registry achieved values, cross-referenced, on an address-by-address basis to the floor areas published on the EPC (Energy Performance Certificate) database in order to derive the achieved values (£ per square meter). This gave a good baseline for comparing the average values across the District as it devalues each house type to a value per square meter.
- 3.5 We recorded approximately 800 transactions of new-build property. These values are summarised in Table 3.1.

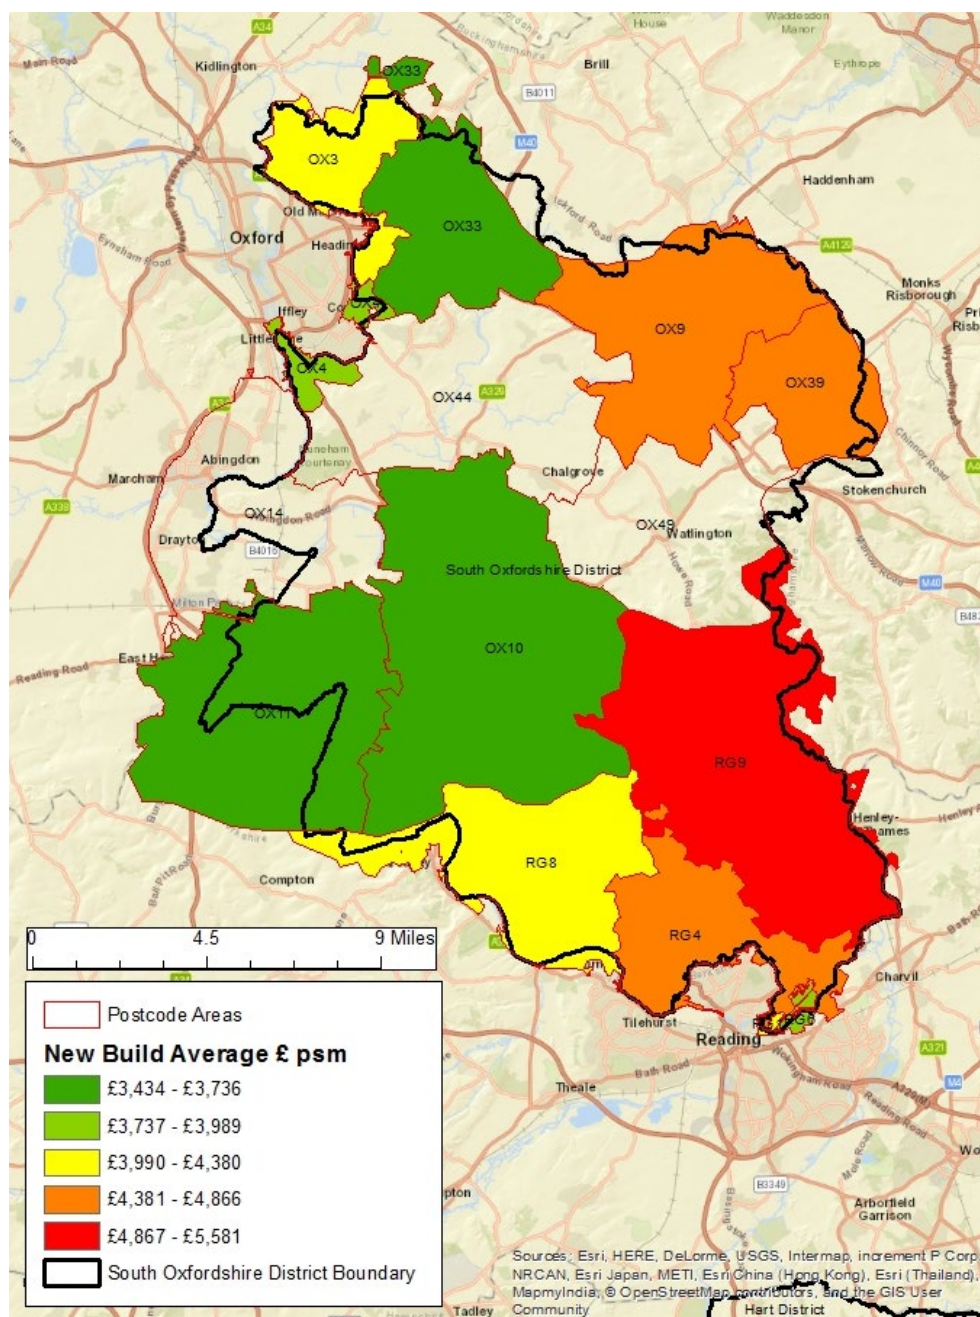

**Table 3.1 - New Build Achieved Values in SODC - £ psm**

Postcode	Maximum £psm	Median £ psm	Average £ psm	Minimum £psm	Total
OX3	£4,961	£4,219	£4,262	£3,048	13
OX4	£5,129	£4,031	£3,989	£2,767	4
OX9	£7,279	£4,492	£4,650	£3,218	102
OX10	£4,875	£3,561	£3,700	£2,719	62
OX11	£5,867	£3,414	£3,434	£2,289	204
OX33	£4,043	£3,617	£3,736	£3,511	5
OX39	£6,419	£4,642	£4,866	£4,013	25
RG1	£8,151	£3,999	£4,166	£2,642	249
RG4	£5,556	£4,630	£4,714	£4,167	18
RG6	£5,212	£3,938	£3,941	£2,857	139
RG8	£5,890	£4,801	£4,380	£3,308	7
RG9	£6,085	£5,629	£5,581	£4,924	8

Source: Land Registry, EPC, June 2017

- 3.6 Our analysis showed that overall prices varied significantly within the South Oxfordshire District but average values varied significantly less. The highest value £ psm for a new build property was £8,151 psm (RG1) and the lowest was £2,289 psm (OX11). RG9 showed the highest average at £5,629 psm, this was almost £700 psm higher than the second highest. Excluding RG9 average values only varied by £1,432 psm.
- 3.7 A choropleth map was created using the average values for each postcode. This is shown below.

**Figure 3.1 - New Build Achieved Values Choropleth Map – South Oxfordshire**

Source: AspinallVerdi, June 2017

- 3.8 The map above showed a general trend of higher values towards the east.
- 3.9 Recent transactional data was not available for every postcode area, therefore to help us identify housing market zones, we also reviewed second hand property.
- 3.10 We recorded approximately 352 transactions for second-hand property.

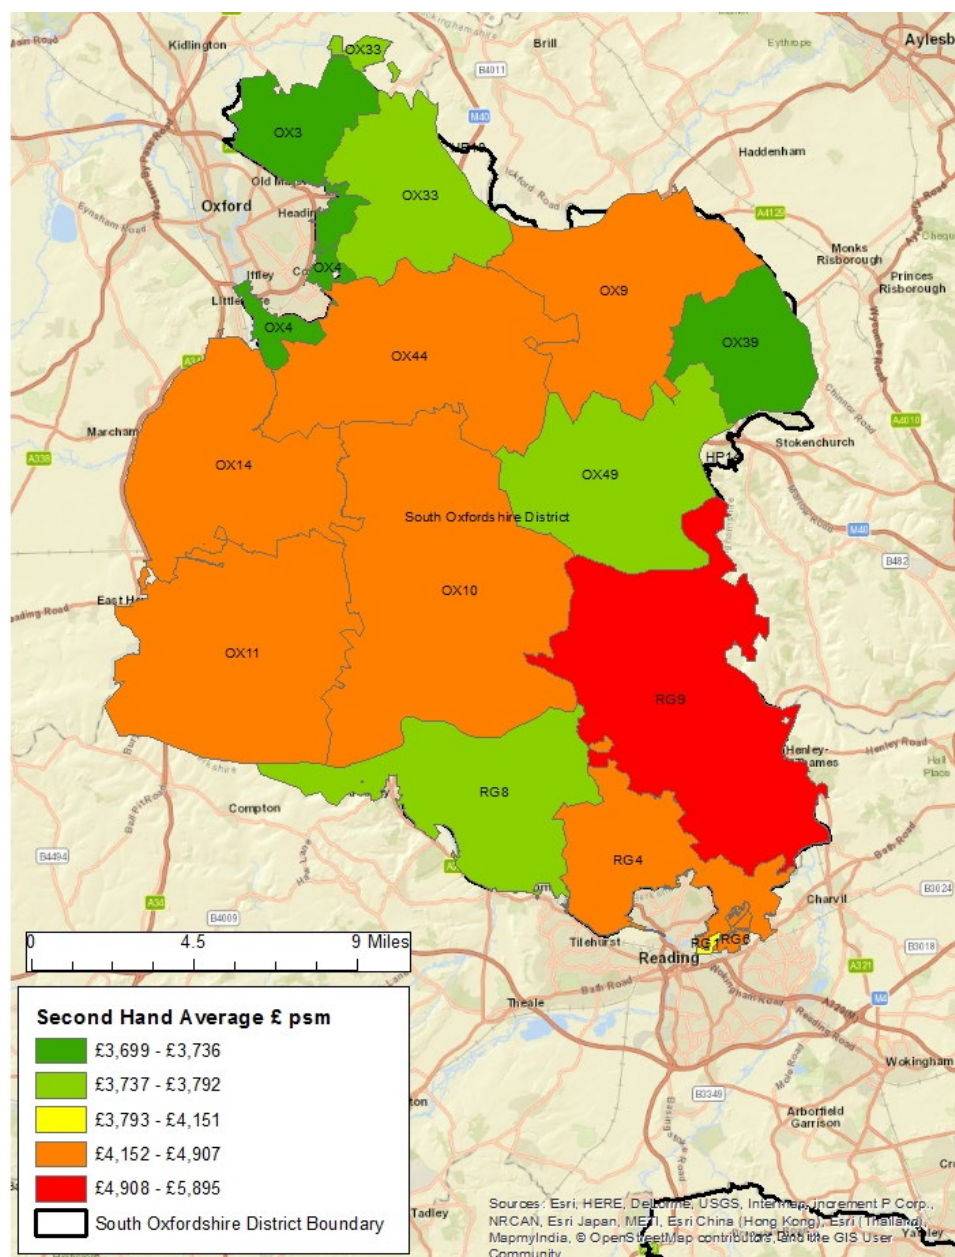

**Table 3.2 - Second Hand Achieved Values in SODC - £ psm**

Postcode	Maximum £psm	Median £ psm	Average £ psm	Minimum £psm	Total
OX3	£9,286	£4,500	£4,685	£2,154	33
OX4	£8,333	£4,773	£4,907	£2,852	49
OX9	£7,361	£4,622	£4,744	£3,081	21
OX10	£4,875	£3,561	£3,700	£2,719	27
OX11	£5,450	£3,699	£3,791	£2,771	26
OX14	£4,384	£3,514	£3,699	£3,200	3
OX33	£4,043	£3,617	£3,736	£3,511	10
OX39	£6,786	£4,318	£4,666	£3,220	13
OX44	£5,000	£3,653	£3,760	£2,778	9
OX49	£3,951	£3,951	£4,555	£3,556	3
RG1	£6,310	£4,068	£4,151	£1,848	44
RG4	£7,615	£4,474	£4,487	£2,449	47
RG6	£5,833	£4,563	£4,651	£3,000	43
RG8	£4,450	£3,835	£3,792	£3,049	4
RG9	£7,499	£5,930	£5,895	£3,100	20

Source: Land Registry, EPC, June 2017 – 160613 SODC Second Hand Sold Values v1

- 3.11 RG9 remains the highest value postcode. The range between the second highest and lowest average value within the second-hand data was £1,208 which is less than the new-build data.
- 3.12 A choropleth map was created using the average values for each postcode. This is shown in Figure 3.5 below.

**Figure 3.2 – Second Hand Achieved Values Choropleth Map – South Oxfordshire**

Source: AspinallVerdi, June 2017

- 3.13 The second-hand data was more comprehensive as some postcode areas did not have any new build sales recorded. It is important to note in both maps that RG9 (Henley) is a high value area. There was no consistent or significant variation between the other postcodes within the District. We therefore divided the District into two housing zones; RG9 (Henley) and the rest of the District.
- 3.14 We reviewed a number of new build developments that were 'on-site' within South Oxfordshire District to understand what the up-to-date asking values associated with new build properties were. It should be noted that asking prices may be aspirational,

and may not reflect the incentives offered by the developer or the actual value a willing purchaser will pay.

- 3.15 We grouped the asking values by market area and summarised them in the table below.

**Table 3.3 - Asking Values in South Oxfordshire (February 2018)**

Dwelling Type	Didcot Market Area (£)	Wallingford Market Area (£)	Thame Market Area (£)	Henley Market Area (£)	Larger Villages (£)	Rest of District (£)
Postcode	OX11	OX10	OX9	RG9		
1 Bed Flat						
2 Bed Flat	£230,000			£410,000		
1 Bed House						
2 Bed House	£290,000		£350,000			
3 Bed House	£340,000		£480,000	£800,000		£580,000
4 Bed House	£410,000	£590,000	£620,000		£660,000	
5 Bed Houses	£480,000					

Source: AspinallVerdi 2017

- 3.16 Based on the above evidence we applied the following value assumptions in our financial modelling.

**Table 3.4 - £ psm Value Assumptions SODC (February 2018)**

Dwelling Type	Designated Strategic Sites	Henley Market Area (£)	Rest of District (£)
Postcode	OX10, OX11, OX44	RG9	
1 Bed Flat	£3,548	£5,910	£4,652
2 Bed Flat	£3,736	£5,900	£4,041
1 Bed House	£4,242	£6,706	£5,155
2 Bed House	£3,881	£6,151	£4,496
3 Bed House	£3,592	£6,160	£4,500
4 Bed House	£3,550	£6,170	£4,565
5 Bed Houses	£3,200	£5,810	£4,333

Source: 17114 Market Value Assumptions v5

**Table 3.5 - Market Sales (£) Value Assumptions SODC (February 2018)**

Dwelling Type	Designated Strategic Sites	Henley Market Area (£)	Rest of District (£)
Postcode	OX10, OX11, OX44	RG9	
1 Bed Flat	£177,400	£295,500	£232,600
2 Bed Flat	£261,500	£413,000	£282,900
1 Bed House	£263,000	£415,800	£319,600
2 Bed House	£306,600	£485,900	£355,200
3 Bed House	£359,200	£616,000	£450,000
4 Bed House	£408,300	£709,600	£525,000
5 Bed Houses	£528,000	£958,700	£715,000

## SODC Viability Report (February 2018)

---

- 3.17 This AspinallVerdi report provided economic viability advice in respect of the cumulative impact on development of the new Local Plan policies and to inform the review of the CIL Charging Schedule.
- 3.18 Again, we tested the cumulative impact of these policies in the context of CIL – based upon the above February 2018 Residential Market Paper.
- 3.19 We made 22 recommendations in respect of:
- Residential uses –
    - The affordable housing policy of 40% on-site provision of affordable housing on sites with a net gain of 10 dwellings or more was viable across the District having regard to the cumulative impact of the Plan policies including the CIL Charge at the time (£88.40 and £156.00 psm depending on the zone).
    - There was the potential to increase the CIL charging rate in all zones.
    - There was potential to charge CIL up to £170 psm on the strategic sites. However, due to inherent uncertainty in respect of site-specific infrastructure costs we recommended CIL be levied well below this ceiling (say, £100 psm).
    - There was potential to increase CIL in Didcot from the current rate of £88.40 psm to over £200 psm without prejudicing viability.
    - Across the rest of the District these typologies were all viable including the existing CIL at £156.00 psm.

- Also, based on the market value analysis there was a clear higher value area around Henley (RG9) and hence all the Henley typologies were viable including the existing CIL (at the time) at £156.00 psm. There was potential for a 'higher value' CIL zone in RG9.
- Specialist Accommodation for Older People –
  - Age Restricted / Sheltered Housing was found to be viable with 40% affordable housing and (the current (at that time)) £0.00 psm CIL.
  - However, we recommended a policy of commuted sums and delivery of off-site affordable housing for Age Restricted / Sheltered Housing. The appraisal showed that the equivalent maximum commuted sum would be £429 psm. This generated the equivalent surplus as if the 40% affordable housing were delivered on-site. We recommend that this be the maximum commuted sum that SODC could contemplate for Sheltered/Age Restricted housing.

### SODC Residential Market Paper – Update (Nov 2018)

- 3.20 AspinallVerdi were retained to provide viability advice during the course of the Local Plan preparation. This paper was an update of the original AspinallVerdi November 2017 paper to update values to reflect the current market (November 2018).
- 3.21 The new value assumptions applied, in 2018, were:

**Table 3.6 - Market Sales (£) Value Assumptions SODC (Nov 2018)**

Dwelling Type	Unit size (sqm)	Henley Market Area (£)	Rest of District (£)
<b>Postcode</b>		<b>RG9</b>	
1 Bed Flat	50	£298,800	£235,200
2 Bed Flat	70	£417,500	£286,000
1 Bed House	62	£420,400	£323,100
2 Bed House	79	£491,200	£359,100
3 Bed House	100	£622,800	£455,000
4 Bed House	115	£717,400	£530,800
5 Bed Houses	165	£969,200	£722,900

Source: 180823 Market Value Assumptions v6'

### SODC Local Plan and CIL Viability Assessment (Dec 2018)

- 3.22 This was a new area-wide FVA report to update the February 2018 report in support of the Local Plan preparation.

- 3.23 It included the revised National Planning Policy Framework (NPPF)/Planning Practice Guidance (PPG) (July 2018); the Housing White Paper (February 2017); and the CIL Review (October 2016).
- 3.24 Again, we made specific recommendations in respect of:
- Strategic Sites affordable housing and CIL - There was potential to charge CIL up to £80 psm on the strategic sites. However, given that the strategic sites mitigate their own impact through site-specific S106, there was no rationale to charge CIL on these sites.
  - Residential affordable housing and CIL - There is the potential to increase the CIL charging rate in all zones. There was potential to increase CIL in Didcot from the current rate of £96.75 psm to over £500 psm without prejudicing viability. Similarly, across the rest of the district the typologies were all viable including the existing CIL at £170.73 psm. There was potential to increase CIL to over £500 psm without prejudicing viability. Also, based on the market value analysis there was a clear higher value area around Henley-on-Thames (postcode area RG9) and hence all the Henley-on-Thames typologies are viable including the existing CIL at £170.73 psm. There was potential for a 'higher value' CIL zone in RG9.

### SODC Local Plan and CIL Viability Update (July 2020)

---

- 3.25 This was a new area-wide FVA report by AspinallVerdi to update the December 2018 report.
- 3.26 It took account of the revised National Planning Policy Framework (NPPF)/Planning Practice Guidance (PPG) (July 2018); the Housing White Paper (February 2017); and the CIL Review (October 2016).
- 3.27 We made specific recommendations in respect of:
- 3.28 Strategic Sites
- [Strategic] sites were all viable including 40% affordable housing (50% for the edge of Oxford Strategic Sites (e.g., Grenoble Road, Northfield and Bayswater Brook), £0.00 psm CIL and S106 and infrastructure costs of at least £60,000 per unit (costs vary for each site).
  - Given that the strategic sites were making significant contributions to infrastructure through site-specific S106 planning obligations, it was not appropriate to charge CIL on these sites. This was confirmed in paragraph 21 of the PPG.
  - The full 100% carbon reduction requirement within DES11 [now DES10 in the Adopted plan] was viable for Culham, Chalgrove, Grenoble Road and Northfield. The initial 40% carbon reduction requirement was viable for Berinsfield and Bayswater.
- 3.29 Residential Uses
- Having regard to the cumulative impact of the emerging Local Plan policies, including the current CIL Charge (£103.24 and £182.18 psm depending on the zone), the emerging (and since adopted) affordable housing policy (Policy H9) was viable, this included:

- 40% on-site provision of affordable housing on all sites across the District with a net gain of 10 or more dwellings or a combined gross floorspace of more than 1,000 sqm;
  - 40% on-site provision of affordable housing or equivalent commuted sum on all sites within a Designated Rural Area with a net gain of 5 or more dwellings;
  - 50% on-site provision of affordable housing on sites adjacent to Oxford City with a net gain of 10 or more dwellings or a combined gross floorspace of more than 1,000 sqm.
- There was the potential to increase the CIL charging rate in all zones.
  - There was potential to increase CIL in Didcot from the current rate of £103.24 psm to over £500 psm without prejudicing viability. We stated that further work may be required to extend the range of the sensitivity tables to determine the upper limit (and therefore the buffer). However, we would only recommend increasing CIL incrementally in any event to allow time for the market to adjust (particularly given the market uncertainty caused by the Covid19 pandemic).
  - Similarly, across the rest of the District the typologies were all viable including the existing CIL at £182.18 psm. There was potential to increase CIL to over £500 psm without prejudicing viability.
  - Also, based on the market value analysis there was a clear higher value area around Henley-on-Thames (postcode area RG9) and hence all the Henley-on-Thames typologies were viable including the existing CIL at £182.18 psm. There was potential for a 'higher value' CIL zone in RG9.
  - Rural Exceptions Sites (RES) were maintained as just that, exceptions. Any policy to enable affordable housing on RES schemes by the introduction of market housing had the potential to raise land values and landowners apply 'hope value' for future open market residential development. This outcome would not facilitate the delivery of affordable housing in rural areas. It was between the Council and the Registered Providers to retain RES sites with 100% affordable housing. There was a significant viability buffer for RES sites, however in the event that this typology becomes unviable, in the first instance any funding shortfall should be made up from Homes England or via internal subsidy from the Registered Providers. [CIL is not applicable on RES sites with 100% affordable housing].
  - The full 100% carbon reduction requirement within DES11 was viable for the residential typologies.
- 3.30 Build-to-rent
- Affordable housing was not viable on build-to-rent schemes, and
  - At 40% affordable housing, CIL was not viable on build-to-rent schemes. There was scope for a separate CIL charge to be levied for this typology.
- 3.31 Purpose-built student accommodation (PBSA)
- PBSA was viable based on 0% affordable housing, and including CIL at £182.18 psm.

- There was scope to increase the CIL levied on PBSA in lieu of affordable housing and/or a formal policy for commuted sums. We recommended that this is limited to the equivalent of the general needs residential CIL rate (for simplicity and to ensure an adequate buffer).

### 3.32 Specialist Accommodation for Older People

- Age Restricted / Sheltered Housing was viable with 40% affordable housing and (the current (at that time)) £182.18 psm CIL. The appraisals show that there was surplus to increase CIL up to £200 psm; however, we did not recommend that CIL be increased significantly to allow a viability buffer to remain.
- Assisted Living / Extra-Care housing typologies were marginally viable based on 40% affordable housing and (the current) £182.18 psm CIL. The appraisals also showed that the scheme became viable if CIL decreased to £160 psm.

## South Oxfordshire Local Plan, 2011-2035, SODC (Dec 2020)

---

- 3.33 The SODC Local Plan was adopted in December 2020. We have reviewed the final adopted policies within this plan in the separate Policies Matrix. This is to ensure that we consider the cumulative impact of the Local Plan policies and the CIL.
- 3.34 The Local Plan does not include any specific evidence in respect of residential market values. The plan sets the policy framework for development management. Within the plan the settlement hierarchy is as follows:

**Table 3.7 – SODC Settlement Hierarchy**

Settlement Hierarchy	
<b>Towns</b> Didcot Henley-on-Thames Thame Wallingford	
<b>Larger Villages</b> Benson                      Goring Berinsfield                Nettlebed Chalgrove                  Sonning Common Chinnor                      Watlington Cholsey                      Wheatley Crowmarsh Gifford        Woodcote	
<b>Smaller Villages</b> Aston Rowant              Littleworth (near Aston Upthorpe / Aston    Wheatley) Tirrold                        Long Wittenham Beckley                        Marsh Baldon Berrick Salome               Moulsoford Binfield Heath               North Moreton Brightwell-cum-Sotwell      Nuneham Courtenay Britwell Salome               Peppard Common Burcot                        Playhatch Checkendon                  Rotherfield Clifton Hampden              Peppard Cuddesdon                   Sandford-on- Culham                        Thames Dorchester                   Lower Shiplake East Hagbourne               Shiplake Cross Ewelme                        South Moreton Forest Hill                    South Stoke Garsington                   Stadhampton Great Milton                  Stanton St John Harpsden                      Stoke Row Highmoor Cross               Sydenham Holton                         Tetsworth Horspath                      Tiddington Kidmore End                  Towersey Kingston Blount               Warborough & Lewknor                        Shillingford NE of Little Milton                   A4074 Whitchurch-on-Thames	
<b>Other Villages</b> Bix                              Moreton Brightwell Baldwin           North Stoke Chazey Heath                  North Weston Chiselhampton                Nuffield Christmas Common            Postcombe Crays Pond                      Preston Crowmarsh Crocker End and Catslip      Pyrton Crowell                         Roke Cuxham                         Rotherfield Greys Drayton St Leonard           Russell's Water Dunsden Green                Shillingford (SW of Emmington                      A4074) Gallowtree Common           Sonning Eye Great Haseley                   Stonor Greys Green                   Tokers Green Henton                          Toot Baldon Highmoor                       Waterperry Ispden                           West Hagbourne Kingwood Common            Whitchurch Hill / Hill Lower Assendon               Bottom Middle Assendon               Witheridge Hill Milton Common Mongewell	

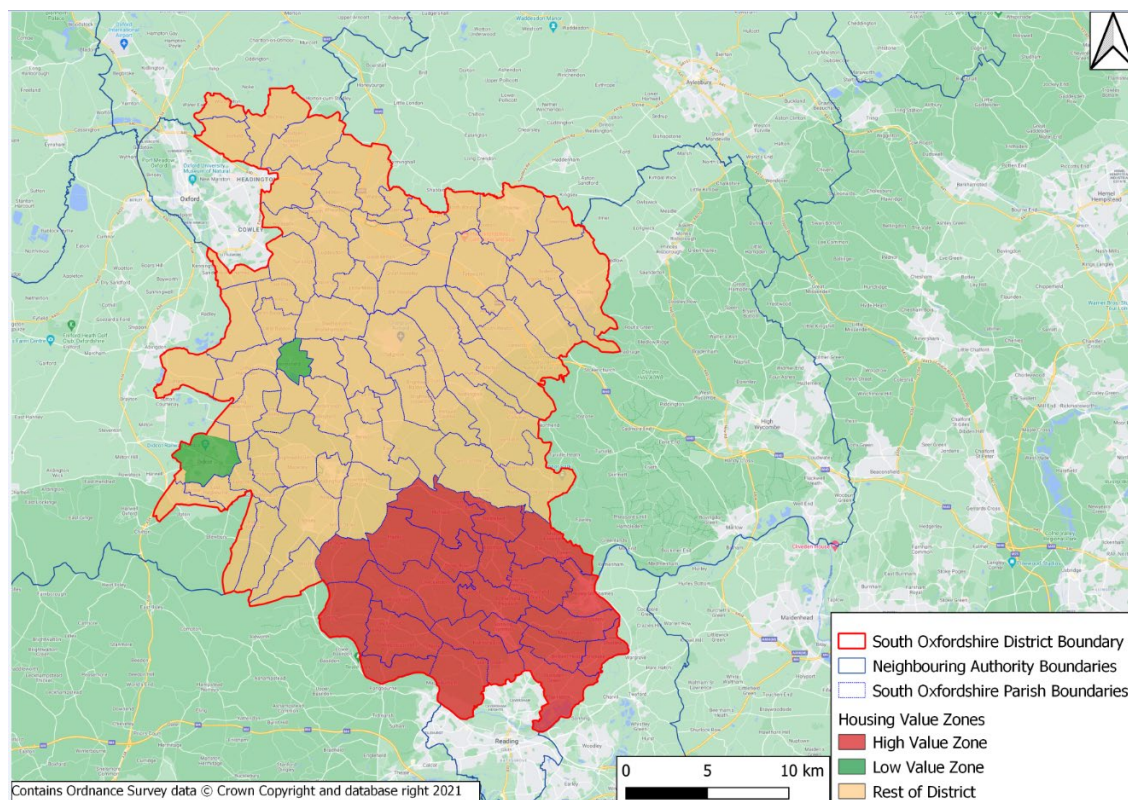

Source: South Oxfordshire Local Plan, 2011-2035 Appendix 7

- 3.35 As you can see from the above, there has been a great detail of research and evidence gathering in respect of the property markets and development viability in South Oxfordshire.

### South Oxford CIL Viability Update (Sept 2021)

- 3.36 In 2021, AspinallVerdi produced an update report in regard to the CIL viability assessment.
- 3.37 This assessment concluded that the area should be divided into 3 market areas, shown below:

**Figure 3.3 - SODC CIL Value Map 2021**

Source: AspinallVerdi, 2021

3.38 In determining these value zones, we considered sale values and the proposed pattern of development. Note that strategic site allocations are carved-out and £0 rated as is currently the case.

3.39 We recommended the following CIL rates for residential:

**Table 3.8 - Recommended Residential CIL Rates**

Value Zones	Smaller schemes (sub-10 dwellings)			Larger schemes (10+ dwellings)		
	Max CIL (£ psm)	Recommended CIL (£ psm)	Buffer %	Max CIL (£ psm)	Recommended CIL (£ psm)	Buffer %
Henley-on-Thames, Sonning Common, Goring, Woodcote & Rotherfield, Kidmore End and Whitchurch	£636	£360	43% - 78%	£1,070	£325	70% - 84%
Rest of District	£280	£260	7% - 76%	£302	£225	26% - 80%
Didcot & Berinsfield	£602	£215	64% - 76%	£353	£200	39% - 77% (Note, -90% on Typology A 20 units (due to Med BCIS))

Source: AspinallVerdi, 2021

### Recommended BTR and PBSA CIL Rates

- 3.40 We recommended the following CIL rates for specialist residential investment typologies Build to Rent (BTR) and purpose-built student accommodation (PBSA).

**Table 3.9 - Recommended BTR & PBSA CIL Rates**

Specialist Residential Type	Max CIL (£ psm)	Recommended CIL (£ psm)	Buffer %
Build to Rent	£274	£150	45% - 64%
Student	£216	£150	30% - 70%

Source: Source: AspinallVerdi, 2021

### Recommended Older Persons Housing CIL Rates

- 3.41 We recommended the following CIL rates for specialist accommodation for Older Persons.

**Table 3.10 - Recommended Older Persons Housing CIL Rates**

Value Zones	Age Restricted / Sheltered			Assisted Living / Extra Care		
	Max CIL (£ psm)	Recommended CIL (£ psm)	Buffer %	Max CIL (£ psm)	Recommended CIL (£ psm)	Buffer %
Henley-on-Thames, Sonning Common, Goring, Woodcote & Rotherfield, Kidmore End and Whitchurch	£2,490	£325	87% - 89%	£1,865	£325	83% - 85%
Rest of District	£898	£225	75% - 81%	£570	£225	60% - 73%
Didcot & Berinsfield	£729	£200	73% - 80%	£283	£200	29% - 63%

Source: AspinallVerdi, 2021

- 3.42 The above recommended CIL rates had Older Persons Housing rates set at the same level as general needs housing for ease of application.
- 3.43 Extra Care rates were set the same as Age Restricted and general needs.

### South Oxfordshire CIL Charging Schedule January 2023

- 3.44 Following our report and recommendations, the South Oxfordshire Community Infrastructure Levy Charging Schedule came into effect on 3rd January 2023.
- 3.45 The value zone map included in the schedule is shown in Figure 3.4.

Figure 3.4 - SODC CIL Value Zone Map

Source: 2301 SODC\_South-CIL-Charging-Schedule-Jan-2023

3.46 The CIL Charges included in this charging schedule are included in Figure 3.5.

**Figure 3.5 - SODC CIL Charges**

Development Type	CIL RATE (£ per square metre)		
<b>Residential Development</b> (including HMOs, elderly persons' accommodation <sup>2</sup> )	<b>Zone 1:</b> Southern Parishes <sup>3</sup>	<b>Zone 2:</b> Built up areas of Didcot and Berinsfield <sup>4</sup>	<b>Zone 3:</b> Rest of District
<b>Major Schemes</b> (10 dwellings and more net)*	£325	£200	£225
<b>Minor Schemes</b> (9 dwellings and fewer net)**	£360	£215	£260
<p>* Schemes of between 6 and 9 dwellings in the Area of Outstanding Natural Beauty are charged as major development, where affordable housing contributions are provided</p> <p>** Other chargeable residential development (e.g. residential extensions over 100 sq m and annexes) will be charged at the relevant zone rate</p>			
Development Type	CIL RATE (£ per square metre)		
Student accommodation	£150		
Flats/apartments of 3 storeys and above in Zone 2, excluding elderly persons' accommodation <sup>4</sup>	£103		
All elderly persons' accommodation in Zone 2	£0		
Build to Rent <sup>5</sup>	£150		
Residential development on Strategic Sites <sup>6</sup>	£0		
Supermarkets <sup>7</sup>	£200		
Retail Warehousing <sup>8</sup>	£85

### Vale of White Horse, LPP1 Viability Study (Oct 2014)

- 3.47 In 2014, HDH produced a Viability Study of the LPP1.
- 3.48 This report concluded on pricing areas as per the following:

**Table 3.11 - VOWH LPP1 Viability Review 2014**

<b>Table 4.6 VoWHDC Price Areas</b>		
	<b>Units</b>	<b>% of SHLAA</b>
<b>Area 1 - Higher Rural</b>	<b>18,188</b>	<b>66%</b>
East Hanney Marcham Wootton Milton Harwell Drayton	Sutton Courtenay Kingston Bagpuize with Southmoor Stanford in the Vale Steventon Uffington	
<b>Area 2 - Lower Rural</b>	<b>2,258</b>	<b>8%</b>
Shrivenham	East Challow	
<b>Area 3 - Higher main settlement</b>	<b>4,547</b>	<b>16%</b>
Botley	Abingdon	
<b>Area 4 - Lower Main Settlement</b>	<b>2,744</b>	<b>10%</b>
Faringdon Grove	Wantage	

Source: HDH, 2014

- 3.49 The market value assumptions concluded were shown as follows:

**Table 3.12 - VOWH LPP1 Values 2014**

<b>Table 4.7 Residential Property, Market Values (£/m<sup>2</sup>)</b>	
Area 1 - Higher Rural	3,400
Area 2 - Lower Rural	3,000
Area 3 - Higher main settlement	3,200
Area 4 - Lower main settlement	2,800

Source: HDH, 2014

### Vale of White Horse, LPP2 Viability Study (Feb 2017)

- 3.50 In 2017, HDH produced a Viability Study of the LPP2.
- 3.51 This report utilised the values from 2016 CIL – Pre hearing viability update shown in the below table:

**Table 3.13 - VOWH LPP2 Values 2017**

<b>Table 4.1 Residential Property, Market Values (£/m²)</b>			
	<b>2014</b>	<b>2015 Update</b>	<b>2016 Update</b>
Area 1 - Higher Rural	3,400	3,900	3,900
Area 2 - Lower Rural	3,000	3,400	3,400
Area 3 - Higher Main Settlement	3,200	4,000	4,000
Area 4 - Lower Main Settlement	2,800	3,250	3,350

Source: HDH, 2017

## Vale of White Horse Residential Market Paper (Feb 2019)

3.52 In 2019 AspinallVerdi produced a Residential Market Paper as part of the CIL Viability Review.

3.53 Based on our market assessment we assumed the following values (£ psm) across the District. For our assumptions we divided the district into two distinct areas:

- The eastern parishes (Cumnor, Wytham, North Hinksey, South Hinksey, Kennington, Wootton, Sunningwell, Radley, Abingdon, Drayton, Sutton Courtenay, Appleford on Thames, Milton, Harwell, Chilton, Upton, and Blewbury)
- Rest of District (all other parishes)

3.54 We set out our value assumptions in Table 3.6 and Table 3.7 below.

**Table 3.6 – VOWH Value Assumptions (£ psm)**

<b>Dwelling Type</b>	<b>Eastern Parishes (£)</b>	<b>Rest of District (£)</b>
1 Bed Flat	£235,200	£200,000
2 Bed Flat	£286,000	£255,000
1 Bed House	£300,000	£240,000
2 Bed House	£350,000	£300,000
3 Bed House	£420,000	£365,000
4 Bed House	£500,000	£400,000
5 Bed Houses	£600,000	£525,000

Source: 190301 Market Value Assumptions v2

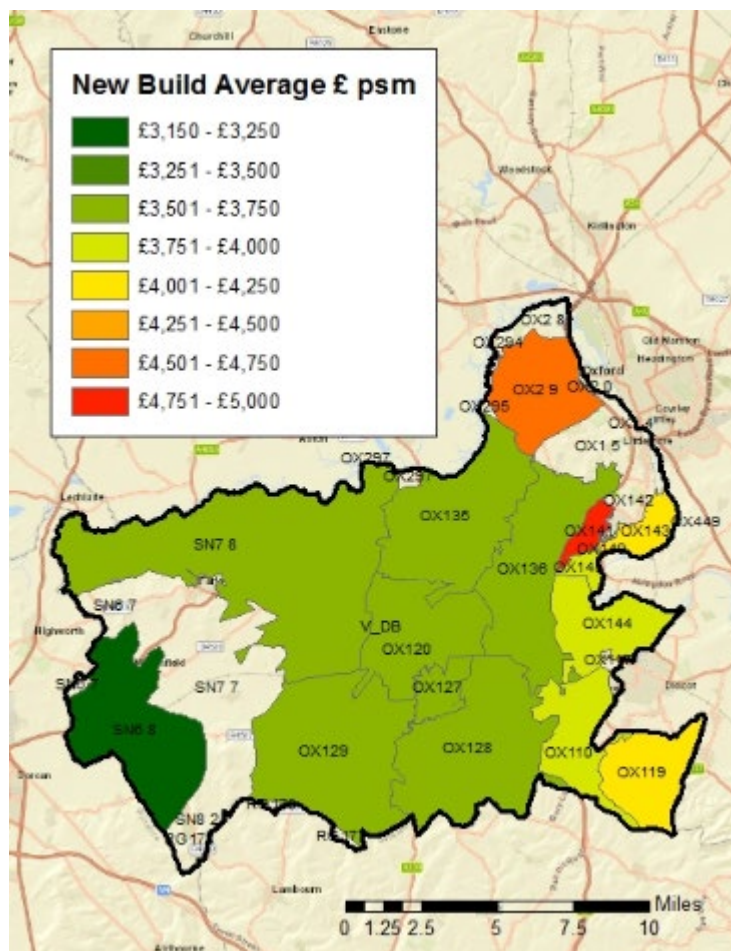

**Table 3.7 – VOWH Value Assumptions (£ per unit)**

Dwelling Type	Eastern Parishes (£ psm)	Rest of District (£ psm)
1 Bed Flat	£4,704	£4,000
2 Bed Flat	£4,086	£3,643
1 Bed House	£4,839	£3,871
2 Bed House	£4,430	£3,797
3 Bed House	£4,200	£3,650
4 Bed House	£4,348	£3,478
5 Bed Houses	£3,636	£3,182

Source: 190301 Market Value Assumptions v2

- 3.55 We carried out similar area-wide viability assessments in the adjacent authorities of South Oxfordshire (2018) and West Oxfordshire (2016). The above values for the Vale are comparable and consistent with these studies taking into consideration the time which has elapsed.

**Figure 3.8 - New build £ psm 2019**

Source: AspinallVerdi

## Vale of White Horse DC CIL Viability (Oct 2020)

- 3.56 AspinallVerdi was retained by VOWH to undertake a CIL review assessment and provide advice for the updating of the CIL Charging Schedule.
- 3.57 We completed various reports, including an initial Viability Assessment in April 2019, followed by an Addendum in August 2020 and a combined Executive Summary report in October 2020.
- 3.58 VOWH is the sister authority to SODC and has similar values. The values used in the VOWH CIL assessment were:

**Table 3.14 - VOWH Residential Values (£) (Oct 2020)**

Dwelling Type	Eastern Parishes (£)	Rest of District (£)
1 Bed Flat	£239,900	£204,000
2 Bed Flat	£291,700	£260,100
1 Bed House	£306,000	£244,800
2 Bed House	£357,000	£306,000
3 Bed House	£428,400	£372,300
4 Bed House	£510,000	£408,000
5 Bed House	£612,000	£535,500

Source: AspinallVerdi 2020

**Table 3.15 - VOWH Residential Values (£ psm) (Oct 2020)**

Dwelling Type	Eastern Parishes (£ psm)	Rest of District (£ psm)
1 Bed Flat	£4,798	£4,080
2 Bed Flat	£4,167	£3,716
1 Bed House	£4,935	£3,948
2 Bed House	£4,519	£3,873
3 Bed House	£4,284	£3,723
4 Bed House	£4,435	£3,548
5 Bed House	£3,709	£3,245

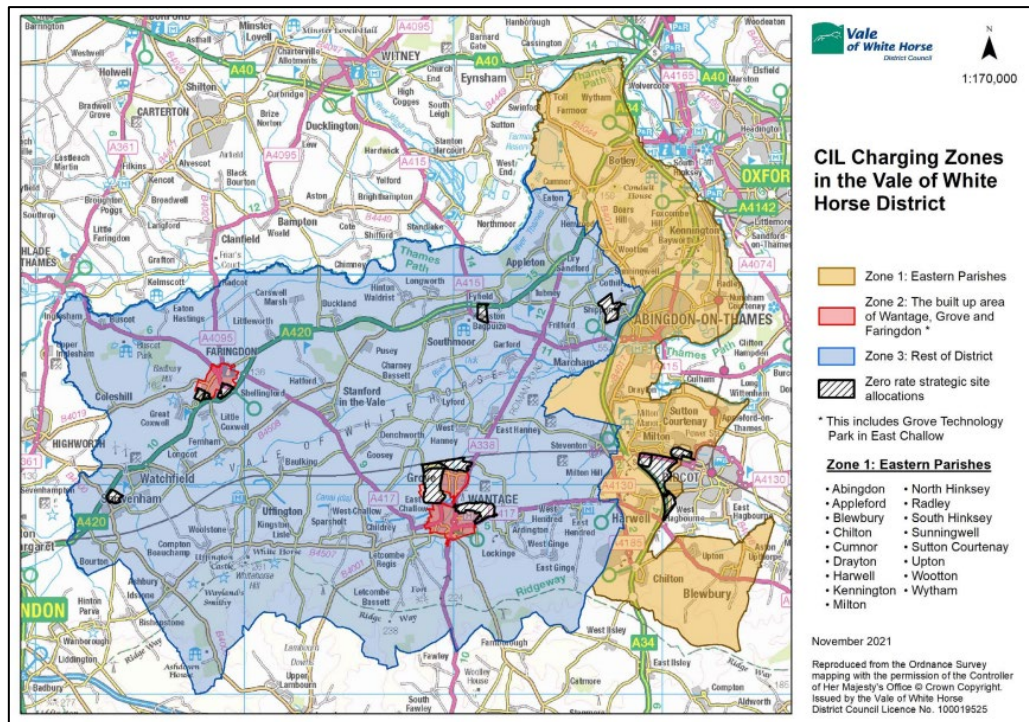

Source: AspinallVerdi 2020

- 3.59 The VOWH CIL review was the subject of an examination in public May 2020 and the Inspector reported that that the Council had provided sufficient evidence that showed the proposed CIL rates would not threaten delivery of the Local Plan in July 2021.

### Vale of White Horse CIL Charging Schedule November 2021

- 3.60 Following our report and recommendations, the Vale of White Horse Community Infrastructure Levy Charging Schedule came into effect on 1 November 2021.
- 3.61 The value zone map included in the schedule is shown in Figure 3.9.

Figure 3.9 - VOWH Current CIL Map

Source: 2111 VOWH-CIL-Charging-Schedule-Nov-2021

3.62 The CIL Charges included in this charging schedule are included in Figure 3.10.

**Figure 3.10 - VOWH CIL Charges**

Development Type	CIL RATE (£ per square metre)		
<b>Residential Development</b> (including student accommodation <sup>3</sup> , HMOs, age restricted and sheltered housing)	<b>Zone 1:</b> Eastern Parishes <sup>4</sup>	<b>Zone 2:</b> Built up areas: Wantage, Grove and Faringdon <sup>5</sup>	<b>Zone 3:</b> Rest of District
<b>Major Schemes</b> (10 dwellings and more net)*	£280	£100	£200
<b>Minor Schemes</b> (9 dwellings and fewer net)**	£340	£160	£260
* Schemes of between 6 and 9 dwellings in the Area of Outstanding Natural Beauty are charged as major development, where affordable housing contributions are provided.			
** Other chargeable residential development (e.g. residential extensions over 100 sq m and annexes) will be charged at the relevant zone rate			

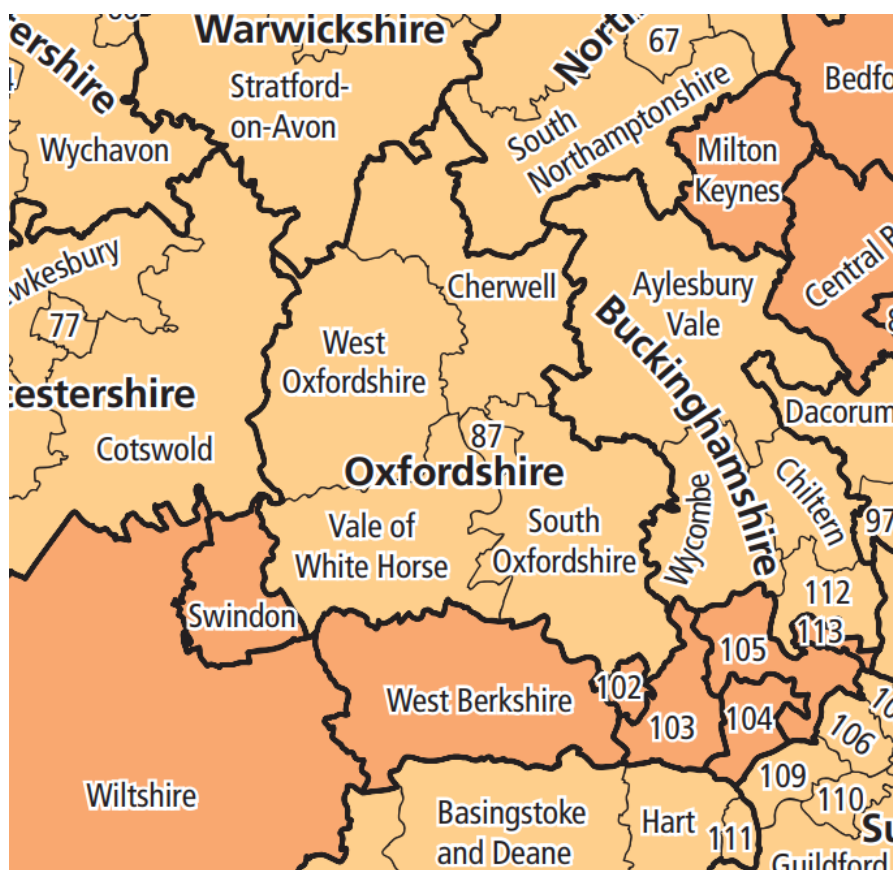

Development Type	CIL RATE (£ per square metre)
<b>Strategic Sites<sup>6</sup></b>	£0
<b>Institutional accommodation:</b> Extra-care, nursing and care homes	£0
<b>Supermarkets and Retail Warehousing</b>	£117
<b>Residential rural exception site</b>	£0
<b>All other development</b>	£0

Source: 2111 VOWH-CIL-Charging-Schedule-Nov-2021

## Adjacent Authority Policies

- 3.63 Figure 3.7 shows the local authority district boundaries surrounding South Oxfordshire and Vale of White Horse District Councils.

**Figure 3.11 – Map of Districts Adjacent to SODC and VOWH**

Source: Google images

- 3.64 In Table 3.16, we summarise the current residential affordable housing targets in surrounding areas for market context. For South Oxfordshire and Vale of White Horse District Councils' emerging Joint Local Plan, policy HOU3 sets out a requirement for 50% affordable housing. This is an increased requirement for both Districts. Currently, the requirement in South Oxfordshire is 40% affordable housing and the requirement in the Vale of White Horse is 35% affordable housing.

**Table 3.16 - Adjacent Authorities Affordable Housing**

<b>Local Authority</b>	<b>Affordable Housing Targets (%)</b>
Cherwell District Council	30% - 35%
West Oxfordshire District Council	30% - 50%
Oxford City Council	50%
Reading Borough Council	30%
West Berkshire Council	30% - 40%
Wokingham Borough Council	50%
Aylesbury Vale	20% - 30%
Wycombe District Council	30% - 40%
Swindon	30%

Source: AspinallVerdi August 2021

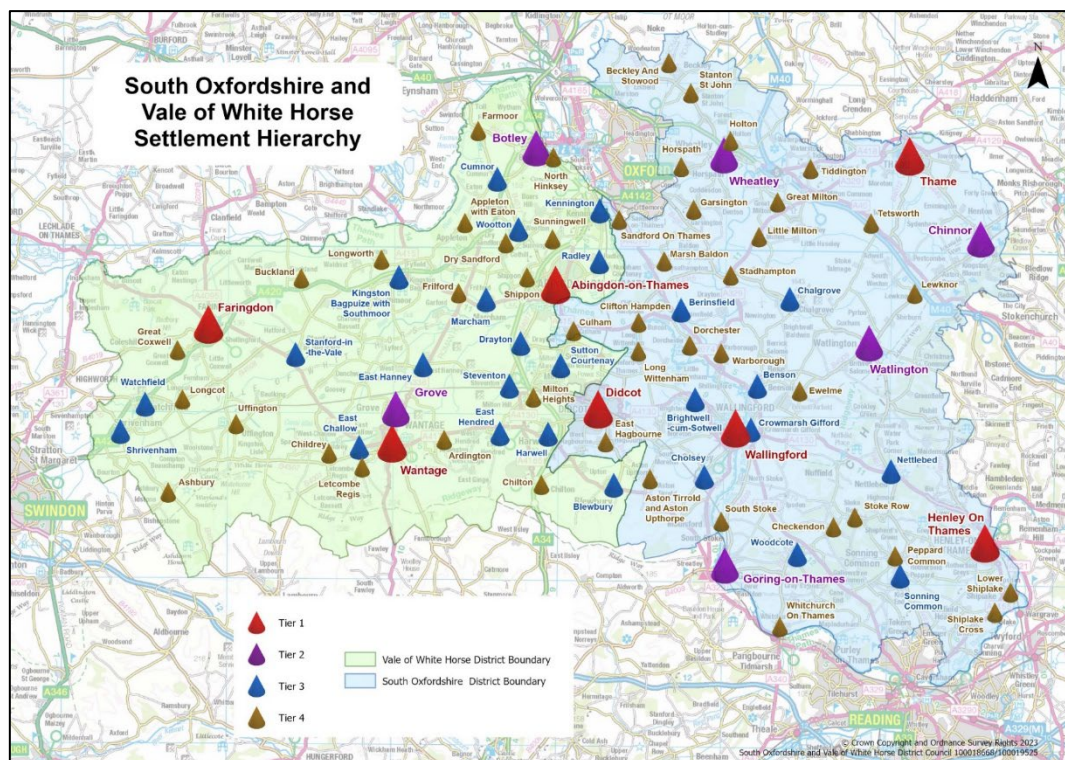

- 3.65 As you can see from the above, South Oxfordshire and Vale of White Horse have a broadly similar target rate of affordable housing (40% and 35%).

## 4 New Build Achieved Values

---

- 4.1 We have carried out a market review of sales values within both the South Oxfordshire District and Vale of White Horse District over the previous 2 years (July 2021 – July 2023). This has been based on a detailed analysis of the Land Registry new build achieved values, cross-referenced, on an address-by-address basis (approx. 900 properties in SODC and VOWH), to the floor areas published on the EPC (Energy Performance Certificate) database in order to derive the achieved values (£ per square meter). This gives a good baseline for comparing the average values across the districts as it devalues each house type to a value per square metre. Note that we removed the Shared Ownership registrations and the extremely high values, 'one-off' properties from the dataset – to focus on the 'typical' new units and avoid skewing the results.
- 4.2 It should also be noted that the Land Registry data for new build achieved values contains a 'PPD Category Type' which is defined on the gov.uk website as:
- "Indicates the type of Price Paid transaction"
- A = Standard Price Paid entry, includes single residential property sold for full market value.
- B = Additional Price Paid entry including transfers under a power of sale/repossessions, buy-to-lets (where they can be identified by a Mortgage) and transfers to non-private individuals
- Note that category B does not separately identify the transaction types stated. HM Land Registry has been collecting information on Category A transactions from January 1995. Category B transactions were identified from October 2013."
- 4.3 For the purposes of this research, we have excluded new build achieved data that falls under category B as the transactions consistently presented discounted transfer values to those provided under category A, therefore not providing a reflection of the true full market value.
- 4.4 Note, that Land Registry values include the value of garages where garages are sold as part of the house. However, the database does not specify whether a house type includes a garage. The value of garages is therefore implicit in the achieved values below.
- 4.5 We have reviewed new build Land Registry data for South Oxfordshire and Vale of White Horse Districts using QGIS mapping software. By doing this we have been able to produce a choropleth map identifying the average price and price per square meter for new build properties across the Districts.
- 4.6 We have focused our research based on the settlement hierarchy within South Oxfordshire and Vale of White Horse. Reviewing the settlement hierarchy has been informed by the South Oxfordshire Local Plan, 2011-2035 (Dec 2020) and Vale of White Horse Local Plan 2031 (Part 1). We have also considered emerging Joint Local Plan policy SP2 which sets out the settlement hierarchy as per the image in Figure 4.1.

**Figure 4.1 - SODC VOWH Settlement Hierarchy**

Source: SODC / VOWH, Joint Local Plan emerging policy SP2.

## Average Achieved Values – By Property Type / Ward

- 4.7 We have reviewed the data (all house types including flats) for each town/market area on a price per square meter (£ psm) basis, this allows us to identify high and low value areas across the Districts.
- 4.8 We have also analysed the data by ward instead of postcode. Whereas postcodes were never designed to be used for local-authority wide analysis, wards lend themselves well to this as they are:
- fully within the district boundary, with no overspill into neighbouring authorities;
  - designed specifically for local authority administration, rather than just geo-location;
  - specifically designed for and used for district-wide administrative purposes, allowing them to be readily translatable and understandable to local authority officers.
- 4.9 This is not to devalue what has come before, but rather to lend a different lens of analysis which will add depth and richness to the comprehension of value zones in South Oxfordshire and Vale of White Horse.
- 4.10 The below tables summarise the average values from the Land Registry, we have used the national minimum space standards to estimate how many bedrooms each property has based on its overall size.

## South Oxfordshire

**Table 4.1 - SODC New Build Achieved Values £ price paid by bedroom no.**

Dwelling type	Size (sqm)	Didcot	Henley	Thame	Wallingford	The rest of SODC
1 bed flat	39- 58	n/a	n/a	n/a	n/a	£246,000
2 bed flat	59-79	£252,450	£540,000	n/a	n/a	n/a
2 bed house	59-79	£312,096	n/a	n/a	£404,950	383,352
3 bed house	80- 108	£389,609	£643,218	n/a	£463,491	447,558
4 bed house	109- 130	£441,928	£805,970	n/a	£478,906	557,159
5+ bed house	131+	£596,551	£1,119,158	£721,000	£747,935	833,214

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

- 4.11 The above table details the new build average values achieved in SODC. We can clearly see that Henley is achieving the highest values, generally ranging from £540,000 to £1,200,000. Didcot and Wallingford are generally exhibiting the 'lowest' values, both generally ranging from £250,000 to £600,000.

**Table 4.2 - SODC New Build £ psm by bedroom no.**

Dwelling type	Size (sqm)	Didcot	Henley	Thame	Wallingford	The rest of SODC
1 bed flat	39- 58	n/a	n/a	n/a	n/a	£5,064
2 bed flat	59-79	£3,324	£7,112	n/a	n/a	n/a
2 bed house	59-79	£4,535	n/a	n/a	£5,771	£5,315
3 bed house	80- 108	£4,230	£6,947	n/a	£5,087	£4,755
4 bed house	109- 130	£3,641	£6,688	n/a	£4,242	£4,525
5+ bed house	131 +	£3,692	£6,539	£3,813	£4,796	£4,702

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

- 4.12 Within SODC, Didcot and Wallingford are generally exhibiting the 'lowest' values, around £3,000 - £4,100 psm.
- 4.13 Values of £4,000 to £4,999 psm are dominant in the central and north portion of the District. Benson & Crowmarsh, Chalgrove, Haseley Brook and Chinnor are all in this category.
- 4.14 The higher values tend toward the north and south, with Henley-on-Thames being £6,000 - £7,500 psm. No new-build sold information was available for the remaining wards for the last 2 years.

## Vale of White Horse

**Table 4.3 - VOWH New Build Achieved Values £ price paid by bedroom no.**

Dwelling type	Size (sqm)	Abingdon	Wantage	Faringdon	The rest of VOWH
1 bed flat	39- 58	£284,000	£192,665	n/a	n/a
2 bed flat	59-79	£414,833	£150,000	n/a	£257,500
2 bed house	59-79	£322,900	£299,954	£302,300	n/a
3 bed house	80- 108	£513,497	£378,089	£373,550	£365,255
4 bed house	109- 130	£567,021	£449,898	£413,714	£437,357
5+ bed house	131 +	£705,623	£574,831	£526,566	£542,763

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

- 4.15 Within VOWH, Wantage and Faringdon are generally exhibiting the 'lowest values, roughly £200,000 - to £550,000.
- 4.16 Abingdon generally exhibits higher values of around £280,000 to £700,000.

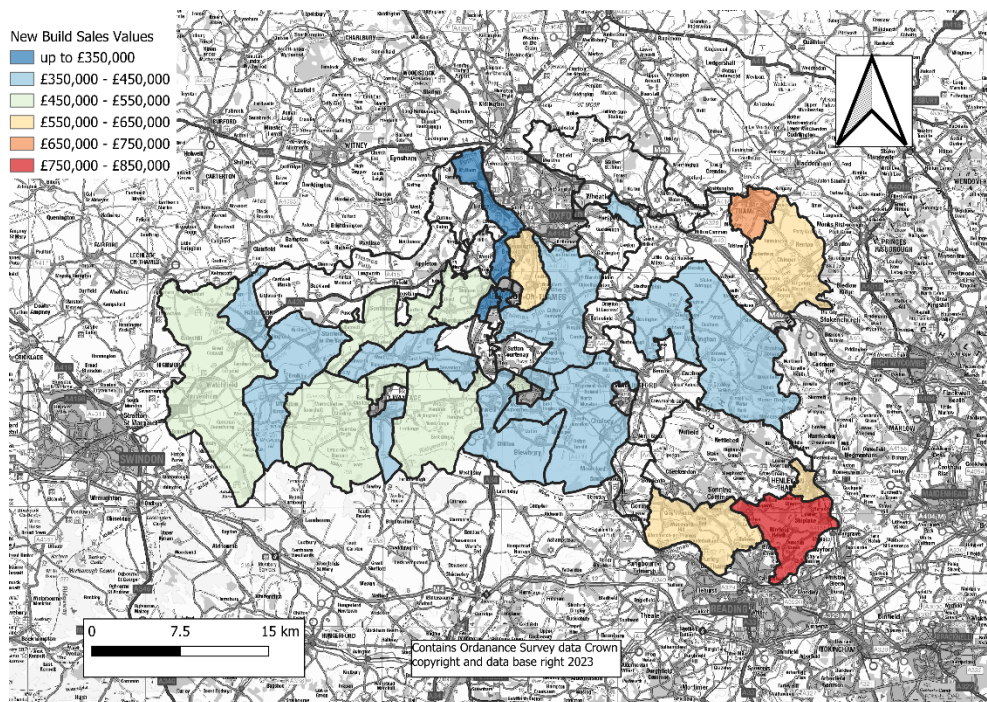

**Table 4.4 - VOWH New Build £ psm by bedroom no.**

Dwelling type	Size (sqm)	Abingdon	Wantage	Faringdon	The rest of VOWH
1 bed flat	39- 58	£5,921	£3,860	n/a	n/a
2 bed flat	59-79	£5,721	£2,542	n/a	£3,818
2 bed house	59-79	£4,662	£3,860	£4,126	n/a
3 bed house	80- 108	£5,474	£4,037	£3,813	£3,639
4 bed house	109- 130	£4,615	£3,720	£3,548	£3,581
5+ bed house	131 +	£4,517	£3,531	£3,394	£3,167

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

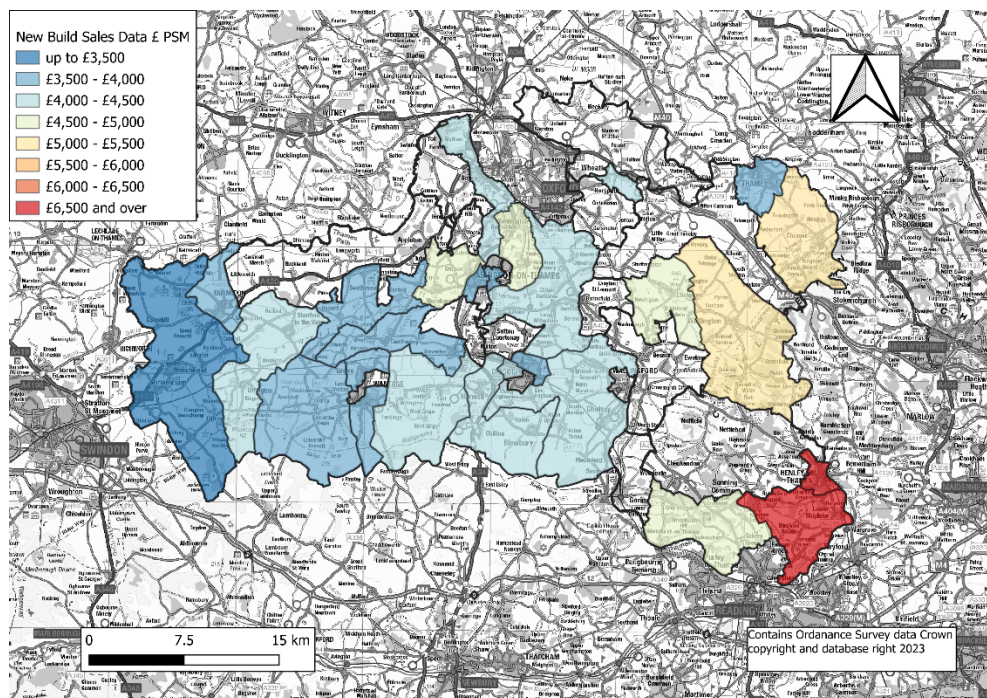

- 4.17 Within VOWH, Wantage and Faringdon are generally exhibiting the 'lowest values, around £3,200 - £4,000 psm.
- 4.18 Abingdon generally exhibits higher values of around £4,500 - £6,000 psm.
- 4.19 The choropleth maps below show the analysis of the new build sales data within the last 2 years.

**Figure 4.2 - New Build Average achieved values by ward**

Source: AspinallVerdi 2023

**Figure 4.3 - New Build Average £ psm**

Source: AspinallVerdi 2023

## 5 Housing Value Zones

---

- 5.1 In this section we build upon our new-build market research to arrive at comparable value zones across the Districts. As can be seen above in terms of the existing evidence base (section 3 above), there have been a number of zoning maps produced for different purposes at various points in time.
- 5.2 The purpose of this section is to create a visual representation of the *differences* in value across the Districts. We have therefore sought to rationalise and simplify the Housing Value Zones for ease of application both in terms of affordable housing policy and the potential future alignment of CIL charging schedules. All planning obligations (including CIL and Affordable Housing etc.) should 'align' in terms of Housing Value Zones and viability.
- 5.3 Note that this section on Housing Value Zones is about the *relativity of values* across zones in South Oxfordshire and Vale of White Horse – not the absolute value assumptions which are contained in section 7 below.

### Second Hand Values

---

- 5.4 To sense check the pattern of new build values across South Oxfordshire we have also reviewed the second-hand market between January and June 2023. There is a greater stock of second-hand properties and turnover is higher than for new builds. We are therefore able to review a shorter timescale looking backwards. As with the new builds, this has been based on an address-by-address basis (approx. 1000 transactions) to the floor areas published on the EPC (Energy Performance Certificate) database in order to derive the achieved values (£ per square meter).

## South Oxfordshire

**Table 5.1 - Second Hand average value achieved SODC by bedroom no.**

Dwelling type	Size (sqm)	Didcot	Henley	Thame	Wallingford	The rest of SODC
1 bed flat	39 - 58	£228,719	£430,333	£272,100	£233,556	£266,900
2 bed flat	59 - 79	£165,062	£315,650	£170,750	£290,000	335,000
2 bed house	59 - 79	£361,500	£513,833	£418,778	£374,400	404,618
3 bed house	80 - 108	£391,375	£562,167	£449,125	£415,599	450,091
4 bed house	109 - 130	£467,778	£837,000	£578,944	£524,667	528,000
5+ bed house	131 +	£637,245	£1,213,195	£810,417	£1,126,912	1,103,853

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

- 5.5 As can be seen from the table above, the lowest value areas for second hand achieved in SODC are generally in Didcot with second hand market values ranging from around £230,000 to £600,000.
- 5.6 As is generally the pattern, Henley on Thames is achieving the highest value for second hand sales, with transaction generally ranging from £430,000 to £1,200,000.

**Table 5.2 - Second Hand average £psm achieved SODC by bedroom no**

Dwelling type	Size (sqm)	Didcot	Henley	Thame	Wallingford	The rest of SODC
1 bed flat	39 - 58	£4,595	n/a	£5,399	£5,211	£5,966
2 bed flat	59 - 79	£2,512	£4,610	£2,571	£3,718	£4,926
2 bed house	59 - 79	£5,085	£7,637	£6,082	£5,343	£5,662
3 bed house	80 - 108	£4,267	£6,016	£4,856	£4,552	£4,861
4 bed house	109 - 130	£3,926	£7,023	£4,928	£4,406	£4,383
5+ bed house	131 +	£4,071	£6,443	£4,498	£5,803	£6,137

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

- 5.7 As can be seen from the table above, the lowest value areas for second hand achieved values in SODC are generally in Didcot with values of around £3,000 - £5,000 psm.
- 5.8 Wallingford is generally in the mid-range and the higher values tend toward the north and south, with Henley-on-Thames being £5,000 - £9,000 psm.

## Vale of White Horse

**Table 5.3 - Second Hand average value achieved VOWH by bedroom no.**

Dwelling type	Size (sqm)	Abingdon	Wantage	Faringdon	The rest of VOWH
1 bed flat	39 - 58	£250,632	185,500	£172,250	£273,050
2 bed flat	59 - 79	£215,000	207,750	£178,333	£235,167
2 bed house	59 - 79	£317,686	287,214	£312,917	£381,167
3 bed house	80 - 108	£404,544	370,694	£319,952	£426,069
4 bed house	109 - 130	£473,932	499,889	£333,500	£581,700
5+ bed house	131 +	£844,974	683,750	£534,120	£989,070

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

- 5.9 Within VOWH, Wantage and Faringdon are generally exhibiting the 'lowest values, ranging from £170,000 to £600,000.
- 5.10 Abingdon generally exhibits higher values, generally ranging from £250,000 to £900,000.

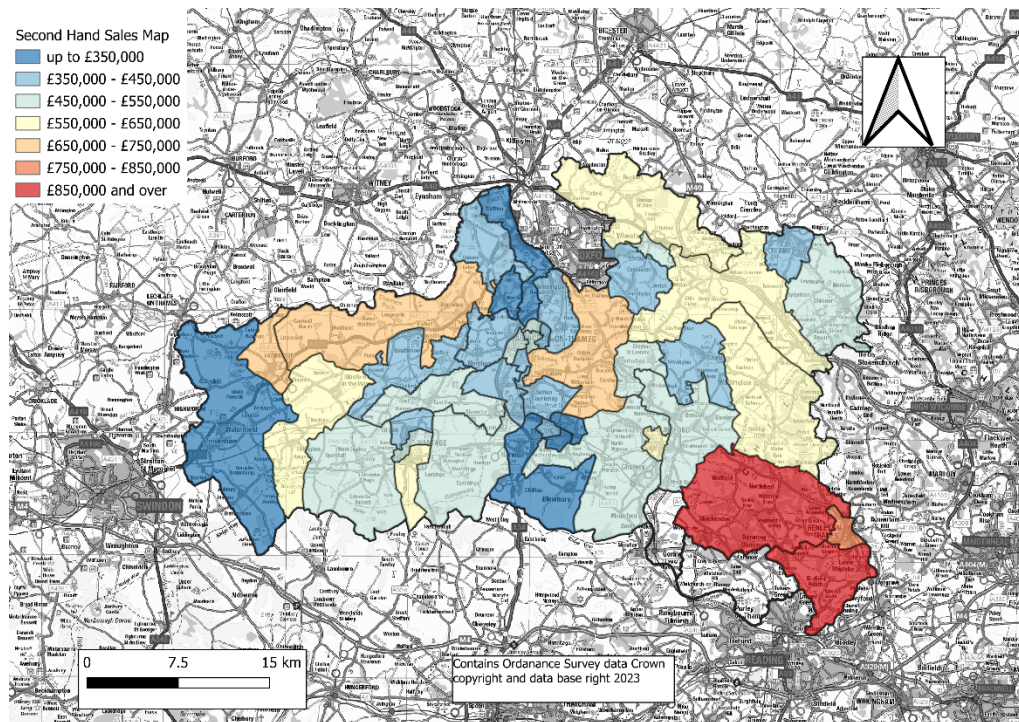

**Table 5.4 - Second Hand average £psm achieved VOWH by bedroom no.**

Dwelling type	Size (sqm)	Abingdon	Wantage	Faringdon	The rest of VOWH
1 bed flat	39 - 58	£5,152	£3,963	£3,862	£5,161
2 bed flat	59 - 79	£3,340	2,970	£2,605	£3,586
2 bed house	59 - 79	£4,488	4,243	£4,604	£5,516
3 bed house	80 - 108	£4,418	£4,079	£3,376	£4,752
4 bed house	109 - 130	£3,979	£4,252	£2,918	£4,885
5+ bed house	131 +	£3,837	£3,887	£3,178	£4,653

Source: Land Registry and EPC (230728 SODC VOWH Residential Market Research v0.1)

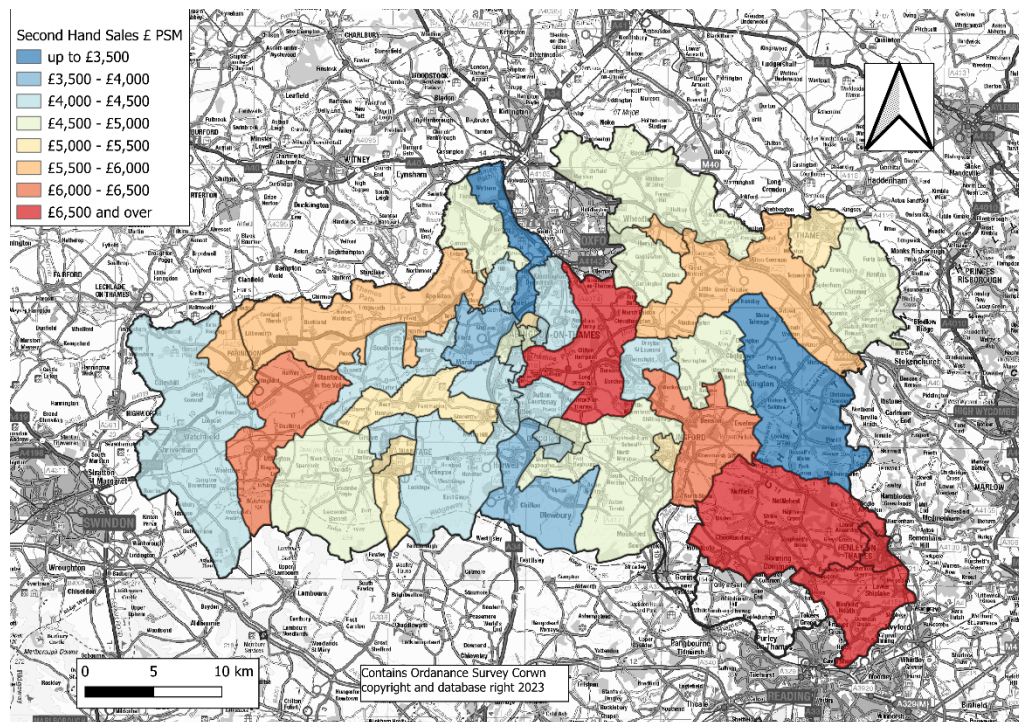

- 5.11 Within VOWH, Wantage and Faringdon are generally exhibiting the 'lowest values, around £3,000-£4,500 psm.
- 5.12 Abingdon generally exhibits higher values of around £4,000 - £5,000.
- 5.13 The choropleth maps below show the analysis of the second-hand sales data within the last 2 years.

**Figure 5.1 - Second Hand Average achieved values by ward**

**Figure 5.2 - Second Hand Average £ psm**

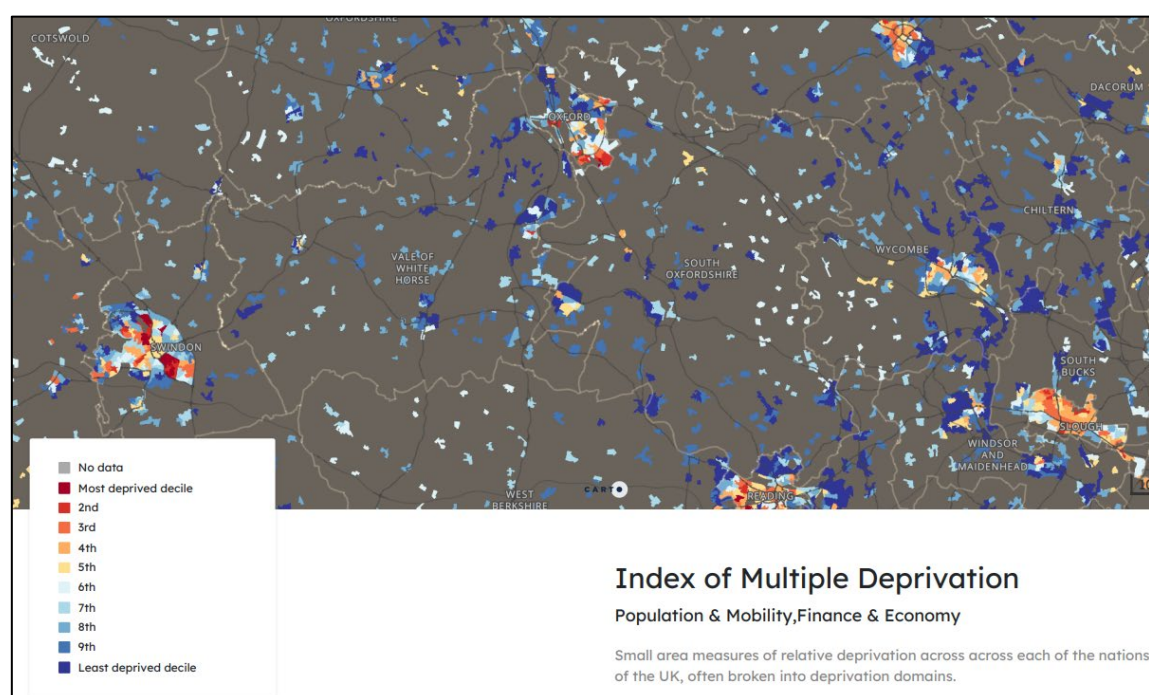

Source: AspinallVerdi 2023

## Index of Multiple Deprivation

- 5.14 When preparing our Housing Value Zones, we have also had regard to the Index of Multiple Deprivation (IMD). The IMD provides a metric for which multiple datapoints, such as average income, health, education, crime, unemployment etc., are all amalgamated into a single rating which shows the level of deprivation that an area is experiencing, this is illustrated on a map (See Figure 5.3).
- 5.15 Although this is not a direct comparison to housing values, it is a very good proxy. In our experience higher values tend to be found in areas of least deprivation and values are lower in areas where there is greatest deprivation. This IMD map is therefore a good proxy for the Housing Zones Map.

**Figure 5.3 - Index of Multiple Deprivation**

Source: Indices of Multiple Deprivation 2023

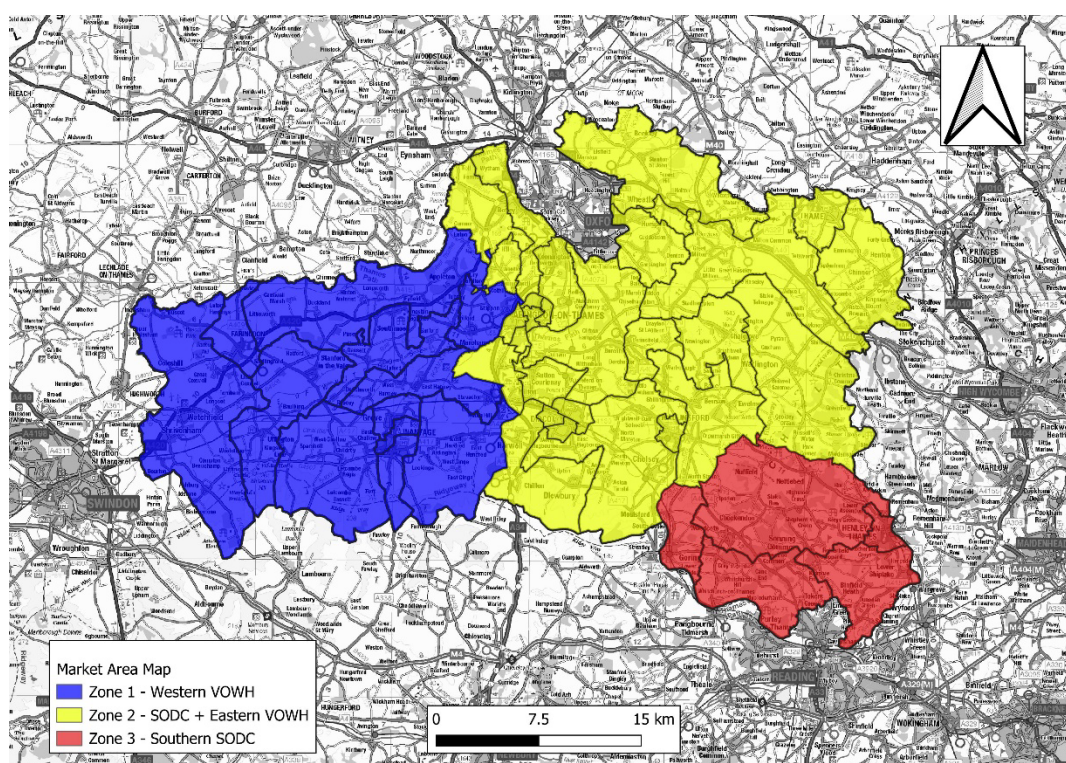

- 5.16 On the above map the red indices are those with most deprivation and the blue areas the least deprivation. The grey areas are no-data areas i.e., mainly rural.
- 5.17 The map clearly shows that there is limited deprivation in South Oxfordshire or the Vale of White Horse. There are no areas of particularly high deprivation (which would suggest a lower value market area).
- 5.18 The evidence is mixed in respect of the lower value zone(s). The majority of the development is or will be taking place on strategic urban extensions including, the recently completed Great Western Park and other garden community sites as well as the Berinsfield strategic site. These sites/developments will be of a scale that they will generate their own values based upon the quality of the urban design and house

specification and whilst lower, would not therefore be substantially lower than the general tone in the rest of the district market.

## Housing Value Zone Map

- 5.19 The below map provides a broader view of the value data in order to provide a general categorisation into 3 different areas. This is based on the second hand £ psm data given that this was able to provide a larger sample size with more transactions and therefore can more accurately indicate value areas.

**Table 5.5 – SODC & VOWH Value Zone Map**

Source; AspinallVerdi 2023

- 5.20 The colour coding breakdown is as follows:

**Table 5.6 – Housing Value Zone Map breakdown**

Zone 1 – Western VOWH	Up to £4,500 psm
Zone 2 – SODC + Eastern VOWH	£4,500 - £6,500 psm
Zone 3 – Southern SODC	£6,500 psm and over

## 6 New Build Asking Prices

---

- 6.1 In July 2023, we reviewed a number of new build developments which were 'on-site' within South Oxfordshire District and the Vale of White Horse at that time to understand the up to date asking values associated with new build properties which can be used in our viability testing.
- 6.2 It should be noted that asking prices may be aspirational and may not reflect the incentives offered by the developer or the actual value a willing purchaser will pay.
- 6.3 The RICS information paper on comparable evidence in property valuation states that asking prices 'cannot by themselves provide reliable evidence of value and should be treated with some caution. They will usually vary from the price achieved on exchange in the open market, but when interpreted with care by an experienced valuer they can provide some guidance as to current market sentiment and trends in value.' Thus, whilst the achieved value data (from the Land Registry in section 4 above) provides robust data, this is retrospective. The asking price analysis in this section provides a review of current prices for new builds. It is important to note that in arriving at our value assumptions for the appraisals we will have had regard to the new build asking prices, but put more weight on the transactional data (section 4). We have also considered the assumptions for the appraisal 'in the round', e.g., having regard to the marketing cost assumptions for sales incentives and discounts (from the headline asking prices).
- 6.4 Finally, it is important to note that the supply ('flow') of new build properties has to be sold within a marketplace that includes an established 'stock' of competing properties. The asking price is therefore tempered by the wider price mechanism.
- 6.5 We have undertaken market research across the district which focuses on a variety of different locations.
- 6.6 Please note that the majority of the new build sales evidence do not include the floor space of the houses, so we are unable to provide analysis/comments on this.

### Wallingford (SODC)

---

- 6.7 In July 2023, there were 2 new developments in Wallingford:

#### Highcroft – Berkeley

---

- 6.8 A development by Berkeley, Highcroft is a new development ranging from 1-bedroom apartments to 5-bedroom traditional styled homes. The development includes a new primary school and 30% open green space.

**Figure 6.1 - Carmel Meadows Location Map**

Source: Google Maps 2023

**Table 6.1 - Highcroft Asking Prices**

Development	Address	Property Type	Asking Price

Phoenix Park, Bellway	Thame, Oxfordshire, OX9 3F	4 Bed detached	£620,000

Source: AspinallVerdi 2023

- 6.18 There were 4 property types advertised for sale at this development. These are summarised in the table above.

## Benson (SODC)

---

6.19 Two new-build developments were on the market in this area.

## Chiltern Grange – David Wilson Homes

- 6.20 This 240-dwelling development is of 2 – 5-bedroom houses. It is located North of Wallingford town centre, in Benson/Rokemarsh:

**Figure 6.7 - Chiltern Grange Location**

## New Build Asking Price Summary

- 6.35 We have summarised the new-build prices below.
- 6.36 New build asking prices can provide a good indication to the market conditions. However, this should not be held with the same weight as transactional data. The asking prices should only be used as a 'spot check' to the transactional data.

**Table 6.15 - New Build Asking Prices Summary**

Property Type	Didcot	Henley-On-Thames	Wallingford	Thame	Benson	Chalgrove	Abingdon	Wantage	Faringdon
2-Bed Apartment	-	£437,600	-	£292,500	-	-	-	£195,000 – £247,000	£287,000
2-Bed House	-	£535,000	£257,000 - £455,000	£372,500	£425,000	-	-	£329,995	-
3-Bed Detached	£465,000 - £575,000	£640,000	£485,000	-	-	£460,000	-	-	-
3-Bed Semi-Detached	£450,000	£600,000	£428,000 - £505,000	-	£399,000 - £425,000	£399,950	£437,500	£489,995	£340,000
3-Bed Terraced	-	-	-	£545,000	-	-	-	-	-
4-Bed Detached	£895,000	£770,00 – £860,000	£530,000 - £825,000	£620,000	£530,000 - £610,000	£540,000	-	£489,995 - £555,000	£440,000
4-Bed Semi-Detached	-	-	-		-	-	£520,000	-	-
5-Bed Detached	£650,000	-	£840,000		£650,000	-	£677,000	£650,000	£500,000

Source: AspinallVerdi 2023

- 6.37 In Wallingford, a range of house types were available on the market but the most common housing type of those properties was 3-bed semi-detached. The asking price in Wallingford for 3-bed semi-detached properties ranged from £428,000 – £505,000.
- 6.38 In Didcot, as of July 2023, the most common property type was a 3-bedroom detached house, prices of which ranged from £465,000 - £575,000.
- 6.39 In Thame, the only housing type available were 5-bedroom detached houses. Of these 5, 4 had a double garage and the other a single garage. The asking prices ranged between £660,000 and £775,000.
- 6.40 In Benson, a range of house types were available on the market but the most common housing type of those properties was 3-bed semi-detached. The asking price in Wallingford for 3-bed semi-detached properties ranged from £399,000 - £425,000.
- 6.41 In Chalgrove, there was only one new build development which contained 3- and 4-bedroom homes starting from £399,950 for a 3-bed semi-detached, up to £540,000 for a 4-bed detached.
- 6.42 Henley-on-Thames had a wide range of property available, from 2-bedroom apartments, to 3 bedroom semi-detached and detached houses, to 4 bedroom semi-detached and detached houses. The most common house type available was 4 bed detached houses, these prices ranged from £770,00 – £860,000.
- 6.43 In Abingdon-on-Thames, limited new build developments were on the market, however a 3 bed-semi-detached was listed at £437,500.
- 6.44 In Wantage, a range of house types were available on the market but the most common housing type of those properties was 4-bed detached. The asking price in Wallingford for 4-bed detached properties ranged from £489,995 - £555,000. Wantage also had a number of 2 bed apartments on the market - prices ranged from £195,000 – £247,000.
- 6.45 In Faringdon, limited new build developments were on the market, however a 3-bed semi-detached was listed at £340,000 and a 4-bed detached was listed at £440,000.

## 7 Residential Value Assumptions

- 7.1 Based on our market assessment above, we have assumed the following values (£ and £ psm) across the area (see Table 7.1 for the Wards in each zone).

**Table 7.1 – SODC and VOWH Market Value (£ psm) Assumptions**

Property type	Floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
1 Bed Flat	49	£7,800	£6,000	£3,800
2 Bed Flat	72	£6,700	£5,000	£2,600
2 Bed House	72	£7,600	£5,600	£4,100
3 Bed House	94	£6,000	£4,900	£3,800
4 bed House	122	£6,700	£4,700	£3,500
5 Bed House	163	£6,500	£4,700	£3,400

Source: AspinallVerdi 2023 230728 SODC VOWH Residential Market Research

- 7.2 Based on the above evidence, our opinion of absolute values is as follows, this opinion takes into account the general housing zones identified, new build transactions over the last 18 months and second-hand transactions where new build data doesn't exist or has an inappropriate sample size. These values have been rounded to the nearest £1,000.

**Table 7.2 – SODC and VOWH Market Value (£) Assumptions**

Property type	Floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
1 Bed Flat	49	£382,000	£294,000	£186,000
2 Bed Flat	72	£482,000	£360,000	£187,000
2 Bed House	72	£547,000	£403,000	£295,000
3 Bed House	94	£564,000	£461,000	£357,000
4 bed House	122	£817,000	£573,000	£427,000
5 Bed House	163	£1,060,000	£766,000	£554,000

Source: AspinallVerdi 2023 230728 SODC VOWH Residential Market Research

7.3 We have made the following assumptions in respect of garages:

- 3 bed houses - 50% have garages;
- 4 bed houses - 100% have garages;
- 5 bed houses - 150% have garages (i.e., 1.5 garages per units – 100% have single garages and 50% have double garages).

## 8 Older Persons Housing

---

- 8.1 This section of the report focuses on specialist accommodation for Older People. We have undertaken a review of the existing evidence base and considered market evidence.

### Specialist Accommodation for Older People Defined

---

- 8.2 There is a separate section of the PPG to help guide Councils in preparing policies on housing for older and disabled people (published 26 June 2019). The PPG recognises the necessity to plan for the housing needs of disabled people:

‘The provision of appropriate housing for people with disabilities, including specialist and supported housing, is crucial in helping them to live safe and independent lives. Unsuitable or unadapted housing can have a negative impact on disabled people and their carers. It can lead to mobility problems inside and outside the home, poorer mental health and a lack of employment opportunities. Providing suitable housing can enable disabled people to live more independently and safely, with greater choice and control over their lives. Without accessible and adaptable housing, disabled people risk facing discrimination and disadvantage in housing. An ageing population will see the numbers of disabled people continuing to increase and it is important we plan early to meet their needs throughout their lifetime.’

- 8.3 The PPG recognises the diversity of specialist housing including:

- Age-restricted general market housing: This type of housing is generally for people aged 55 and over and the active elderly. It may include some shared amenities such as communal gardens, but does not include support or care services.
- Retirement living or sheltered housing: This usually consists of purpose-built flats or bungalows with limited communal facilities such as a lounge, laundry room and guest room. It does not generally provide care services, but provides some support to enable residents to live independently. This can include 24-hour on-site assistance (alarm) and a warden or house manager.
- Extra care housing or housing-with-care: This usually consists of purpose-built or adapted flats or bungalows with a medium to high level of care available if required, through an onsite care agency registered through the Care Quality Commission (CQC). Residents are able to live independently with 24-hour access to support services and staff, and meals are also available. There are often extensive communal areas, such as space to socialise or a wellbeing centre. In some cases, these developments are known as retirement communities or villages - the intention is for residents to benefit from varying levels of care as time progresses.
- Residential care homes and nursing homes: These have individual rooms within a residential building and provide a high level of care meeting all activities of daily living. They do not usually include support services for independent living. This type of housing can also include dementia care homes.

8.4 The PPG states that:

‘There is a significant amount of variability in the types of specialist housing for older people. The list above provides an indication of the different types of housing available but is not definitive. Any single development may contain a range of different types of specialist housing.’

8.5 In this respect we have appraised generic retirement living / sheltered housing schemes typically delivered by developers such as McCarthy & Stone or Churchill retirement living and extra care typologies.

8.6 We set out below the existing evidence base in respect of Older Persons housing.

## Existing Evidence Base

---

8.7 We previously reviewed the Older Persons Housing market for SODC in 2020 as part of the Local Plan viability study. This evidence from 2020 is summarised below.

### SODC Market Report (2020)

---

8.8 In 2020 we reviewed Age Restricted/Extra Care Housing developments which have apartments currently on the market in SODC. We identified four different schemes with properties advertised for sale. These were:

- Williams Place, 170 Greenwood Way - a development located within the Great Western Park strategic urban extension. The development consists of 32 x one bedroom and 28 x two-bedroom apartments for those over 70. At the time of our 2020 report, the following were available for sale: 3 x 1-bed apartments advertised at £285,000 - £300,000; 3 x 2-bed apartments advertised at £337,000 - £352,000.
- The Sidings, Station Road, Wheatley - a small 10-unit development for the over 55s by Beechcroft. At the time of our 2020 report, the following were available for sale: 4 x 2-bed apartments advertised at £460,000 - £499,950.
- Farthing House, St Martins Street, Wallingford –another small over 55s development by Beechcroft. At the time of our 2020 report, the following were available for sale: 1 x 1-bed apartment advertised at £395,000; 1 x 2-bed apartment advertised at £480,000.
- Albert Court, 345 Reading Road, Henley-on-Thames - a McCarthy and Stone development consisting of 23 x one-bedroom and 31 x two-bedroom apartments for those over 70. At the time of our 2020 report, the following were available for sale: 12 x 1-bed apartments advertised at £400,000 - £500,000; 16 x 2-bed apartments advertised at £545,000 - £586,000.

8.9 We took the average asking prices from the developments above and assumed the following values for sheltered housing / retirement living properties:

**Table 8.1 – SODC Retirement Living / Sheltered Housing Value Assumptions (2020)**

No. of Beds	Unit Price	Floor Area	Price psm
1-Bed	£290,000	50	£5,800
2-Bed	£387,000	75	£5,160

Source: AspinallVerdi 2018

- 8.10 Based on the above values, we applied a 25% premium to establish a value for the extra-care housing:

**Table 8.2 -SODC Extra-Care Housing Value Assumptions (2020)**

No. of Beds	Unit Price	Floor Area	Price psm
1-Bed	£363,000	60	£6,050
2-Bed	£484,000	80	£6,050

Source: AspinallVerdi 2018

## VOWH Residential Market Paper (2020)

---

- 8.11 Similarly, we previously reviewed the Older Persons Housing market for VOWH in 2019 and 2020 as part of the Local Plan viability study. The evidence from 2020 is summarised below.
- 8.12 We based our value assumptions on new-build asking prices from Faringdon and Wantage, as we assumed the older persons housing in our typology appraisals will be located in the 'rest of district' area (following recent trends (at that time)). This was also on the basis that if the scheme is viable in the lower value area, it will be viable in the higher value area.
- 8.13 We reviewed values in 2020 and concluded that values had not changed significantly. The following values were therefore applied in both our 2019 and 2020 appraisals.
- 8.14 We assumed the following values for sheltered housing / retirement living properties within the rest of the district area:

**Table 8.3 – VOWH Retirement Living / Sheltered Housing Value Assumptions (2020)**

No. of Beds	Unit Price	Floor Area (sqm)	Price psm
1-Bed	£240,000	50	£4,800
2-Bed	£300,000	75	£4,000

- 8.15 We applied a 25% premium to establish a value for the extra-care housing. This was based on benchmark guidance from the Retirement Housing Group.

**Table 8.4 - VOWH Extra-Care Housing Value Assumptions (2020)**

No. of Beds	Unit Price	Floor Area (sqm)	Price psm
1-Bed	£300,000	60	£5,000
2-Bed	£375,000	80	£4,688

#### Specialist Accommodation for Older People Value Assumptions

- 8.16 The Retirement Housing Group acknowledges that sheltered housing values carry a premium on typical private residential apartments.
- 8.17 The Retirement Housing Group applies a rule of thumb approach which is outlined in the table below.

**Table 8.5 - Sheltered Housing and ECH Sales Values**

Typology	Assumption
Sheltered housing unit prices	<p>In high value areas -</p> <ul style="list-style-type: none"> <li>10-15% premium to private market 1/2 bed flats</li> </ul> <p>Or, in low value areas (with no apartment scheme comparables) -</p> <ul style="list-style-type: none"> <li>75% value of 3-bed semi-detached house for a 1 bed sheltered housing unit, and</li> <li>100% value of 3-bed semi-detached house for a 2-bed sheltered housing unit</li> </ul>
Extra-care housing unit prices	<ul style="list-style-type: none"> <li>25% premium to sheltered housing</li> </ul>

Source: Retirement Housing Group 201312

- 8.18 We have reflected the above value parameters within our supported living value assumptions.

## Sector Market Review

---

- 8.19 BNP Paribas Real Estate (2022)<sup>1</sup> noted that there is a severe undersupply of Housing with Care communities in the UK. Their article states that there are 12.7m over 65's living in the UK (source ONS Population Projections 2020-based) and this is expected to increase to 16.5m by 2036. Assuming demand for housing with care is c. 5%, in line with other developed countries such as New Zealand, and adjusting for the number of beds per unit, BNP Paribas Real Estate estimate a shortfall of 487,000 units which need to be built. Assuming 150 units per community, that's 3,245 communities needed to account for the shortfall. Moreover, this doesn't account for the 31% projected increase in 65 years plus over the next 15 years.
- 8.20 According to Knight Frank's annual Seniors Housing Development Update (Summer 2023) the seniors housing market had its strongest year since 2018 in terms of new delivery, led by a further expansion of the IRC (Integrated Retirement Community) market. More than 8,000 new seniors housing units were built in 2022 across 145 schemes, a 6.4% increase on the previous year's delivery. IRC schemes are now the dominant form of new delivery and accounted for 58% of new seniors housing units built in 2022, up from 49% in 2021 and 40% in 2020. More IRC homes were completed in 2022 than at any point since 2016.
- 8.21 ONS forecasts suggest there will be an additional 4.2 million seniors by 2040, at which point 25% of the population will be aged 65 or over, highlighting the future demands for seniors housing.

## SODC / VOWH Market Review

---

- 8.22 We have analysed Rightmove to gather evidence and come to a view on older person's housing values in South Oxfordshire and Vale of White Horse.

### Didcot

---

- 8.23 Williams Place is a newbuild Retirement Living Plus (i.e., with care) development by McCarthy and Stone in Didcot, opposite an Asda supermarket.
- 8.24 Williams Place is a one- and two-bedroom development, designed exclusively for the over 70s, where on-site flexible care and support is provided (the extra care, or 'plus' element), a restaurant and management on-site 24 hours a day (the element which is standard even without extra care).
- 8.25 1-bedroom units are currently being marketed, with both renting and purchasing options available for any given unit. The asking price is £302,000, and the rent (including the service charge and ground rent), is £2,405 pcm. There is also the option to part-buy, and part rent, where the occupier buys a share of the property and rents the remainder.

---

<sup>1</sup> <https://www.realestate.bnpparibas.co.uk/2022/oct/uks-senior-living-shortage>

## Henley-on-Thames

---

- 8.26 McCarthy and Stone also have a retirement living plus product in Henley-on-Thames, called Albert Court. This is a 1 and 2-bedroom apartment development, of 40 apartments available to rent, buy or part buy and part rent. 1 and 2-bedroom apartment asking prices are £400,000 and £530,000 respectively.
- 8.27 2-bedroom rents are £4,730 per annum.

## Abingdon

---

- 8.28 McCarthy and Stone also have 2 retirement living schemes in Abingdon, Turner Place and William House. Turner Place has 41 flats, prices range from £299,000 for a 1 bed and £399,000 for a 2 bed. William House prices range from £299,000 for a 1 bed and £425,000 for a 2 bed.

## Wantage

---

- 8.29 The Rivus, Wantage is an over 55's development by Cognatum, containing 1, 2, and 3-bedroom apartments with communal facilities available to residents. Prices range from £265,00 for a 1-bedroom flat to £495,000 for a three-bedroom flat.

## FVA Reviews

---

- 8.30 AspinallVerdi has been retained by SODC to review a number of older persons housing schemes for S106 commuted sum negotiations recently. These included:
- The Smith Centre, Henley-on-Thames (January 2023). Here we assumed values of £518,000 - £578,000 for 1-bed units, £602,000 - £826,000 for 2-bed units and £1.05m - £2.28m for 3-bed units.
  - Sonning Common, Sonning (March 2021). Here we assumed £448,756 - £590,869 for 1-bed units and £505,400 - £1.2 m for 2-bed units.
- 8.31 As you can see there is a very broad range in values depending upon the location, size and specification of the development.

## Summary of new build values

- 8.32 The table below provides a summary of typical values for new build retirement apartments in various towns.

**Table 8.6 New Build Retirement Flat Values**

No. of Beds	Unit Price	Floor Area	Price per zone (£ psm)
Wallingford 1 Bed	£235,000	50	£4,700
Wallingford 2 Bed	£335,000	75	£4,467
Didcot 1 Bed	£225,000	50	£4,500
Didcot 2 Bed	£300,000	75	£4,000
Thame 1 Bed	£225,000	50	£4,500
Thame 2 Bed	£275,000	75	£3,667
Henley-on-Thames 1 Bed	£425,000	50	£8,000
Henley-on-Thames 2 Bed	£550,000	75	£7,333
Abingdon-on-Thames 1 Bed	£300,000	50	£6,000
Abingdon-on-Thames 2 Bed	£400,000	75	£5,333
Wantage 1 Bed	£250,000	50	£5,000
Wantage 2 Bed	£325,000	75	£4,333
Faringdon 1 Bed	£175,000	50	£3,500
Faringdon 2 Bed	£225,000	75	£3,000

Source: AspinallVerdi 2023

## Second Hand Older Person's Housing

- 8.33 We set out below some comparable asking prices for the second-hand retirement market in South Oxfordshire and Vale of White Horse. These are standard retirement flats, not extra care.

**Table 8.7 - Second Hand Retirement Apartment Asking Prices**

<b>Town</b>	<b>Address</b>	<b>Bedrooms</b>	<b>Asking Price</b>
Wallingford	Barnaby Court, Wallingford	2	£335,000
Wallingford	Barnaby Court, Wallingford	1	£225,000
Didcot	Williams Place, 170 Greenwood Way, Didcot OX11 6GY	2	£300,000
Didcot	Williams Place, 170 Greenwood Way, Didcot OX11 6GY	1	£225,000
Thame	Summersbee Court, Thame, Oxfordshire	2	£245,000
Henley-on-Thames	Wargrave Road, Henley-on-Thames, Berkshire, RG9	1	£475,000
Henley-on-Thames	345 Reading Road, Henley-On-Thames	1	£399,000
Henley-on-Thames	Reading Road, Henley-On-Thames	1	£290,000
Abingdon-on-Thames	Ock Street, Abingdon	2	£484,950
Abingdon-on-Thames	Ock Street, Abingdon	1	£301,950
Wantage	Church Street, Fleur De Lis, OX12	2	£320,000
Wantage	Church Street, Fleur De Lis, OX12	1	£285,000
Wantage	Betjeman Court, Portway, Wantage	1	£145,000
Faringdon	Swan Lane, Faringdon, SN7	1	£150,000

Source: Rightmove 2023

## Older Persons Housing Value Assumptions

- 8.34 The asking prices above reconcile with the new-build and second-hand evidence we gathered around retirement home values in South Oxfordshire and Vale of White Horse in 2023. That evidence pointed to floor areas of 50 sqm for 1-bedroom

apartments, 75 sqm for 2-bedroom apartments, 60 sqm for 1-bedroom extra care and 80 sqm for 2-bedroom extra care.

8.35 As previously outlined, the extra care units are assumed to yield a 25% increase on values of the standard retirement unit.

8.36 Based on all of the above evidence, the values we have adopted are as follows:

**Table 8.8 - SODC and VOWH Older Persons MV (£ psm) Assumptions**

Property type	Average floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
1 Bed Flat	50	£8,000	£5,000	£3,500
2 Bed Flat	75	£7,333	£4,333	£3,000
1 Bed Flat (extra care)	60	£10,000	£6,250	£4,375
2 Bed Flat (extra care)	80	£9,166	£5,416	£3,750

Source: AspinallVerdi 2023 230728 SODC VOWH Residential Market Research

**Table 8.9 - SODC and VOWH Older Persons MV Assumptions**

Property type	Average floor area sqm	Zone 3 – Southern SODC	Zone 2 – SODC + Eastern VOWH	Zone 1 – Western VOWH
1 Bed Flat	50	£400,000	£250,000	£175,000
2 Bed Flat	75	£550,000	£325,000	£225,000
1 Bed Flat (extra care)	60	£600,000	£375,000	£263,000
2 Bed Flat (extra care)	80	£733,000	£433,000	£300,000

Source: AspinallVerdi 2023 230728 SODC VOWH Residential Market Research

## Empty Property Costs

8.37 It is reasonable to consider an element of Empty Property / Leakage costs in relation to older persons housing, this is generally because:

- Preference for Physical Viewing: Older individuals often prefer to physically visit and inspect a property before making a purchase decision. They may want to ensure that the accommodation meets their specific needs and preferences, such as accessibility, safety features, or proximity to amenities. This can lead to

properties sitting vacant for longer periods while potential buyers or tenants inspect them.

- Lack of Off-Plan Purchases: Unlike younger buyers who may be more willing to purchase properties off-plan (before construction is complete), older individuals may be more cautious and prefer to see the finished product. This can result in longer marketing periods for the properties and higher costs associated with keeping them vacant.

8.38 For the aforementioned Sonning Common FVA, AspinallVerdi applied Empty Property Costs. This incorporated the following:

- Service charge shortfall
- Council tax

## 9 Affordable Housing Transfer Values

---

- 9.1 In our previous Local Plan viability reports for SODC and VOWH we summarised the existing evidence.
- 9.2 In 2018 and 2020 we adopted the following values:
- |                 |   |            |
|-----------------|---|------------|
| Intermediate    | – | 76% of OMV |
| Affordable rent | – | 60% of OMV |
| Social rent     | – | 44% of OMV |
- 9.3 This was upon recommendation from SODC and we presume the same approach should be taken for VOWH.
- 9.4 We have confirmed with the Council that the transfer value percentages from 2020 remain current.
- 9.5 The only difference is in respect of the introduction of First Homes.

### PPG for First Homes

---

- 9.6 On 23 December 2021 MHCLG issued guidance on First Homes. The guidance provides the following description for First Homes:
- ‘First Homes are a specific kind of discounted market sale housing and should be considered to meet the definition of ‘affordable housing’ for planning purposes. Specifically, First Homes are discounted market sale units which:
- a) must be discounted by a minimum of 30% against the market value;
  - b) are sold to a person or persons meeting the First Homes eligibility criteria (see below);
  - c) on their first sale, will have a restriction registered on the title at HM Land Registry to ensure this discount (as a percentage of current market value) and certain other restrictions are passed on at each subsequent title transfer; and,
  - d) after the discount has been applied, the first sale must be at a price no higher than £250,000 (or £420,000 in Greater London).
- First Homes are the government’s preferred discounted market tenure and should account for at least 25% of all affordable housing units delivered by developers through planning obligations.’
- 9.7 The guidance explains that there should be a S106 agreement to secure restrictions: ‘on the use and sale of the property, and a legal restriction on the title of the property to ensure that these restrictions are applied to the property at each future sale. The price cap of £250,000 (or £420,000 in Greater London), however, applies only to the first sale and not to any subsequent sales of any given First Home.’
- 9.8 The guidance explains that homes meeting First Homes criteria should be considered to meet the definition of affordable housing for planning purposes.

## 10% Affordable Home Ownership

---

- 9.9 Note that PPG First Homes Paragraph: 023 Reference ID: 70-023-20210524 requires that 10% of all homes are to be for affordable home ownership. The affordable housing tenure mix is set out in the separate Typologies Matrix.

## Affordable Housing Transfer Values Assumptions

---

- 9.10 We set out in the following table our affordable housing transfer value assumption adopted in our appraisals:

**Table 9.1 - Affordable Housing Transfer Values Assumptions**

Tenure	Transfer Value (% of MV)	Comments
Intermediate	76%	
Affordable rent	60%	
Social rent	44%	
First homes	70%	Capped at £250,000

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS									
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS									
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

Balance (RLV - BLV £ per acre (n))		Affordable Housing - % on site 75%

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

Balance (RLV - BLV £ per acre (n))		Affordable Housing - % on site 50%

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS

The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above.

Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1

SENSITIVITY ANALYSIS								
The following sensitivity tables show the balance of the appraisal (RLV-BLV £ per acre) for changes in appraisal input assumptions above. Where the surplus is positive (green) the policy is viable. Where the surplus is negative (red) the policy is not viable.								
TABLE 1
